Cooperative Training Candidate

[FULL NAME]

Projects

"Travel Buddy" Web Application

September 2024 – December 2024

Description: Developed a web application using Python (Django) and HTML/CSS that allows users to plan trips and connect with fellow travelers.

My Role: Led the backend development, designed the database schema, and implemented user authentication and trip creation features.

AI Sentiment Analysis Tool

April 2024 – June 2024

Description: Created a Python-based tool to analyze text from online reviews and determine sentiment (positive, negative, or neutral) using natural language processing (NLP) libraries.

My Role: Researched and implemented a machine learning model, pre-processed data, and created a user-friendly command-line interface.

Education

King Abdulaziz University - Bachelor of Science in Computer Science

September 2022 – Expected June 2026

Relevant Coursework: Data Structures & Algorithms, Web Development, Database Systems, Software Engineering

GPA: 4.8/5.0
