

Palestinian families to support

- Sanad Alqadi
 - Sanad is a 19 year old boy from Gaza. Before the war, Sanad studied at Al Azhar university as a pharmacy student. His family home was destroyed in an airstrike and since then Sanad and his family have been displaced multiple times. They live every day under constant bombardments and threats of shootings. The whole family is now living in a tent in Rafah. The situation in rafah is dire, everyday they question if they will survive this war. The conditions are serious, Sanad's family struggles with starvation, cold nights, diseases, and the deteriorating health conditions. Sanad needs our help to make sure that his family is able to get there basic needs met i.e food, water, medicine, shelter... not only this but also to help sanad and his family evacuate to safety once the border to egypt opens (it is \$5,000 to be added to the departure list.)

- Mohammed "Medo" Ammar Abureada
 - Mohammed, also known as Medo, is a 14 year old palestinian. Medo has dreams of becoming a doctor one day and is an excellent writer. He has used his poetry to share his feelings about the dire situation in Gaza and his family's struggles. Medo has two sisters, Alma and Razan, as well as a younger brother, Tiam. His family have been displaced multiple times and are now homeless because the occupation bombed their tent. By contributing to Medo's fund you will be helping support his family's effort to evacuate to safety.
 - Words from Medo: "I have lost my childhood. Every child in the world, my age can play, go to school, and spend great time with friends but not me. I am carrying the responsibility to help my family and go far away to get what we need. I hope I will live peacefully without hearing any sound of shelling. I hope my backache has gone and I feel relaxed, and I hope one day to talk about my issue to all people in the world and tell them how we are suffering in this war, how we have lost everything. sometimes we feel that we lost our lives despite we are alive"

- Yara Al-Araj and Mohammed Al-Araj
 - Yara is living in Gaza right now, in between Rafah and Khan Younis. Yara is 22 years old and was a student at Al-Azhar university before her home, university, and dreams were turned to rubble. Their family consists of 6 people: sisters, Dima and Lama, brother, Mohammed, mother, Heba, and father, Yahya. With the rise of inflation in Gaza, they have struggled to get food and basic resources for their family. Yara and her family need help to obtain simple resources while in Gaza, as well as money to evacuate her and her family once the Rafah border crossing opens. (total living expenses costs \$10,000 and total cost of coordinations for her whole family to cross the border is \$30,000)

- Lilia and the Abed Nasser family
 - Lilia is 3 years old, living with the rest of her family in southern Gaza after being forced to move from their family home. They now live in an overcrowded place along with 30 other people and are at risk of getting evicted, Leaving them to live in a tent. Lilia has now spent 7 months of her childhood lacking food and medicine, surrounded by the sounds of guns and bombs. Because the only water they have access to is polluted, Lilia's immune system has become weak and she is at high risk of catching diseases. Help lila and the rest of her family get out of the conditions they are in and evacuate safely to Egypt. (total coordination price is \$48,000, total cost for all expense including after the family crosses the border is \$59,000)
