The native anglo population of the United States is facing a genocide, much like the population of Europe that is under threat from the muslim invasion. We are going to be bred out and dislocated from our own nation unless people stop fearing that they will be called racist, and stand up and scream from the highest rooftop: "I love my own people and want to see THEM succeed! Not be overrun by 3rd world savages and criminals!"

@Steve R., I am no hypocrite. I see it everytime I am at the Dr.,ER,grocery store,Walmart etc. Illegals standing there in the checkout or at the counter with a EBT or Medicaid card in their hand with two or more stairstep kids and one in the belly. The trailer at the end of my road has two illegal aliens families living in it with seven kids between them and both women pregnant. There is also three men living there and the work van that leaves every morning with the drywall tools on board. I have seen both women at the Dr.'s,grocery store and Walmart with the cards. You may not like what people say here but I can guarentee you they have seen the same and know its their tax dollars paying for it and therefore they have every right to say what they do.
