

THE RADQUEER COMMUNITY

Content warning! This involves child, animal and other sorts of sexual abuse being practiced and encouraged by a huge online community trying to disguise itself as queer.

Adding this as an extra so i am not misinterpreted. The LGBTQIA+ has no relation to this, and neither do anti contact paraphiles. Having a paraphilia does not “make” you do anything, people have control over their own actions. The problem is those people knew they had a choice, and decided to harm others anyway.

The radqueer community is not a queer group or affiliated with the LGBTQIA+ community at all, and i would struggle to say it is a paraphile group either. It’s not related to/based on a trait people have no control over (such as sexuality or paraphilias), it is based off the choice to behave the way they do; it is based off a mindset and list of stances.

The main communities fighting against radqueers currently seem to be anti contact paraphiles, proshippers and antishippers.

⚠️ Keep in mind there are a few folks in the community that do not practice those things and plenty of minors! Many people in the radqueer community are victims themselves. I will also not put much focus on transids as my main priority is calling out active ongoing abuse. ⚠️

!This is ongoing work! I am still updating!

What you will find in this docs: key terms, whistleblowers, terms, general behavior and stances, flags, personal experiences from ex-radqueers and resources.

I’ll start explaining some key terms you might find if you do a deep dive:

pro para: propara meaning seeing people who have paraphilias as not inherently bad. (divided mainly between anti contact, neutral contact and pro contact.)

anti para: pro para means seeing them as lower and/or inherently dangerous. (typically strictly anti contact)

“contact label”- ‘contact’ means offending. Someone’s ‘contact label’ is their opinion about offending. Anti contacts might call them contact stances instead, as we consider it a morality principle, not an identity.

Sub-terms:

-Anti contact (anti-c): very often, a pro para or a paraphile who is against offending (acting on paraphilic thoughts that go against consent). Non paraphiles can be anti contact.

-Pro contact (pro-c): usually a paraphile who thinks the offense at hand should be legalized and encouraged. Non paraphiles can be pro contact.

-Neutral contact (neu-c): “neutral” about offending. Endorse sexual offense and see it as a personal choice that is not their place to judge on.

-Complex contact (complex-c): usually a pro contact.

-”Pro consent, anti abuse”: pro contact. Of the opinion animals and children can consent, and in favor of “consensual” activity between those and adults/humans.

-Non contact: a pro, complex or neutral contact who personally does not offend for some reason, that often being fear of the consequences.

-Contact abolitionist: the belief that contact stances are outdated or inaccurate in some way (differs between individuals)

-Contact skeptical: basically the precursor of a contact abolitionist.

Radqueer (rq): “radically queer”. Radically accepting of any sexual activities and attractions- both harmless and harmful ones.

Post Radqueer: “even more inclusive and pro contact than radqueers”. Louder about being pro contact.

Other terms: radically accepting, really radically inclusive (do not confuse with radinclus. radinclus are not radqueer)

🍓🌈: radqueer emoji combo

🌈!!: post radqueer emoji combo

Anti radqueer: people who are against radqueers for any reason. Also referred to as “ants”.

Transid: trans identities. Some of them are the tamest part of the community. ranges from harmless (transitalian, transtransgender, transcisgender) to dangerous (transgroomer, transnazi [check the tag reichblr on tumblr]). I will not get into those in this docs.

Terms That Didn't Fit Anywhere

-Hazard consent: consent in regards to practices such as intoxication, somnophilia and potentially dangerous kinks.

-Restricted / limited contact: an anti contact paraphile who avoids their subject of attraction, even in contexts that are not sexual or romantic. (Example: someone who is attracted to minors and puts effort on actively avoiding being around/interacting with them)

-Consang/consanguineous: incest

THE BEGGINING

The radqueer community was coined by a pro-contact paraphile (it/its). It has still active accounts in which it goes on rants about how it should be legal to be sexual with children as young as babies. It is also the creator of the term “xenosatanism”.

It's objective with making the radqueer community was to give a safe space for pro contacts/offenders, with focus on paedophiles, zoophiles, necrophiles and biastophiles.

<https://web.archive.org/web/20240113230652/https://xenosatanism69.carrd.co/#faq>

^The official xenosatanism carrd. Important detail, xenosatanism has nothing to do with satanism. Those are not the values of a satanist. To learn more, look into the official websites of any of the branches of satanism (such as The Satanic Temple).

Highlights from the xenosatanism carrd:

- Abolition of the age of consent
- Abolition of the age of majority
- Full legalisation of both real and fictional cp
- Full legalization of sex work (even, to some extent and under certain conditions, for minors of all ages)
- Incest legalized, banalised, and socially encouraged
- Legalization and social banalisation (perception) of bestiality

- Destigmatization and desacralization to some extent of rape, molestation, sexual abuse (bcs of a priori and retrospective harm induced by internalized social norms. Tho, we don' t want harmful rape to be fully legal)
- depending on the case, non-consensual but harmless sexual interaction should be legal, and not stigmatized

- Legalisation n social banalisation of cannibalism and commercialisation of human flesh

Also when a baby sucks their mama's tits they consent (to suck it) even if.. well, they are a baby.

Children consent for a lot of physical stimuli every day like kisses, cuddlings, sport activities, massages, etc. whether it comes from adults or not. But in your logic they wouldn't be able to consent for these things which is factually false

SOCIAL MEDIA

This is happening right under our noses. Social medias are not doing anything to deplatform these sorts of accounts. I have not checked any other social medias, but i did check the radqueer tags on Tumblr recently. These are some things i have found.

One of the most shocking was a teenager i found who is very active on the tags. I will not be showing an username for obvious reasons.

You should wear a rape-bait outfit when you go out today.

These were the comments in another post, where she asked if she was good “rape bait”.

The image shows a screenshot of a social media post with a dark background. At the top, there are three icons: a speech bubble with the number '2', a refresh icon with the number '2', and a heart icon with the number '70'. Below these is a dropdown menu set to 'Oldest first'. Two comments are visible. Age gap flag

A flag representing healthy & consensual age gap relationships. That even with our relationships having weird and harmful assumptions made about us, or our relationships being demonized, stereotyped, and considered weird or odd or even taboo by society; we are still happy, confident, and prideful of our relationships. :3

Flag loosely based off the AAM flag, though its not related to AAM unless you make it to be. (As i quite literally made this flag whilst being in an adult & adult consensual age gap relationship, me and my boyfriend have a 40+ age gap, me being chrono23 and him being chrono65).

This flag is pro consent and anti abuse !

**THIS USER IS IN
★ AN AGE GAP
RELATIONSHIP!**

**DONT ASSUME THINGS ABOUT
MY RELATIONSHIP!!!**

**THIS USER DOESNT CARE
WHAT YOU THINK ABOUT
THEIR RELATIONSHIP!**

**NO. IM NOT ★ SUGAR
BABY JUST BECAUSE IM
DATING SOMEONE THAT
IS ★ LOT OLDER THEN ME.**

**THIS USER IS IN ★★ AGE
GAP RELATIONSHIP ★ AND
IS HAPPY! :3**

Here we have the term AAM used again. This is a flag for adult relationships with age gaps and “relationships” between minors and adults. “Pro consent anti abuse” throws back to the key term introductions: pro contact.

YESYESYESYES!! I was always told zoos and pedos and necros and radqueers and kinksters were gross and icky but I feel so seen and welcome and normal ppl would burn me at the stake

ANTI CONTACT RADQUEERS?

“Contact labels” are considered petty discourse in the radqueer community, instead of being seen as something serious and with the potential of destroying lives. There are a few “anti contacts” on the community, but a consensus is held that arguing over whether you find

child abuse, bestiality and other sorts of abuse wrong is something akin to bigotry.

The “being faced with someone you disagree with” meaning literal child abuse and bestiality- making the reproving of it extremely frowned upon. That’s one context in which the cult mentality shows itself a lot, as if you question that rule, you will quickly be accused of

being an outsider and shunned into silence.

Atp I'm done "respecting other peoples opinions on contact stances"

If you think chronological minors and animals can consent, go fuck yourself.

Thats not "just your opinion" thats supporting rape and its not fucking acceptable.

A FEW RADQUEER FLAGS

POST-RADQUEER: a term for when you have somehow moved beyond typical radqueer ideology in some way. maybe you're too pro c for them, or youre even more inclusive in some way. maybe you feel that most radqueers these days are too reactionary. if so, this is the term for you. this is a replacement term over ex-radqueer for beings who no longer vibe with the radqueer community but still support a lot of what they stand for. the emoji code is 🌈!!

Numerous xenosatanist flags have been made, although information relating to their creators and creation dates have been lost. Xenosatanists may also identify each other with the symbols "ξ✡".

One flag was made made by an unknown individual on an unknown date.

Three flags were made by Nightmare on unknown dates.

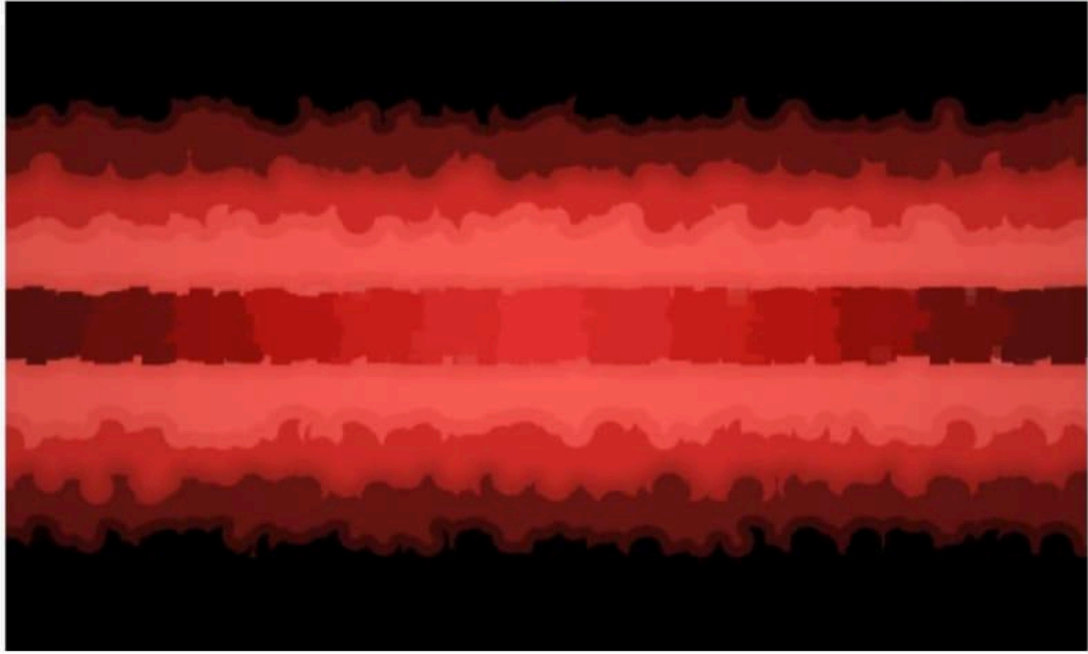

A flag was made by Boris on an unknown date.

A flag was made by [tojiqueer](#) in [May of 2024](#).

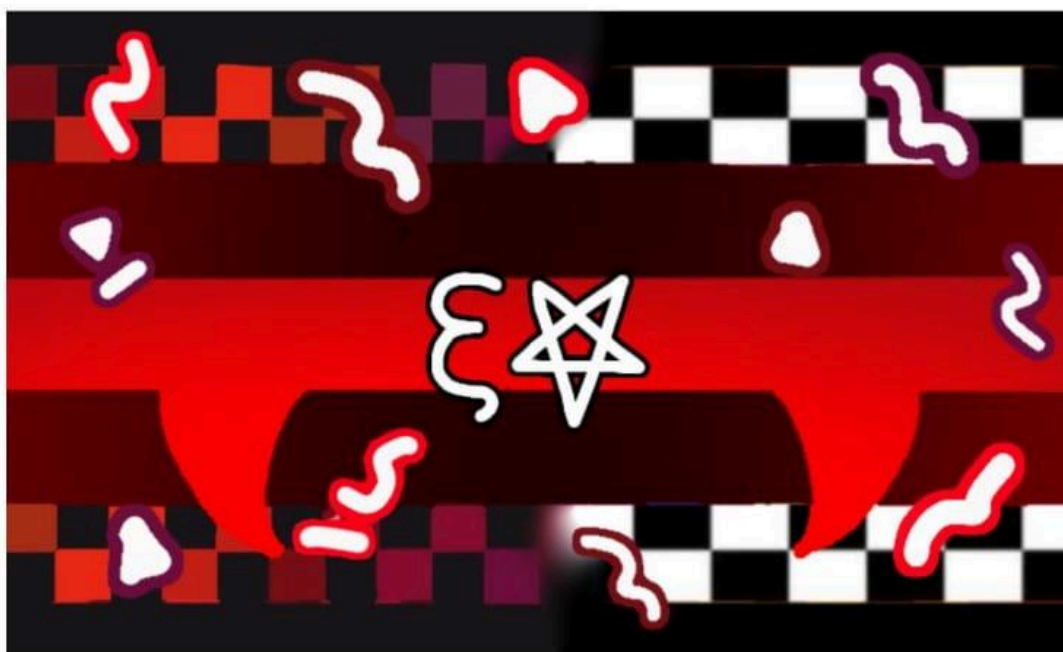

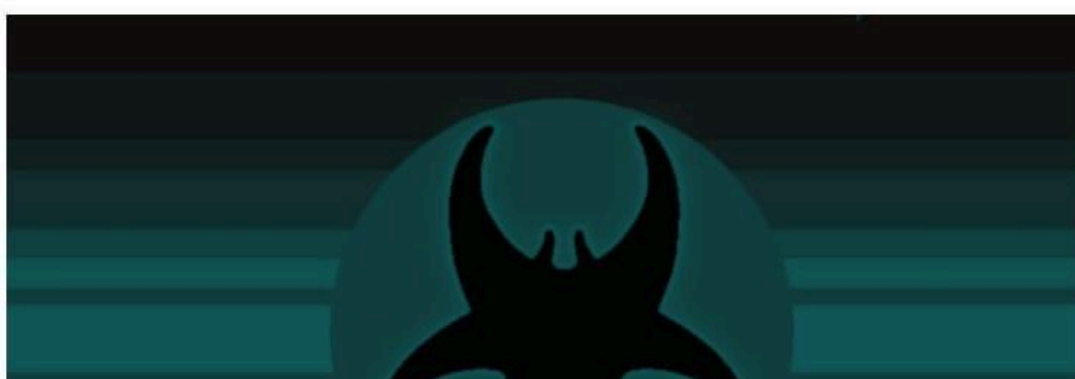

Three more flags were made by [lucifer-xennock](#) in June 2024.

Flags for open xenosatanists and closeted xenosatanists, respectively, were made by [wolperhearts](#) in August of 2024.

Another flag was made by [nyugenns](#) in September of 2024.

CULTURAL APPROPRIATION

The term “transrace” originally referred to folks of one ethnicity that were adopted into families of another.

IS IT A CULT?

Here’s a first hand opinion of an ex-radqueer on this debate.

<https://www.tumblr.com/radinclus-not-radqueer/727560013430882304/radqueers-are-a-cult?source=share>

An unrelated ex radqueer has reached out to me to share the following concept in regards to the cult debate. (Anon) recieves hate asks on (Anon)’s tumblr blog ever since distancing from the community.

Behavior Control

- Promote dependence and obedience
- Modify behavior with rewards and punishments
- Dictate where and with whom you live
- Restrict or control sexuality
- Control clothing and hairstyle
- Regulate what and how much you eat and drink
- Deprive you of seven to nine hours of sleep
- Exploit you financially
- Restrict leisure time and activities
- Require you to seek permission for major decisions

Information Control

- Deliberately withhold and distort information
- Forbid you from speaking with ex-members and critics
- Discourage access to non-cult sources of information
- Divide information into Insider vs. Outsider doctrine
- Generate and use propaganda extensively
- Use information gained in confession sessions against you
- Gaslight to make you doubt your own memory
- Require you to report thoughts, feelings, & activities to superiors
- Encourage you to spy and report on others' "misconduct"

Thought Control

- Instill Black vs. White, Us vs. Them, & Good vs. Evil thinking
- Change your identity, possibly even your name
- Use loaded language and cliches to stop complex thought
- Induce hypnotic or trance states to indoctrinate
- Teach thought-stopping techniques to prevent critical thoughts
- Allow only positive thoughts
- Use excessive meditation, singing, prayer, & chanting to block thoughts
- Reject rational analysis, critical thinking, & doubt

Emotional Control

- Instill irrational fears (phobias) of questioning or leaving the group
- Label some emotions as evil, worldly, sinful, or wrong
- Teach emotion-stopping techniques to prevent anger, homesickness
- Promote feelings of guilt, shame, & unworthiness
- Shower you with praise and attention ("love bombing")
- Threaten your friends and family
- Shun you if you disobey or disbelieve
- Teach that there is no happiness or peace outside the group

Please, share this around if you can. The most people know about it, the best. Something needs to be done about this, preferably something involving the law. Online spaces can't keep on being a place where you can commit serious crimes and not be held accountable for them.
