About National conclave of human technology

About National conclave of human technology

THE event was a resounding success, bringing together students, faculty and industry experts to celebrate the latest advancements in technology and innovation. Our students showcased their talents, presenting groundbreaking projects and research across various disciplines.

About the event :

The IEEE Student section and all SBC, including PELS SBC of Sri Sairam Engineering College organized the amazing "National Conclave on Humanitarian Technologies 2023," scheduled from September 27th to 29th, 2023, which showcased an amazing fusion of technology and humanitarianism. The celebration began with a pre-inaugural session that included prominent dignitaries like Dr K Porkumaran, the principal of Sri Sairam Engineering College, and Rajendran Dhandapani, director of engineering at Zoho Corporation. As the Chief Guest, Dhandapani was a distinguished individual who offered perceptive viewpoints on innovation and technology, promoting an all-encompassing approach to education. The promise of technology for humanitarian endeavors was explored by Herbert Lwanga, Chairman of IEEE HTB, and Mr. Marc Beebe, Senior Director, IEEE Strategic Research, Public Imperatives & Corporate Development. They emphasized the significance of innovation in solving global concerns.

Suresh Venugopal, President of Cambridge Mobile Telematics, presented an on-point discussion on mobile telematics, offering students a glimpse into the future of mobile technology. Our students' horizons have been greatly expanded by these seminars, which have also helped to prepare them for the chances and difficulties that await them in the tech industry. The 'National Conclave on Humanitarian Technologies' emphasized the role that technology, creativity, and teamwork can play in tackling global issues, opening the door to a more humanitarian future and reinforcing the role that technology plays in generating positive social change.

Conclusion:

It was very informative and knowledge enriching competition for the participants. We thank our righteous CEO SHRI SAI PRAKASH LEO MUTHU sir, beloved principal DR.K.PORKUMARAN and our beloved HOD 's of Sri Sairam Institutions
