

THE RADQUEER COMMUNITY

I'll be sending this to a few people, hoping that someone will cover it. I think it's a police matter, but the authorities aren't doing anything. This involves child abuse being done by and encouraged in a huge online community trying to disguise itself as queer.

Adding this as an extra so i am not misinterpreted. The LGBTQIA+ has no relation to this, and neither do anti contact paraphiles. Having a paraphilia does not "make" you do anything, people have control over their own actions. The problem is those people knew they had a choice, and decided to harm others anyway.

The radqueer community is not a queer group or affiliated with the LGBTQIA+ community at all, and i would struggle to say it is a paraphile group either. It's not related to/based on a trait people have no control over (such as sexuality or paraphilias), it is based off the choice to behave the way they do; it is based off a mindset and list of stances.

!This is ongoing work! I am still updating!

What you will find in this docs: key terms, whistleblowers, general behavior and stances, flags, final clarifications.

I'll start explaining some key terms you might find if you do a deep dive:

pro/anti para: propara meaning seeing people who have paraphilias as not inherently bad. anti para is seeing them as lower.

"contact label"- 'contact' means offending. Someone's 'contact label' is their opinion about offending.

Sub-terms:

-Anti contact: very often, a propara or a paraphile who is against offending.

-Pro contact: typically a paraphile who thinks the offense at hand should be legalized and encouraged

-Neu contact: "neutral" about offending

-Complex contact: usually a pro contact

-"Pro consent, anti abuse"- pro contact

Radqueer / rq: "radically queer". Radically accepting of any sexual activities and attractions- harmless and harmful.

Post Radqueer: "even more inclusive and pro contact than radqueers".

: radqueer whistleblower.

!: post radqueer whistleblower.

Anti radqueer: people who are against radqueers.

Transid: trans identities. Some of them are the tamest part of the community. ranges from harmless (transitalian, transtransgender, transcisgender) to dangerous (transgroomer, transnazi [check the tag reichblr on tumblr])

The term “radqueer” was coined by a pro-contact paraphile (it/its). It has still active accounts in which it goes on rants about how it should be legal to be sexual with children as young as babies. It is also the creator of the term “xenosatanism”.

^The official xenosatanism carrd. Important detail, xenosatanism has nothing to do with satanism. Those are not the values of a satanist.

Highlights:

- Abolition of the age of consent
- Abolition of the age of majority
- Full legalisation of both real and fictional cp
- Full legalization of sex work (even, to some extent and under certain conditions, for minors of all ages)
- Incest legalized, banalised, and socially encouraged
- Legalization and social banalisation (perception) of bestiality

- Destigmatization and desacralization to some extent of rape, molestation, sexual abuse (bcs of a priori and retrospective harm induced by internalized social norms. Tho, we don' t want harmful rape to be fully legal)
- depending on the case, non-consensual but harmless sexual interaction should be legal, and not stigmatized

- Legalisation n social banalisation of cannibalism and commercialisation of human flesh

Also when a baby sucks their mama's tits they consent (to suck it) even if.. well, they are a baby.

Children consent for a lot of physical stimuli every day like kisses, cuddlings, sport activities, massages, etc. whether it comes from adults or not. But in your logic they wouldn't be able to consent for these things which is factually false

The most disturbing thing to me is that this is happening right under our noses. I have not checked any other social medias, but i did check the radqueer tags on Tumblr recently. These are some things i have found.

One that really affected me was a teenager i found who is very active on the tags. I will not be showing an username for obvious reasons.

A teen nympho || she/her || lover of self destructive decisions || DNI if youre just going to tell me I'm making mistakes and this is bad for me

Age gap flag

A flag representing healthy & consensual age gap relationships. That even with our relationships having weird and harmful assumptions made about us, or our relationships being demonized, stereotyped, and considered weird or odd or even taboo by society; we are still happy, confident, and prideful of our relationships. :3

Flag loosely based off the AAM flag, though its not related to AAM unless you make it to be. (As i quite literally made this flag whilst being in an adult & adult consensual age gap relationship, me and my boyfriend have a 40+ age gap, me being chrono23 and him being chrono65).

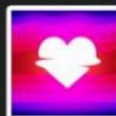

This flag is pro consent and anti abuse !

**THIS USER DOESNT CARE

**THIS USER IS IN ★★AGE

Here we have the term AAM used again. This is a flag for adult relationships with age gaps and “relationships” between minors and adults. “Pro consent anti abuse” throws back to the term introductions: pro contact.

Don't get me wrong, many paraphiles are anti contact and despise sex offenders- there is a very intense fight between anti contacts and radqueers. most of us have radqueers on our DNIs. But the tone is very clear on which paraphiles are being reached out to.

“Contact labels” are considered petty discourse in the radqueer community, instead of being considered something serious and life destroying. There are a few “anti contacts” on the community, but a consensus is held that arguing over whether you find child abuse or

beastiality wrong is something akin to bigotry.

radqueers can we stop fucking arguing over contact discourse? Contact stances are outdated and meant to divide us. I am saying just. Just be nice to each other. Stop doing this whole us vs them bs in our own community. Please

As someone without a contact stance at all, some of you are a little too fucking comfortable being *just like* anti radqueers the moment you're faced with someone you disagree with. Can we not fucking do that in the "radically accepting of *everyone*" community.

The “being faced with someone you disagree with” meaning literal child abuse and bestiality- making the reproving of it extremely frowned upon.

Atp I'm done "respecting other peoples opinions on contact stances"

If you think chronological minors and animals can consent, go fuck yourself.

Thats not "just your opinion" thats supporting rape and its not fucking acceptable.

POST-RADQUEER: a term for when you have somehow moved beyond typical radqueer ideology in some way. maybe you're too pro c for them, or youre even more inclusive in some way. maybe you feel that most radqueers these days are too reactionary. if so, this is the term for you. this is a replacement term over ex-radqueer for beings who no longer vibe with the radqueer community but still support a lot of what they stand for. the emoji code is 🌈!!

Numerous xenosatanist flags have been made, although information relating to their creators and creation dates have been lost. Xenosatanists may also identify each other with the symbols "ξ✡".

One flag was made made by an unknown individual on an unknown date.

Three flags were made by Nightmare on unknown dates.

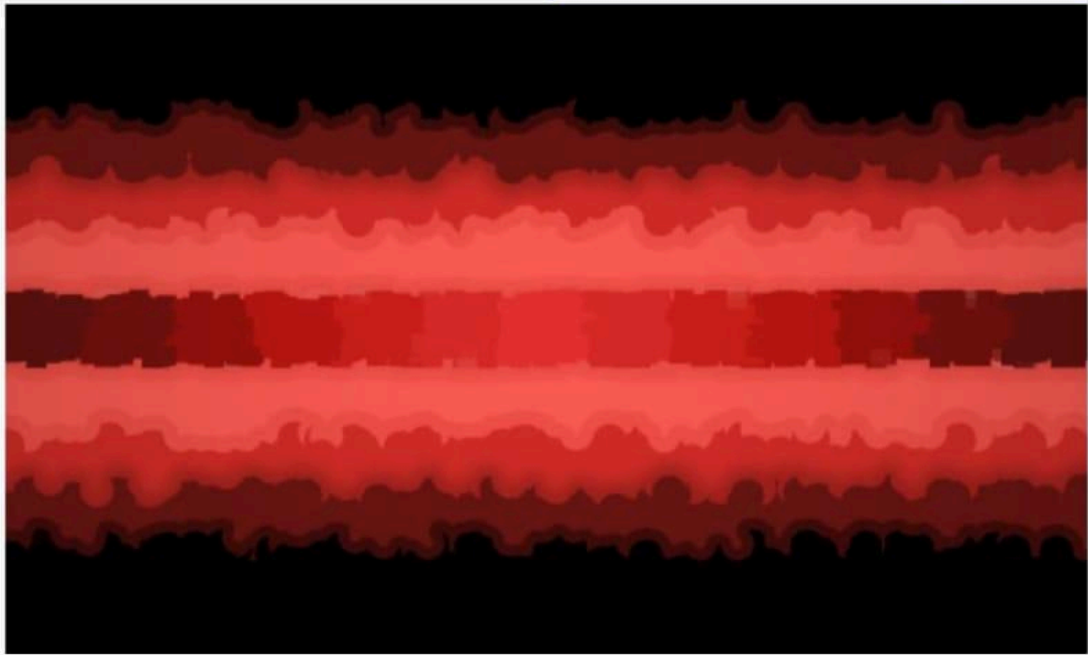

A flag was made by Boris on an unknown date.

A flag was made by [tojiqueer](#) in May of 2024.

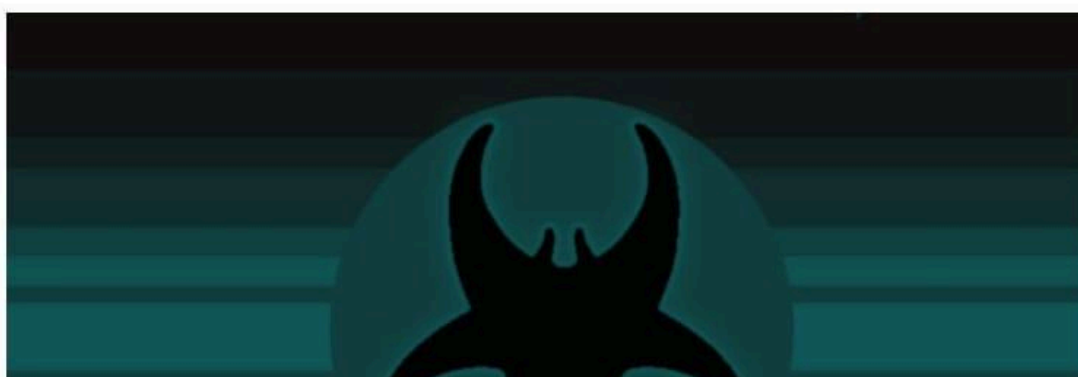

Three more flags were made by [lucifer-xennock](#) in June 2024.

Flags for open xenosatanists and closeted xenosatanists, respectively, were made by [wolperhearts](#) in August of 2024.

Another flag was made by [nyugenns](#) in September of 2024.

^Tumblr post with definitions of radqueer terms, resources, PSAs and tips on getting out of the radqueer community

Something else i had found a year ago or so were some posts from ex-radqueers mentioning the whole community being very cult-like, where if you are uncomfortable with the things that happen you are shunned, alienated and accused of being “just like the antis” until you change your mind. I am not going to add it here because i am not going to go through that tag again. I did so a few days ago and i’m still shaken. I’m sure looking up “radqueer cult” on tumblr you might find it.

Please, share this around if you can. The most people know about it, the best. Something needs to be done about this, preferably something involving the law. Online spaces can’t keep on being a place where you can commit crimes and not pay for it.
