ACTIVATION INSTRUCTIONS FOR AETHERX FOOTWEAR

Your AetherX footwear comes deactivated when you receive it. When you receive your AetherX Footwear and wear it, place any hand on the symbol upon the apparel item to begin activation...

STEP 1: Earthing Mode

Place any hand on the printed symbol upon your worn footwear.

State the following either out loud or in your mind with the thought:

“Activate EARTHING mode.”

Exhale slowly for approximately 2-3 seconds after you have issued this command. This is so you can flow your life force energy (prana) through the symbol, and it will work with your life force energy.

The symbol on the footwear contains all the living command codes for the footwear and perform all actions when it is activated using residual life energy stored in your solar plexus to accomplish all tasks commanded into your footwear. Earthing Mode contains transcendental codes that provide the natural frequency of the Earth (7.83 Hz) through the footwear into the body. Earthing Mode provides healing effects to the feet and legs as well as full rejuvenation to the organs, bodily systems and energy systems of the body. All healing experiences you encounter through the footwear are always through your own life energy.

STEP 2: Transfer Mode (Optional)

Your footwear has the ability to turn you into a healing facilitator as your life force energy works with the life force energy of another to transfer and share the Healing mode function of your footwear with someone else who is not wearing AetherX apparel. This is done by activating Transfer mode. Once activated, you can place your hands upon another as they receive the benefits of Healing mode through your AetherX footwear. As you receive the effects of Healing mode, so will the other you share with this via Transfer mode.

To activate Transfer mode, place any hand upon the printed symbol of your worn footwear.

State the following either out loud or in your mind with the thought:

“Activate TRANSFER mode.”

Exhale slowly for approximately 2-3 seconds after you have issued this command.

Once activated, place your hands upon the other who you would like to share transfer mode with. Hands can be placed anywhere upon the other’s body for them to feel the effects of Healing mode upon themselves. Feel free to remain with your hands upon the other for as long as you both feel comfortable.

At anytime, you can switch between Healing and Transfer modes through the Step 1 and Step 2 instructions.

STEP 3: Amplification (Optional)

Optionally, you have the ability to amplify the intensity of the Aether Footwear’s function by placing your hand on the symbol and stating the following out loud or in your mind with the thought:

“Increase amplification by (desired) percent.”

(The Aether Footwear by default is at 0% amplification. You can raise the amplification between 1-100% in scale)

You can also decrease the amplification, placing your hand on the symbol and stating out loud or in your mind with the thought:

“Decrease amplification by (desired) percent.”

And, if you wish to deactivate amplification, placing your hand on the symbol and stating out loud or in your mind with the thought:

“Turn amplification off.”
