Professional Summary

Full Stack Engineer building production web applications and Web3 infrastructure with React, Next.js, Node.js, TypeScript, and REST APIs. Currently contributing at Zeeve to Traceye and TraceHawk—products supporting blockchain data indexing, querying, and explorer workflows. Bring hands-on experience with cloud platforms, databases, WebSocket-enabled systems, API integrations, production support, and end-to-end delivery in fast-moving, cross-functional teams.

Core Skills

Frontend: React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML, Progressive Web Apps (PWA) | Backend & APIs: Node.js, Express.js, REST APIs, API Integration | Data & Cloud: MongoDB, MySQL, AWS, GCP, Cloud Deployment | Real-Time & Web3: WebSocket, blockchain infrastructure, data indexing, explorer products, wallet integration, smart contracts | AI & Emerging Tech: AI Foundations (IBM), Three.js, React Three Fiber | Developer Tools & Testing: Git, GitHub, Jest.

Professional Experience

Zeeve | Full Stack Engineer | Jul 2025 – Present

- Built and maintained end-to-end features across frontend interfaces and backend services for Zeeve's production Web3 infrastructure products.
- Supported Traceye services that enable blockchain data indexing, querying workflows, and ongoing product maintenance.
- Contributed to TraceHawk explorer experiences that support appchain and rollup visibility.
- Improved production reliability through bug fixes, API integrations, and iterative feature enhancements.

Alias Inc. | Full Stack Engineer | Jan 2025 – Jul 2025

- Delivered responsive, user-focused interfaces for the Alias platform, improving usability through iterative releases.
- Integrated and optimized frontend-to-backend API communication to support smoother application performance.
- Maintained a production streaming-agent service, helping ensure reliable day-to-day operation.

TheBrandwick | Full Stack Engineer | Oct 2023 – Jan 2025

- Owned end-to-end client feature delivery from planning and development through production release.
- Built and deployed scalable SaaS features that supported client operations and business growth.
- Contributed to technical planning and engineering process improvements across the team.

Swift Media Labs | Full Stack Developer (Trainee) | Feb 2022 – Oct 2023

- Built high-performance web applications with Next.js, React, Tailwind CSS, MongoDB, Three.js, and React Three Fiber.
- Contributed to immersive digital experiences focused on user engagement and interactivity.
- Developed Progressive Web Apps to improve cross-device accessibility.

Education

- Bachelor of Engineering in Computer Science and Honours in Cyber Security - AP Shah Institute of Technology
9.2 CGPA | Aug 2020 – Jul 2024.

Certifications

- AWS Cloud Foundation
- Google Cloud Practitioner
- IBM AI Foundation.
