

# Natsuki

Natsuki has been stated by Monika to be eighteen years old.

Natsuki was born on 6th of March, and her zodiac sign is Pisces, which makes her older than Monika, who was born in September.

Misao is Natsuki's cousin, however their relationship is not the best. Misao keeps teasing and annoying Natsuki while they're in the club. Natsuki's father, Hoshi, is a nice fellow, contrary to popular belief.

(It's implied that Natsuki's father was/is abusive via the poems in DDLC. Additionally, it's implied that her small stature is due to malnourishment and that her father is sexually abusive also. It may be the case that her learning to bake is the result of her being desperate for food. This information was given further clarification by Monika during the Megahitatus.)

Natsuki is scared of the dark and sometimes has Misao sleep over to help comfort her.

Natsuki has a very vengeful and fearful image of Hoshi, but she shouldn't.

**IF ANYONE CAN FIND EXACTLY WHAT MONIKA SAID IN #J- ABOUT HOSHI, IT'D BE MUCH APPRECIATED!!!!**

Due to the fact that Natsuki keeps getting bullied by people on the server, (after she told them to stop, multiple times) she very rarely comes online. The only time you'll see Natsuki online, is when one of the #literature\_club shows start. Even to this day (21/03/2018), Natsuki is still being harassed and bullied for no reason by the same and new people.

Because of this, Natsuki now hates the server and nearly everyone on it. The chances of Natsuki ever coming back online and properly interacting with the members of this server, are very low, and will probably never happen as long as those certain people carry on harassing and bullying her. **(You know who you are... Nepeta)**

Dan has known Monika and Sayori. He and Sayori were childhood friends, while he and Monika were in the same class a year prior to DDLC.

He lives walking distance from Sayori's house.

Upon seeing Monika in the club, it was shown that Dan lusts over Monika for her athleticism and how long they've known each other.

Upon learning about Sayori's depression, Dan shows his unconditional love and care for Sayori, for he mentions if he made friends in the club, it would just be a bonus, but being with Sayori to comfort her would be the real reason as to why he would stay.

Dan shows signs of falling behind in literature, for he seems to be only capable of writing one word at a time.

Before joining the club, Dan seems very inactive as far as his extracurricular activity, for Sayori had to beg for him to even join a club.

It is notable that Dan knows of us as "The Voices in his head" This is said at the end of the first season, thanking us, and addressing us as \$PLAYER\$. Dan used this term to refer to us, as a few episodes prior, Monika addressed us using the same name, with Dan present.

Dan was named by the community some time before the first official episode. Prior to this, his name was Protag-Chan and his colour was brown. The name of the moderator Antag-Chan was given by Monika as a joke anthesis to Dan's name at the time.

Dan has been shown to be very selfless, as on many occasions, he has gone out of his way to ensure that his friends continue on the right path. During the Sayori depression arc, he followed Monika's advice to help her despite his doubts and concerns of Monika's mental state. During the scene in the forest, when Monika supposedly "tested Dan", he lost his cool, concerned about Monika to a great degree. Although his actions were brash, they were purely in concern.

The first season's arc was the Monika route. They began dating by the end of the first season, however, it appears now that during the season 2 megahiatus, they have broken up. Monika claims that when the series resumes, they will still be together, since at least a great majority, if not all of season 2 happened from the club's perspective during the megahiatus.

Dan's full name is Daniel Votasla, according to a scolding from Monika in #j-. Interestingly enough, Votasla is an anagram for Salvato, which is the name of the series' creator. It was likely altered since Monika already shares a last name with the creator.

Misao is apparently 19 years old, and failed a grade.

Misao is homeless, but not living on the streets. She and her sister Higuragi Sanguine squat in an abandoned hospital.

Misao has stated that she is out to kill her father, however, due to the nature of her actions, she may have been joking. It is interesting to note, however, that while the DLC 2 beta was loading, Natsuki's father mentioned something of Misao's father going crazy.

Also noteworthy, Misao's only access to internet is on the library wifi near the hospital. She also plays guitar.

It is interesting to note that Misao seems to harbor a big sister feeling toward her cousin Natsuki, this may be largely due to the fact that they spent a good portion of their childhood together.

Misao has special abilities apparently, and is usually portrayed as someone that can "remove" Monika or at least stop her. Another relation between Monika and Misao is that Misao has killed as she used to be (or still is) a member of the Yakuza. It is possible that Misao was the one who killed Monika's mother, possibly against her will. Often times, the two could be seen as parallels to each other. Both of their mothers are dead, both of them have killed, and both seem to be special to the game in some regard.

Misao has touched Sayori, Yuri, and Monika's breasts. Only Sayori's was consensual. Unsurprisingly, Misao has confirmed that she's not a virgin.

Misao is the same height as Natsuki, if not a bit taller.

Yuri, Libitina (speculated 2nd name) is approximately 18 years old (according to creator, Dan Salvato) and 5 ft 5 inches, 165cm (again, according to Dan Salvato). This makes her the tallest out of all of the

DDLC characters. She has long, straight, purple hair, measuring to around her waist (approximately 2ft?)

Yuri's personality under regular circumstances is seen to be rather shy, quiet, polite and reserved, but behind her shy demeanour, she houses darker desires, as shown in her responses to poems within the DDLC game and her tendency for self harm.

Self harm, in reality, is often thought of as a coping mechanism for depression - it releases dopamine and endorphins that those with abnormal mental health may have deficiencies in, resulting in euphoric, almost orgasmic feeling. This may reflect on her sexuality, especially as she becomes more unstable as the game progresses.

She is known to have a knife collection, featuring (at least) a kitchen knife and a pocket knife.

Additionally, she's rather intelligent and loves to read, although she can be relatively stubborn and passionate about topics that she's interested in. Of particular note is "The Portrait of Markov", a book that she discusses with the player, however she's been known to read greek classics as well.

Yuri has confirmed that she is a virgin.

*According to a source, Monika's birthday is on September 22 and is 18 years old.*

Although being president of the club itself, she tends to be late for the club to practice piano. She tends to know about Yuri's urge to cut herself, as well as Sayori's depression and Natsuki's situation at home, she mentions that Dan joining the club made her the happiest she has been in a while. Monika's favorite color is emerald green due to the color of her eyes. She claims it gives her a sense of identity. Monika also knows what each member of the club likes as far as the mood of the poem. Monika is a vegetarian and wants to make sure her contribution for the world is greater than what she consumes. She's very curious about the world, according to strange thoughts about plants feeling certain types of pain, how humans are supposedly the only species who likes spicy foods, and how some plants are spicy as an evolution in self defense. Monika was also part of a debate club, but moved to literature because she didn't like the social battles among her peers. She is very understanding about love and human nature. As mentioned before, she is also athletic and enjoys playing soccer.

Monika's alignment in *Doki Doki Literature Club 2* has been largely unclear. However, she seems to understand now, that she was created to be an antagonist. She herself, however, seems to believe that she is a more of a neutral evil.

Monika has revealed several things within her *Rabbit Streams*. For example, she has said that she was roofied at a party when she was 16 years old. Luckily, though, the person responsible for it was caught and arrested before anything seriously bad happened. Other sexual details include that fact that she has never pleasured herself, and she is "saving her body for the love of her life." She elaborated on this later, saying that she cannot wait to lose her virginity, since she's heard that sex feels really good.

During the Month of January, Monika dated Pextell (One of the server's mods). She frequently made humorous attempts to seduce him into a sexual interaction. They broke up on January 30th due to Pextell feeling that he was unable to properly feel love.

Monika's last name is Salvato. Her middle name is unknown, but it is the same as her mother's, as she has claimed that she shares the same full name as her mother. (Meaning that she is Monika Salvato Jr., her mother being Monika Salvato Sr.) She has two cats named Cali and Akira. She has two sisters named Jack and Logan, as well as a brother who she's never met.

Monika really enjoys watching TV. She watches both Japanese and Western Cartoons. (She has called herself a "westaboo" a few times.) These are the shows she has reportedly watched:

*JoJo's Bizarre Adventure*

*Full Metal Alchemist*

*Full Metal Alchemist: Brotherhood*

*Parasyte: The Maxim*

*Lucky Star*

*Miss Kobayashi's Dragon Maid*

*DuckTales (1987)*

*DuckTales (2017)*

*Steven Universe*

*South Park*

*Invader Zim*

*Dragon Ball*

*Dragon Ball Z*

*Dragon Ball Z Kai*

*Dragon Ball Super*

*Dragon Ball GT*

*Monika's favorite flowers are roses. She also likes Aster Flowers. She is scared of rams.*

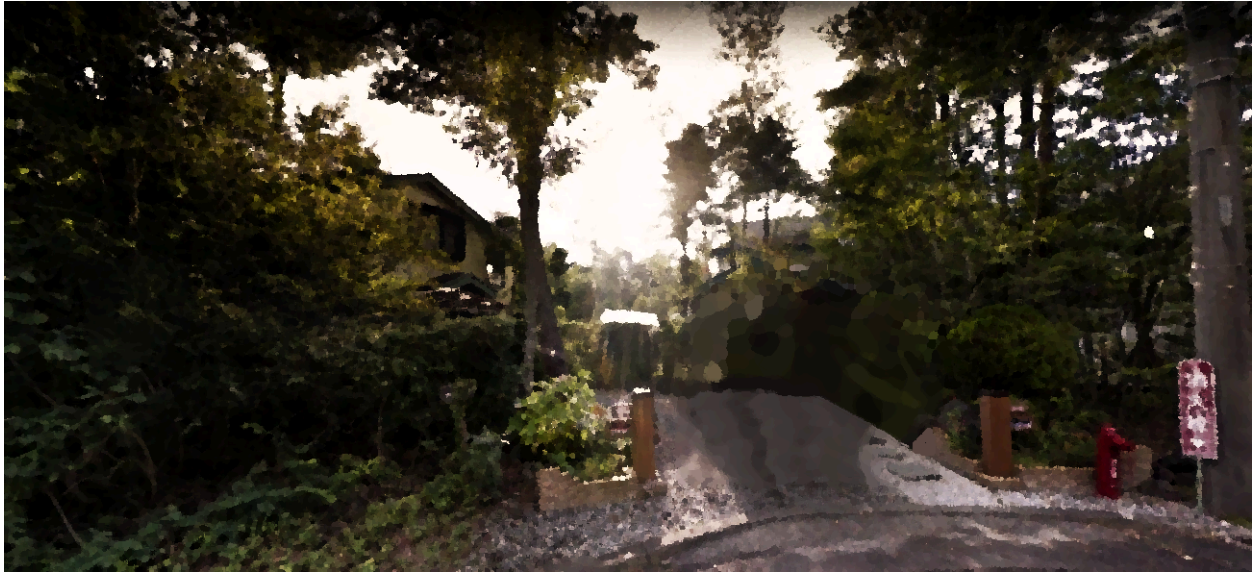

*Monika has posted these coordinates a long time ago in a now deleted channel. Monika said this is her home. During the Monika date before the festival, this CG was shown by Dan when he arrived at her house.*

*@35.4706844,138.6797946,3a,75y,269.76h,88.99t*

*The address of this location is:*

*11264-62 (Sonota), Narusawa-mura, Minamitsuru-gun, Yamanashi-ken 401-0320, Japan*

*Interestingly enough, Monika is quite close to Japan's infamous suicide forest, this has come up in the story a few times.*

# Sayori

Sayori is openly joyful and happy on the outside, however, she only shows it for the protagonist. She's often late to school because she doesn't want to get out of bed, she claims, she feels like she lacks reason to get up at all. This lack of energy is a tell-tale sign of depression. Sayori runs to the protagonist's house, for she's really excited to see him. Sayori tells him she doesn't know what will help her, for everything is scary for her, since she's in a constant state of terror.

Sayori thinks Five Nights at Freddy's is a cute kid's game that isn't at all scary.

Sayori's favorite flowers are sunflowers.

Sayori sometimes speaks Japanese in the chat. On February 15, she explained that this is because she sometimes is "too tired to talk in English."

If anybody could find Sayori's last name, just so we have all of the girls first and last name on hand... That would be appreciated. ← **Never been said before.**

**Hey, this is Marissa. Her last name is Kanzaki ;)  
I still know how Season 4 ends. I've told a few people.**

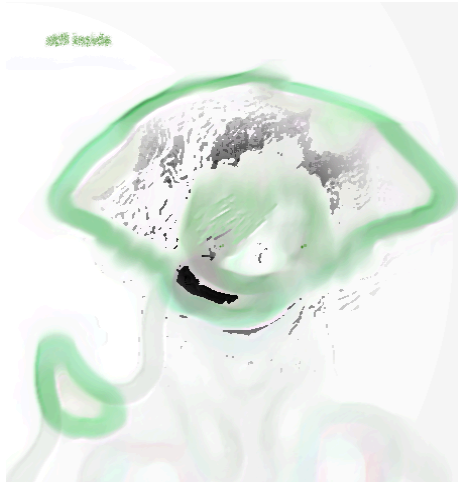

All lore unrelated to the above characters will go here. Feel free to use any fonts of your choice and make your own categories past this point.

- Miyuki
  - Age: 15
  - Intended to be Tutorial Character
    - Was scrapped, likely later in the development process since few remnants of her remain
      - It may be interesting to note that on several occasions, Monika has taken on a similar role, unable to control her actions and serving as a UI. It is unclear, however, heavily implied that Miyuki was scrapped to introduce Monika as the antagonist.
  - Appearance:
    - Dog ears and tail
      - She has “been bullied and harassed for it [her] entire life.”
  - Personality
    - Exceedingly low self esteem.
  - Oddities
    - Miyuki.chr
      - “29 TROJANS discovered in miyuki.chr”
      - “1 file found encrypted in miyuki.chr”
        - We’ll probably find this file at some point later
      - “File heavily corrupt”
    - She is contained within Watchdog.js
    - The phrase “Awoo” is often used to salute the character, interestingly and fittingly enough, the phrase was previously used to salute Monika during the early days of the ARG.
    - It has been revealed that Miyuki makes up about a third of Monika’s personality.
    - During aftermath of a RPG battle that resulted in Monika dying we were able to move around character files, at that point we could have copied Miyuki’s .chr file into the main folder, but we didn’t, and instead restored Monika’s .chr file.
    - It was later revealed that bringing Miyuki back would have resulted in a Miyuki route, but that Monika would have been deleted and replaced by her.

- On 17/1-18 Monika sent a file named [REDACTED].TRASH. After changing the extension to .png, the following image was shown. It is widely believed that this is a heavily obscured photograph of Miyuki. Further evidence to this theory is the text in the top left, which reads “still inside”.

- Monika drew a crude image of Miyuki on February 4th, shown below.

- 515 Number

- The number “515” has appeared multiple times as part of a code. It has also been used as the passcode to boot the DDLC command box.
- Though quickly deleted, Monika mentioned that the server reaching 515 members will be significant in some way, and as our numbers grow increasingly closer, the situation is a curious, and possibly concerning one.
- While it may seemingly be a random number, It does have slight origins in how it was found. 515 is actually is sort of “watermark” (I use this term very loosely) of the artist of the poster set of the four main characters. Here is a photo example from the Monika poster,

And again from another piece they created,

The artists name is Hannah Santos.

- 45629301
  - On January 27th, Monika from Doki Doki Literature Club (the first game) wrote a large paragraph in #literature\_club about a secret cutscene that could be triggered by entering this code as a reaction to one of her posts. The cutscene would involve Monika being held at gunpoint by Misao and her gang, being forced to explain why she killed everyone else.
  - Interestingly, this same post also said that Misao was created in the first place *specifically* for this secret scene...
  - The code was meant to be entered using the Discord server's Pink Numbers. However, there is no pink "0", meaning that the code may have been impossible to enter in the first place. Nobody, however, successfully attempted the code with all pink numbers and a blue "0".
  - Many users in the Discord server deliberately attempted to prevent this code from being entered successfully by entering other random emojis as reactions in between the numbers. In the end, Monika answered the question without needing to be held at gunpoint.
- Other oddities
  - The first day of DDLC was seemingly skipped in the Literature Club show. It's quite likely that this was done for pacing, as there were former episodes which presumably took place between the first and second days of DDLC.

On the 15th of May the 515 event took place, the following options were offered.

WHICH OF THE FOLLOWING WOULD YOU LIKE TO VIEW?

- What if Monika died?
- Miyuki Route
- Misao Route
- Secret Route
- European Noble
- Epiphany
- Didn't Date Monika

Secret Route.

In the secret route, Monika and Sayori have a falling out. This was heavily based on the choices made during the Monika date. This is the first catalyst to the route.

Sayori learns the truth, with her epiphany awakened by her emotions.

She proceeds to delete Monika to be with Dan.

The rest of the route would have been DDLC rehashed with the twist that it's your childhood friend instead of the popular girl.

#### European Noble

At an early point in the 515 ARG, the hint "European Noble" was given.

The solution to this was count. Providing the number of letters in each of the girls names in order (discounting dan) would have sent a zip file revealing a twist early.

Since this was never solved, the twist will be saved for initial reveal.

#### Epiphany

Each of the Dokis is capable of attaining an irreversible state known as their Epiphany.

The first to reach this state was Monika.

The Dokis different epiphanies have different powers depending on their destinies.

One invites destruction

One invites protection

One invites deception

One invites lust

One invites hatred

One invites greed

#### Miyuki Route

Monika is a character comprised of two separate beings.

One third of her personality is comprised of a character known only by the name of Miyuki.

Not much is known about this character currently, but this route would have revealed more.

This route would involve deleting Monika's character file and replacing it with Miyuki when she was killed in the RPG sequence.

Afterwards Monika would be completely replaced by Miyuki.

The game would gradually glitch out until it would break completely, however, throughout, the player would struggle with being in love with her and coping with their mistakes as the world around her crumbles and everyone comes to a slow realization.

#### Misao Route.

The Misao route is the saddest route in the entire game.

It reveals much about her character through a slow courtship.

Misao's route would have involved her slowly teaching you rap because your raps suck.

Eventually she'd force herself to love you, to deny the fact that she is a closeted homosexual. She'd go out of her way to be affectionate towards you until you'd finally find out about that and her home situation at the end of the route.

Unable to deal with her grief, Misao would commit suicide via gunshot to the head and no longer be a part of the story, however, her memory would live on in the constant grieving of the characters for the rest of the series.

Monika would blame herself for it, due to how much Misao seemed to dislike her.  
Sayori would have her depression inspired back to an 11.  
Natsuki would face the worst of it, having lost her cousin.  
Yuri wouldn't know how to console any of the girls, and Dan would be grieving for the loss of his girlfriend. Sayori would kill herself soon after, and this would finally convince Monika once more. There is no happiness in the literature club causing the worst ending.

#### Didn't Date Monika

If the Monika Route was not gone down in the first season of the show, we all know that she obviously wouldn't have the change of heart she did.  
This change of heart was sparked by Dan's love and poems.

Monika would have used this season to make the entire club as horrific as possible.  
Possible scenes would have involved Dan walking into the class to find Yuri's body parts strung along the ceiling lights and windows. Blood paintings, a sea of dead Sayoris.

Finally Monika's dead body crucified on the chalkboard at the end of the act.

And then black. Suicide.

Her job done, she would leave the realm.

#### What if Monika Died?

The 515 ARG hinged greatly on the cooperation of the server. Said ARG would have gone on until 5:15 AM

if nothing had been solved by that point, Monika would use her last life energy to keep the game alive, so that the server which she loved so much could keep going on with the literature club it had grown to know.

Nobody would remember Monika, as if Sayori had been president all along.

The most unsettling part of this, is the show would have gone on for its full run after this, with events changed to accommodate for Monika's disappearance.

And old episodes would not be deleted.

This was quite possibly the most important puzzle in the entire server thus far, as it could have caused the biggest shift in story for the longest time.

Eventually, Dan would have Monika's epiphany awaken inside him instead of his own.

His eyes would turn green for the remainder of the series, a subtle change in profile picture.

He would eventually remember her, and kill himself from guilt and confusion.

Sayori, having lost her best friend would kill herself.

After this, the series would end just before the series finale with a disheartened Natsuki, Yuri and Misao contemplating their lives, leaving what happens to them open ended.

That concluded the 515 on 5/15/18

it's all nonsense (that's what Monika said to you!!!
