This is an 8 email LIVE webinar promotion campaign for TimebankGPS sold at \$997 (Anniversary discount). There are 6 emails that lead up to the webinar and 2 follow up emails to promote the replay.

This is a CONTENT-BASED email sequence. Meaning, it's designed to teach some of the Timebank principles and encourage people to learn more by joining the free live training.

IMPORTANT:

As always, remember to include your affiliate links or personalized URL to ensure you get credit for sales.

Feel free to make any adjustments to the copy to match your voice. However, did not make any material claims that are not explicitly made on our website or other marketing material.

We recommend using the sequence in its entirety. Shortening the sequence has consistently lowered overall conversions.

Subject: CRAZY QUESTION - are you wasting time?

Hi (first name),

One of the biggest concerns my followers have shared with me has been feeling lost or confused. Not because they don't know how to start a business, but now that they have, they feel swamped with projects and tasks that are not only taking up their work time, but the time they want to be spending with their families or on hobbies.

I want you to succeed, so I reached out to my friend Antonio who has literally gotten it down to a science. Except his system isn't about Time Management! In fact, according to Antonio, time management is the reason you're hitting that plateau.

He's actually one of the experts on the topic and I wouldn't be surprised if you have already heard about his program, Timebank GPS.

I'd say this program is a groundbreaking discovery, if I didn't know he's been using this system for decades!

That's why I asked Antonio to come put on a webinar for you, so he can show you how to grow your business 3x while simultaneously freeing up more of your time.

I'm going to talk in more detail about Timebank in my next email.

Also, if you're interested, I'll ask Antonio to do a presentation to show you how it works.

Reply back and let me know or join my Facebook group here {insert link} and I'll try to twist his arm to share his secrets.

Subject - EASILY the most important thing you'll learn in 2022

{First Name}

I absolutely had to share this with you, it's just too powerful not to.

Did you know...

- You actually become less productive when you put in more than 40 hours into your work week?
- 20% of an average work day is spent on "crucial" tasks, while the overwhelming majority is spent on things with little or no value?
- The average working person spends less than 2 minutes per day in a meaningful conversation with their significant other, and less than 30 seconds in a meaningful conversation with their children.

These stats don't excite me, they scare me! What excites me is that tomorrow's webinar will undoubtedly show you how to nip these problems in the bud. I'm getting so excited for what he's going to show you that I can hardly contain it.

Remember, this is the same system Antonio uses himself and with his clients, so I believe him when he says this is going to show you how to 3x with no stress.

You're going to freak out when you see how easy this is.

Email 6: Day After

Subject: [Replay Now Available] TIME TO STOP WASTING TIME

Hey (first name)

Last night was a total first for me...

I mean, I have watched my share of webinars, but this was the first that went so in depth to help reach a solution.

Here's what we covered:

- The Monitor, Monetize, Multiply mind switch, which really put some things into perspective.
- Strategies tailored to individual goals instead of a broad brush definition of success.
- Which daily tasks are more of a burden than a help, and what to do about them.

People loved it, the feedback we keep getting has been so positive. This was way more than just your average webinar, this was a treasure trove of doable steps towards a realistic and positive change.

And you missed it. :(

Don't worry! For a limited time you can watch the replay HERE:

(Insert Link)

"Limited" means limited though. At Antonio's request it will only be available for (X time frame). He's to show you the way to reach new levels of profit, but that means taking action, not procrastinating.

Make sure you watch it as soon as you get a chance today!

Talk soon,

{YOUR NAME}

P.S. There are only a handful of spots remaining in his partner program, so don't miss out:

Subject: STILL WASTING TIME? - It's not too late though

"Okay, is this for real?"

That's what people keep asking me about Timebank.

It would seem that our guest expert Antonio Thonton really struck a chord with a lot of people during his presentation. I can't blame them for being skeptical, 3x with no stress sounds almost too good to be true.

But it's not!

Let me put your mind at ease a bit, Antonio is one of the only people I know who can, with full confidence, guarantee 3x ROI to his clients. All. Of. Them.

Watch the replay now to see how it works:

[\[Insert webinar replay link\]](#)

Antonio has told me that there have already been quite a few sign ups for the program, which is great! It's okay to be scared, even normal, but don't let that stand in the way of your success.

Watch the presentation now because our guest expert Antonio Thornton was generous enough to lay out his entire process for you and showed you proof that it works.

Everything from his hierarchy of daily tasks to how he's automating systems at each level to make profit even when he's not working are in this presentation. This is easily one of the most informative webinars I've seen in a long time. (Maybe even ever)

Email 8: 2 days after

Subject: Tanya Made \$10,400 in 5 days

For the past few days I've been talking to you about Timebank, the hottest system on the market to 3x without the stress.

The obvious question is "but will Timebank work for me?"

In the presentation Antonio introduces you to some of his past clients...

- Tanya E, who made \$10,400 in 5 days
- LaToya S, who made \$15,000 in her first month of business
- Randy F, who doubled business while working with Antonio
- Kevin F credits his 2017 business revenue of \$1.5 million to a single tip from Antonio
- Ron D, who saw 253% growth to one of his revenue streams

There are too many to list in one email, but I thought this would give you a good taste of what you have to look forward to.

Timebank is too legit not to implement. See proof of how it works now...
