

YouTube videos 3_24_22

This is the current content of our channel. Checked items are from DCPN/PNSN support group meetings. March 5th not uploaded yet (and needs some editing before posting). Of those checked, ones marked Public were ones that had been edited enough that I felt they could stand on their own. The other checked ones were unlisted but available as links on our website except the Joel Minton and Bill Reddy ones which were marked as private (not sure why - that's the default setting and we probably just never followed through).

All other videos were intended for showing in meetings, or drafts or were for use by us for planning. Or, in the case of the videos extracted from Great Courses (now Wondrium), were intended as part of an attempt to set up a partnership with Great Courses to allow their materials to be widely used in support group meetings as part of a wider base of support for more support groups. And get Great Courses to develop a course on PN.
