***All Times are FAT and Wind Legal (2022<)**

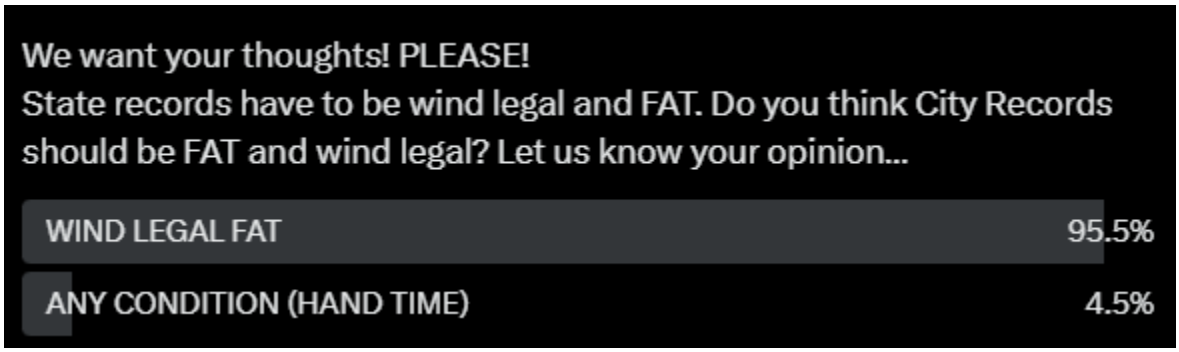

^Prior to 2022 Include All Condition, FAT and HT Adjusted (+.24)

SA Track and Field Results City Records Criteria

Our goal in posting city records is to acknowledge and celebrate remarkable accomplishments!

The athletes, parents, community and coaches must have confidence in the integrity of these marks and these records need to be as fair and accurate as possible.

We reached out to you to get your thoughts. You were clear on what you wanted, 95.5% voted and said that you want FAT and Wind Legal marks. We agree. It is the only way to keep the comparison fair. “Apples to Apples”

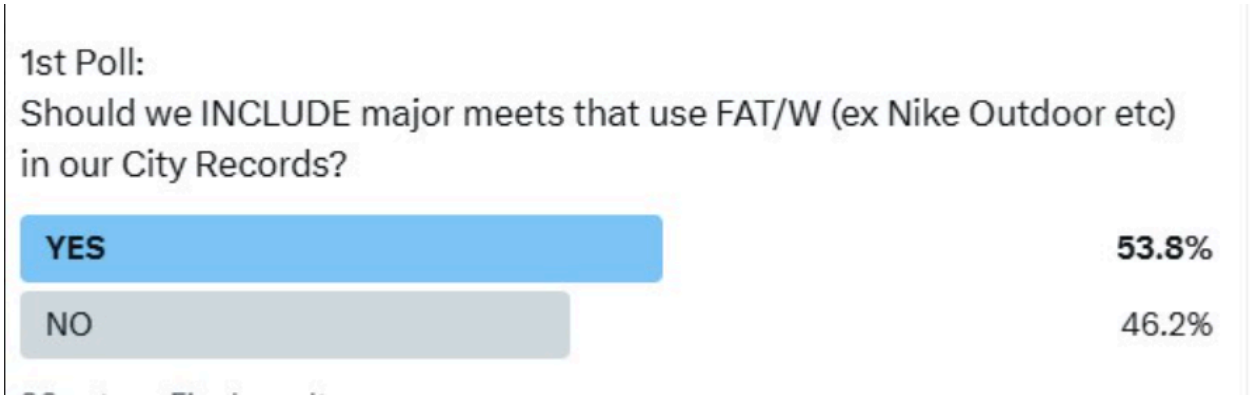

We believe this criteria will give confidence in the integrity and reliability of our city records.

We posted this list in August of 2022, we based our list off of the SA Express News City Records.

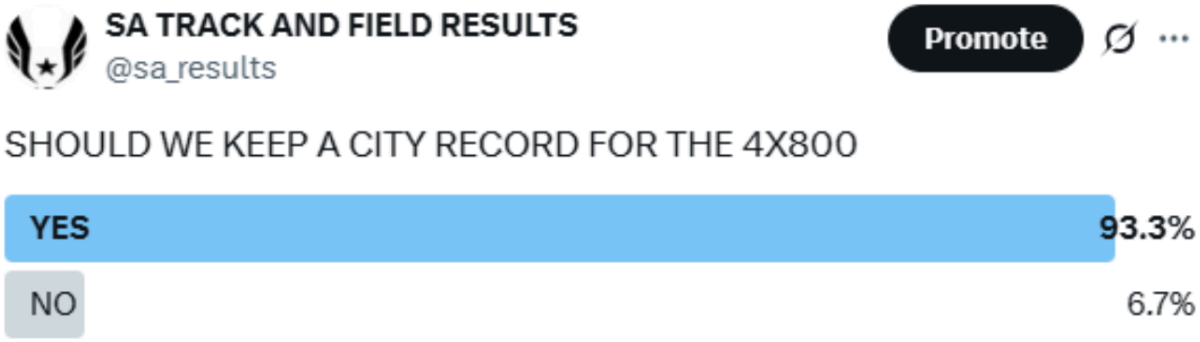

Some of those records dated as far back as 1994 so some of those marks included hand time and all weather conditions. But since August 2022, we have been committed to posting only FAT/Wind Legal Marks (for those events that are impacted)

Our meet/season criteria will be the high school outdoor season including the TTFCA Meet of Champions marking the end of the season.
