Short Abstract (in about 150 words)

Section 1 Background (a running text covering the following questions)

Information on the school -- when established, number of students and grades. Gender ratio, socio-economic background of children attending school.

How many teachers in the school? When did you start implementing CT ?

How many periods in a week for CT? How many teachers are involved in CT?

Section 2 Implementation

Give sufficiently detailed examples of how the lesson/concept/variation was implemented (i.e., what exactly do students and teachers do?) Specifically mention the tasks you did on the concept, the duration, class size and other relevant details.

Challenges (If any)

Section 3 The Impact

Describe the impact (e.g the change in the specific performance of the students) and how you measured them e.g. systematic study to collect students/teachers/parents feedback has been evaluated or performance in a test/challenge

Feel free to add photographs and/or links to any videos

Section 4 Conclusion

Summary remarks

Section 5 Bibliography / references (if any)
