More About Blue Skies

“With Blue Skies, I wanted to create something that both inspires and uplifts. It’s not just about overcoming personal struggles, but about embracing the optimism of life — no matter the challenges we face,” says Séa. “I’ve always believed that music can heal, and that’s exactly what this album aims to do. It’s a celebration of strength, of finding hope even in the darkest moments.”

Produced and mixed in the sun-soaked landscapes of Mexico and Colombia, *Blue Skies* is a tribute to the power of the human spirit and the possibility of transformation. The album's rich Latin beats, tropical sounds, and nature-inspired lyrics create an immersive listening experience that contrasts the complexities of modern life. Rather than dwelling on struggles, *Blue Skies* offers an escape into a world of possibility, empowering listeners to embrace their potential and find peace within themselves.

As Séa shares, "Blue Skies isn't just a collection of songs; it's a journey. A journey of personal growth."

From the soaring, anthemic opener "Huracán" to the intimate, stripped-back closing track, "That's Why I Love You" each song offers a unique window into the artist's inner world, drawing listeners into a deeply personal and universal journey.

Drawing from diverse influences, including Latin rhythms, folk traditions, and uplifting melodies, *Blue Skies* features songs that explore themes of overcoming adversity, discovering one's voice, and embracing positivity. With its infectious energy and feel-good vibes, the album is a reminder that even in challenging times, we can create our own paradise — both in the world and within ourselves.

An Expert Team

Producer IFO and mixing engineer Carlos "Charlie" Santana have been key collaborators in shaping Séa Byrne's sound. Séa's partnership with IFO, a Colombian producer, began five years ago with the track "That's Why I Love You." Their ongoing collaboration has been instrumental in incorporating Latin rhythms and Colombian textures into Séa's evolving musical style.

Since 2023, Séa has worked closely with Carlos "Charlie" Santana, a mixing engineer based in Puerto Vallarta, to refine the sound of *Blue Skies*. Charlie's expert touch in remixing and remastering the tracks helped create a seamless blend of indie, soul, and tropical influences, adding warmth and depth to the final product. Together, IFO and Charlie have been essential in crafting an album that blends genres while staying true to Séa's emotional storytelling and musical vision.
