

Draw your Catastrophic Plant or Animal in the box below.

Label it to indicate what traits it has and explain how these will help it survive the environmental conditions in which it lives.

What interactions does your plant or animal have with other species in its community, or with the environment?	What environmental disturbances or disasters might your plant or animal find challenging? Why?

Draw your *Fantasy* Catastrophic Plant or Animal in the box below.

Label it to indicate what traits it has and explain how these will help it survive the environmental conditions in which it lives.

What interactions does your <i>Fantasy</i> plant or animal have with other species in its community, or with the environment?	What environmental disturbances or disasters might your <i>Fantasy</i> plant or animal find challenging? Why?
