

Lynn Waldrop - Bone Building MP3

Bone – Bones deals with some Mind Detox on things like a fear of breaking bones, genetics and hereditary conditions or even fear of moving forward. We clear these TFEs from the cells as well as work the physical components such as calcium and phosphorus production, osteoporosis, bone marrow health, fractures, living in pain and much more!

“What you do amazes me! I listened to the Bone mp3 the day I received it, and I was shocked by how different I felt afterwards. For the first time, my Body felt completely peaceful. That was 3 weeks ago, and I’m still feeling the peacefulness. Thank you Lynn!”
-Stephanie
