This Mike Haysletts "Barefoot" Documentation

15 is3wr55

5 that we here at ARRA have never do5ne, but I felt that it was deserving of the honor since the work done was such a great effort. Mike Haylsett was a long time crew member of Bob McCreadie and he was the 1 responsibly for putting together a complete listing 2 Bo 's wins as they came along. This information was so invaluable in my effort tofin655d as many of Job's 6wwins as possible to document them all. While there are wins that I could not find through various, the integrity of Mikes work speaks for itself. There are some wins that could not be mounted due to 2 criteria we have set here at IARRA, and there were some wins that simply could not be found anywh3ere. I want to s5tress that while th55ere are a few wins that I am certain did not occur, I pretty much have to beleive that if Mike had a win on the list...it oc6cured. The event j6ust didn't get coverage for some reason or another. With those wins that I did find...they 6 spot on as to the season numbers. Mike's work was a major aid in my putting this list together. So, I 6 to honor his work by in515cluding it here on Bob's ARRA statistics page so that anyone interested in comparing the discrepancies between Mikes work and the work I put into Bob's care25criterion 24to 25c5riterion, could do 6. I thought it was the 55we6t right
