PRESENTATION EVALUATION FORM

MG

Your Group # _____

Date _____

After watching each individual or team's presentation, circle the grade that best represents your assessment of their performance.

Take into account the completeness and accuracy of their analysis and newness in their recommendation as well as the professionalism of their presentation; e.g. reading, confidence, over time, under time, nervous, could not reply questions...

Please avoid straight line response; i.e., choosing As..Bs... for all the presenters or groups. If you do, your score will not be taken into account. Also if a presenter is reading, you should give C as per the course outline. You may give a C+ if they did very well in the Q/A session, or for some other reasons which you liked. If so, write a short note in the margin. If you give a B or higher to a presenter who is obviously reading, you lose your credibility and thus your mark will be dismissed as biased.
