

Share your asynchronous explorations here. Include your name and the number of the exercise. For example:

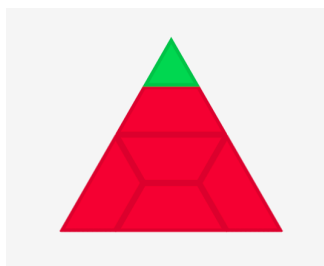

Henri — #6

(I took a screenshot, pasted it here, and shrank it by dragging from the corner.)

Edith — # 1

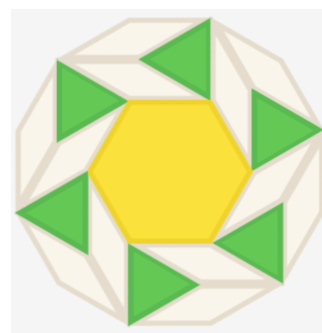

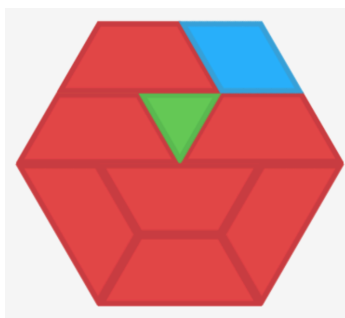

Does this count as a “red” triangle?

No. It needs to be all red. Maybe work on something else for a while, and try again later? -- Henri

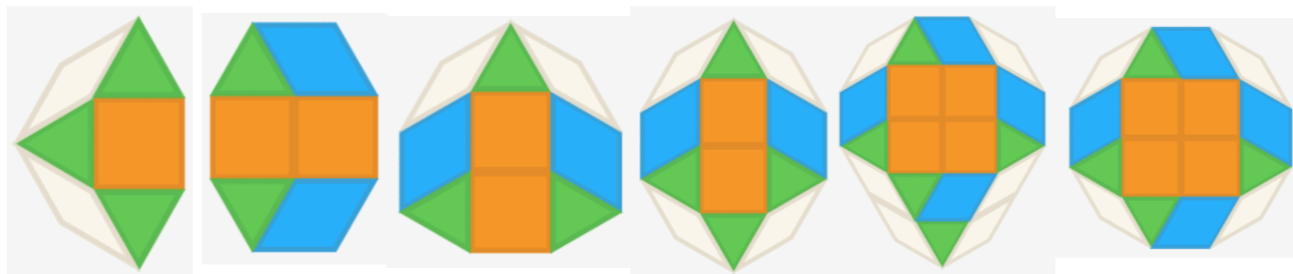

Oh! Silly me, I see it now. I put my second try on the right.

Jessie Winkler - #6

Beautiful! -- Henri

Jessie Winkler- #2

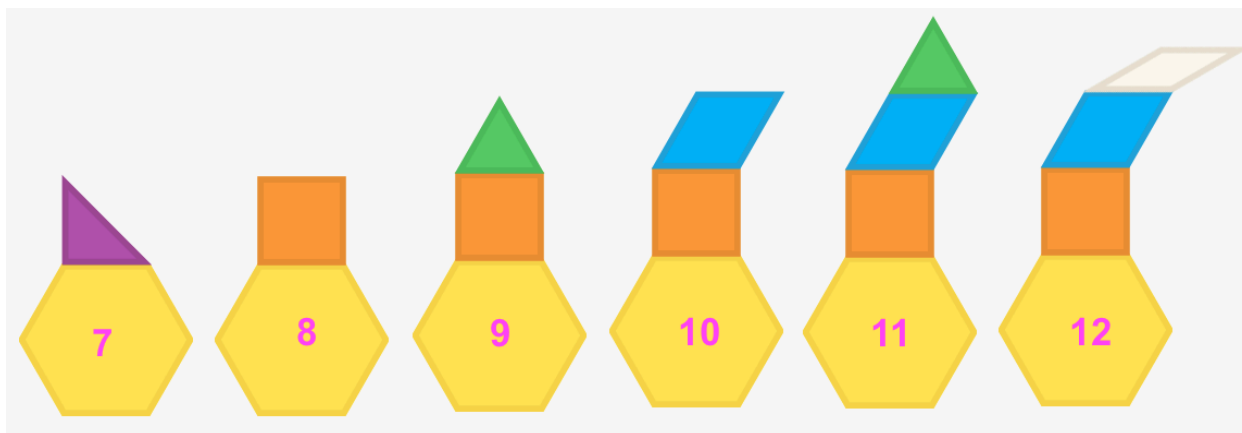

Aparna: #1

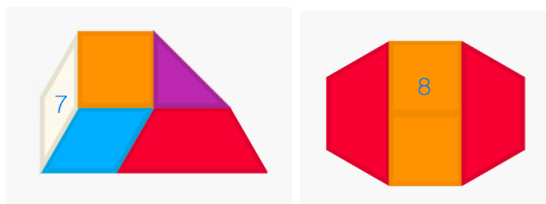

Aparna: #2

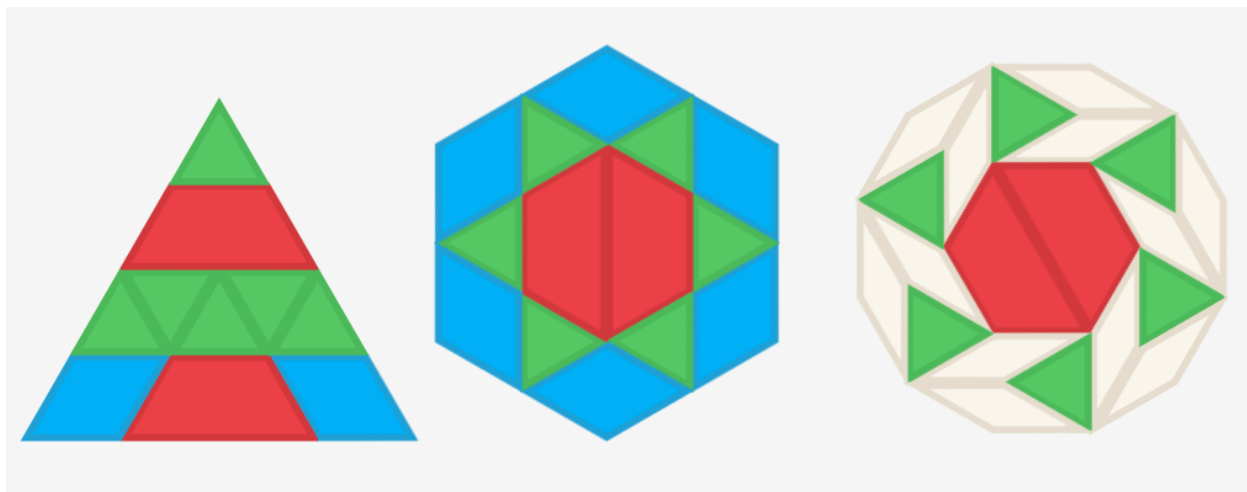

These are great, but not what I had intended: no angle should be greater than 180° . Totally my fault: given all the tech chaos, I never got to explain what “convex” means. -- Henri

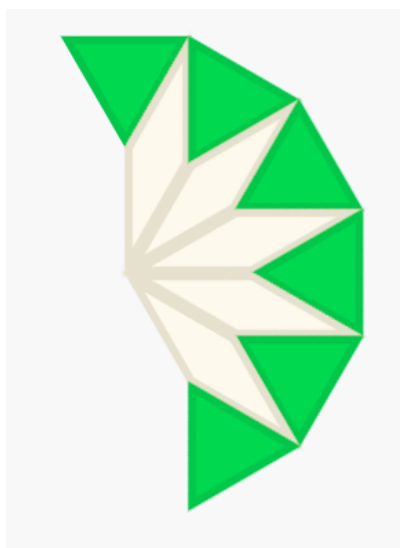

Edith #2

Aparna: #6

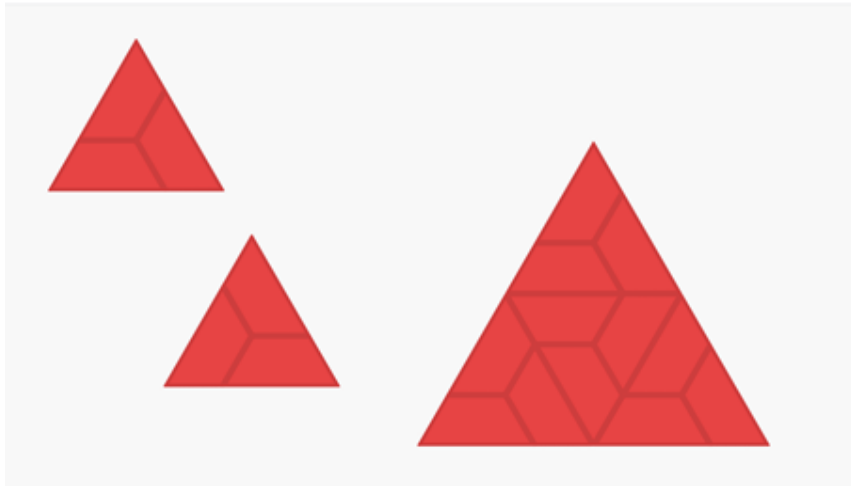

Edith #6

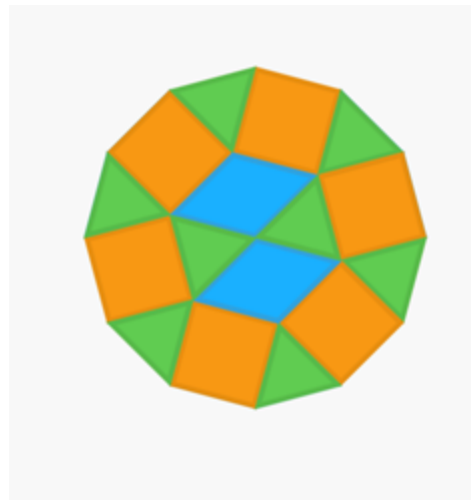

[continues around, etc... I ran out of time, sorry]

Kelly: #1

Kelly #6

Callie #1
