

How to setup a specified storage policy to VM and Disk

Jing, mqjing@gmail.com

Setup All hdd storage policy as 'Virtual SAN Default Storage Policy'

get-vm -name 'h130-2' | Get-HardDisk | Set-SpbmEntityConfiguration
-StoragePolicy 'Virtual SAN Default Storage Policy'

```
PowerCLI C:\Windows\system32> get-vm -name 'h130-2' | Get-HardDisk | Set-SpbmEntityConfiguration -StoragePolicy 'Virtual SAN Default Storage Policy'
```

Entity	Storage Policy	Status	Time Of Check
Hard disk 1	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:05 AM
Hard disk 2	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:10 AM
Hard disk 3	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:13 AM
Hard disk 4	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:18 AM
Hard disk 5	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:21 AM
Hard disk 6	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:25 AM
Hard disk 7	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:29 AM
Hard disk 8	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:32 AM
Hard disk 9	Virtual SAN Default Storage...	compliant	8/28/2015 3:44:37 AM
