

## Revolution School

Dear Families of 11th graders,

We are excited to partner with you to support your students as they begin planning for their future beyond Revolution School! The following outlines some of the upcoming programming we have in store for your students.

**SAT Prep:** Beginning this quarter, students will meet twice each week for guided practice using [Khan Academy](#). This is an adaptive program that is endorsed by the College Board, and it is free for your students.

**Dual Enrollment with [Community College of Philadelphia \(CCP\)](#):** This week, all 11th grade students will apply to CCP. This gives students the opportunity to enroll in a college-level course either this summer or in the upcoming school year. On Tuesday, 2/28, students will have lunch at CCP, tour the campus, and take a placement test. We will discuss potential course opportunities with you and your student at the end of the third quarter.

**Future Ready Counseling:** Starting in the fourth quarter and continuing through their senior year, students will be enrolled in a weekly Future Ready Counseling class. During this time, students will:

- Analyze post-secondary pathways and discern options
- Develop and finalize a balanced list of opportunities
- Write a strong personal statement essay
- Complete and submit the Common Application
- Apply for Financial Aid & Scholarship

If you have any questions, please reach out at any time!

All the best,

Joel Dankoff & Jeanne Mulvanerty
