

Error Correction for Signed mand

**Student requests item using the wrong sign
(This includes self-correction)**

Correction

Immediately put student's hands in neutral position and do "0" second Full Physical or Full Model prompt (depending on student)---Reinforce. However...If possible:

Transfer Trial

Offer reinforcer with "2" sec Time Delay and/or faded prompt→correct sign---Reinforce

Remember to fade your prompts judiciously. It is better to have student practice correct response several times before fading than to fade too quickly and risk an error.

If errors continue consider discrimination protocol.
