## Winner's Writing Process

**Business Type** - Local door, locks, basically a security furniture store.

**Business objective** - 1) Get 200 high-intent leads going through the funnel.

**Funnel structure** - Google search ads > Landing page > local visit/call > website with products.

2) **Objective of the marketing asset** - land people on a page and drive them to call us And get a specific consultation.

**I'm doing a minimalistic landing page to push it out and only then do all the fancy stuff after it works and gains leads**

Important note as gaps in the WWP answers to questions: initially I've been doing landing page for locks only. Then I realised I needed to put more products like Doors, and door furniture as a category, and add 2 services like Measurement and installation. And it triggers pain of having his current after year design of door furniture and handles, and locks using old lock systems so literally everybody can enter their property. And the desire kicks in, to protect his home. Family, improve the style and make his house design look stylish and modern.
