

## STEP 4: RATE, REVIEW, REPORT

After reading the book, or at least a chunk of it, you will take on the role of a Book Critic, and will complete three steps, ultimately sharing out, presentation-style, about your text and if you would recommend it to our class audience.

### → RATE:

Utilizing a Yelp-style system, rate the book from 1 to 5 stars (1 = lowest, 5 = highest)

### → REVIEW:

Book reviews are part summary and part opinion. Provide your feedback about the style, voice, organization, and content of the book. This should also serve as an explanation for your rating above. 200+ words.

### → REPORT:

Compose a Google Slides presentation that includes the following components as a way to share your book review with the class.

Requirements:

- Title, author, publication date, book cover image
- About the Author (refer back to Step 1, revise as needed)
- Book Summary (refer back to Step 2, revise as needed)
- Notable Moments: Select 3 favorite moments - quotes, chapters, excerpts, etc. - to share and discuss. (refer back to Step 3 if it helps)
- Rate & Review (refer back to above, revise as needed)

You will present your Slides to the class with the goal of teaching them about your book and, hopefully, encouraging them to read it as well.

Share the link to your Slides in the space below.
