EDUCATIONAL PLAN Class A (without license for car)

(normal progression)

Registration Online/driving school	There is unfortunately a bit of administrative work to be done at the time of registration (snore;). So, to speed up the registration process, you can register easily, quickly and comfortably online from home or on the go (wroom....). If you prefer to register with us in the driving school, our office is open for you Mon-Fri 10.00-18.00 :)
Doctor's report (Arztgutachten) Optional/driving school	The doctor's report must be submitted in the original to the Verkehrsamt as soon as possible (after the registration) where it will be registered. Until the doctor's report is registered, you cannot take any tests. You need to find a doctor who is authorized for the purpose of the driving license, and it can't be your general practitioner! You can also get the doctor's report from our visiting doctor. Find and book an appointment now!
Theoretical course Driving school	For this driver's license you need to complete 10 modules of basic knowledge (GW 1-10) and 3 motorcycle specific modules (A 1-3). The basic knowledge course is completed over a period of five days and the motorcycle course within one day. Planned course times and required modules are found under Termine (GW 1-10 + A 1-3). Have a look now :)
Theoretical test Driving school	Whee, theoretical test ... :) Now all the necessary modules and the doctor's report have been completed, you have tried the test simulation for the theoretical test in the driving school (... right?) and the theoretical test is the next step. The theoretical test takes place every Thursday in the driving school. Latest today we need a passport photo of you - so say cheese :)
Driving lessons SeeStadt + surroundings	You start with four driving lessons on the training track. After that you need 10 legally required driving lessons in traffic. The driving lessons are easily and conveniently booked online from home or on the go, or in the driving school if you prefer that. Don't forget - you need to bring your own protective gear (at least helmet, gloves, jacket and ankle high boots) with you to the driving lessons:)
First aid course Optional/driving school	The first-aid course is legally required for all driving license class B applicants and must be completed before the practical test at the latest. You can complete the course at any certified provider offering a legally compliant course. If you have already completed an equivalent first aid course (at least six hours), then the certificate for this course is sufficient. By the way, you can also do the first aid course with our visiting provider.
Practical driving test SeeStadt + surroundings	Finally, the driving test...:) You have now completed the doctor's report, the theoretical course and the theoretical test, as well as the first aid course and the driving lessons. Only the practical driving test remains - but don't be nervous, OK? The practical test is not about being the best motorcycle driver in the world, but about being a competent, safe and responsible road user. So keep calm and be proud that you've come this far - we already are :)
Mehrphasen After the driver's license...	After passing the practical test, a second educational phase has to be completed - the Mehrphasen. This must be completed within 14 months of receiving the driver's license and consists of a driving safety training course in a driving safety center and one double lesson in the driving school. You can also do the Mehrphasen training with us. More information is found here.
