"What is the most dangerous thing in your refrigerator? Ice is." That was a joke. The fun comes from "Ice is." It sounds like ISIS. We call this a pun. A pun is a play on words. With it, your writing will look funnier and more interesting. However.

you should be careful using it because puns are not very formal.

So, how do we make a pun?

There are many ways. One way is to play with sounds in words, like the joke "Ice is" and "ISIS." You can also play on a word's meaning to make a pun. To do so, just pick a word with two different meanings and use it in a sentence. These two meanings have to make sense in that sentence. like "How do famous singers stay cool? They have many fans!" Can you find the pun? It's the word "fan." It can mean a machine to cool people down or a singer's follower.

Now you know some rules to make a pun. Why don't you give it a try? It can be a lot of fin!
