Individual Professional Development Plan Development: (IPDP)

The Individual Professional Development Plan is a plan describing the professional development of goals and activities to be completed by an individual during a specified period of time. The purposes of the IPDP are to establish continuity and specificity in the job related training of an individual:

- To enrich individual knowledge, skill, and attitudes
- To provide growth in the professional educator's grade/discipline
- To assess individual needs
- To determine individual professional development goals
- To expand the options for renewal of licensure; to improve job performance

All certified staff members must have an IPDP plan on Frontline Education/My Learning Plan. The plan can be amended at any time during the school year. The IPDP plan must be updated every five years or when your current teaching license has expired. These plans should be developed in collaboration with the immediate supervisor or the Director of Curriculum and Instruction. Certified substitutes on the USD 466 substitute list may also file an IPDP plan. All IPDP plans are written on-line and submitted for approval first by the immediate supervisor, followed by the USD 466 superintendent, and last by the PDC committee.

Any person who resides in the school district will be eligible to file a professional development plan with USD 466 Professional Development Council. Certified substitutes on the USD 466 substitute list may file an IPDP plan.

Information Needed to Complete Your Individual Professional Development Plan:

- Date Hired
- Effective date of license
- Expiration date of license
- Three personal goals
 - o Goals should focus on increasing knowledge, skills, and implementation related to improvement/support of student learning.

Suggestions for Developing Professional Development Goals:

Individual professional development goals should be tailored to meet personal professional development needs. This includes acquiring professional development points for license renewal. The plan can be developed with a focus on individual, building, and district level goals.

- **Individual:** Focus based on individual needs identified through an analysis of skills related to student learning needs and licensure renewal requirements that include professional teaching standards. Goals may also include progress toward a license not previously held. Goals address three levels: knowledge, application, and impact. Goals address individual needs related to content endorsement and professional education standards as well as service to the profession.
- **Building:** Focus based upon identified student achievement gaps that are determined through the analysis of students' assessment data that includes the achievement of particular student groups. Following this, each building's professional learning needs are identified by determining the knowledge and skill needed to implement researched-based strategies designed to close identified student learning gaps. Goals are aligned with identified student academic targets and are statements of the desired professional skills necessary to facilitate student learning related to those targets. Results are measured according to three levels: knowledge, application, and impact.
- **District:** Focus district priorities flow directly from the mission and academic goals approved by the Board of Education. These include graduation requirements and exit outcomes. District goals are based upon identified standards of performance for students at each academic level.

Steps for Completing an Individual Professional Development Plan:

1. Collaborate with a designated supervisor

The individual professional development plan should be tailored to meet personal and professional development needs. These include acquiring professional development points for licensure renewal. Requirements for acquiring professional development points include that the plan be:

1. Developed in collaboration with a designated supervisor.
2. Signed by the individual and her or his supervisor.

2. Assess your individual needs

Identify personal professional development needs - including acquiring points for licensure renewal.

3. Determine your individual professional development goals

These should be based upon identified needs, including the need for professional development points for licensure renewal.

4. Determine individual professional development strategies

Select strategies that will best provide the skills and knowledge necessary to meet your personal

professional development goals. Include staff development planned by the school and/or district according to the school's results-based staff development plan and/or the district's Professional Development Plan.

Professional development may be done independently and include such things as action research, case studies, and reflective logs or journals. Professional portfolios and participation in a college or university course or program of study are also possible individual professional development strategies.

5. Write the Individual Professional Development Plan

The Individual Professional Development Plan should include *goals* or clear statements of what you wish to know and be able to do because of the professional development. For example: *I will routinely use semantic mapping and question-answer relationship (QAR) strategies to increase student reading comprehension in all content areas.*

Ideally, the plan should also include indicators for each of the three levels (*Knowledge, Application, Impact*). Indicators are used to determine if the planned professional development has led to the desired results. Progress toward indicators should take place at regular intervals throughout each school year as well as annually.

In-service activities must include one or more of the following three areas: content endorsement standards, professional education standards, and service to the profession.

6. Analyze progress

Throughout the time the learning is being applied, check to see if personal perceptions and observations correlate with student performance on formative and summative assessments. Consider keeping a journal that documents what is learned. Focus the analysis of both formative and summative assessment data on the identification of students' needs that have not been previously addressed. It is also important to note those things that data indicate are effectively meeting previously identified needs.

7. Revise the plan as necessary

Based upon what is learned from the analysis of progress (described above), revise the plan to address newly identified needs and/or those needs previously identified but that are not showing improvement.

Approval of the Individual Professional Development Plan

- Building Principal
 - Provides initial approval for IPDP for staff in their building
 - If an IPDP is not approved, the building principal will meet with the individual to address and correct concerns in the IPDP
- Superintendent
 - If an IPDP is not approved at this level the superintendent will meet with the building principal and individual to address and correct concerns in the IPDP
- Professional Development Committee
 - Provides final approval of all IPDPs considering the building principal and superintendent recommendations.

In the event that the PDC committee disapproves the Individual Professional Development Plan, in-service request, or college credit(s), the administrator or teacher may:

1. Submit an appeal in writing to the PDC Chairperson within thirty days of notification of denial, listing specific reasons why he/she feels the decision was incorrect.
2. At a scheduled review session, the appeal will be made in person to the PDC.
3. Following the final PDC action on an appeal, the PDC chairperson will inform the participant of their decision.
4. After all local PDC appeals of a non-approval for an individual development plan are exhausted; licensed staff may appeal to the state licensure review board (KAR 91-1-206(d)). The individual staff member may call KSDE Licensure at 785-296-2288 and ask the Licensure Review Board Coordinator to begin the process.

If an individual holds a bachelor's degree, she/he must submit 160 professional development points earned under an approved individual development plan to renew a professional license. Half of the professional development points (80 points) must be awarded for completing appropriate college or university credit. One semester credit hour is equal to 20 professional development points. The Professional Development Council will determine the appropriateness of college credit before awarding points.

If an individual holds an advanced degree, she/he must submit 120 professional development points earned under an approved individual development plan to renew a professional license. The PDC will determine the appropriateness of college credit prior to awarding points. An individual with a graduate degree is not required to earn any points from completing semester credit hours. Professional development points earned through any combination of semester credits and other professional development activities may be submitted.

Individuals may apply semester credit hours directly to licensure renewal without being awarded professional development points for the credits ONLY if the credit hours are earned as part of an approved teacher preparation program for an added endorsement area, or for a school specialist or leadership license. The professional development points used for renewal of a license must be earned in at least one of three areas:

Content Endorsement Standards

Professional Education Standards

or

Service to the Profession

Certified/Licensed Staff

Highest Degree Earned	Total Professional Development Points	Locally-awarded Professional Development Points	College Credit
Bachelors	160 Points	80 Points Maximum	80 Points minimum, (1 college credit hour = 20 points) OR 8 credit hours in an approved program
Masters	120 Points	120 Points Or	1 college credit = 20 points

Questions About Awarding PD Points Relative to Renewal Licensing (Teacher Licensure updated as of 9/28/22)

1. Do I have to have professional development points to renew my five-year professional license?

Yes, except for the following situations, under regulations effective July 1, 2003, all renewals of a professional license will be based on professional development points awarded by a local professional development council.

Exceptions:

- You may apply directly to Teacher Licensure at KSDE if you are completing a program for an additional endorsement or license (new teaching field or school specialist or leadership) and can provide an official transcript verifying at least 8 credit hours completed during the validity of the license that were part of the approved program.

Regulation 91-1-205(b)(3)(D)

- You may apply directly to Teacher Licensure at KSDE if you hold a graduate degree **AND** have at least three years of accredited experience during the validity of the professional license being renewed. **Regulation**

91-1-205(b)(3)(E)

- You may apply directly to Teacher Education and Licensure at KSDE if you have completed the National Board Certification assessment process through the National Board for Professional Teaching Standards during the term of the professional license being renewed. **Regulation 91- 1-205(b)(3)(A) or (B)**

2. How old can professional development points be? What about credit hours?

The individual must verify professional development points earned during the term of the license that is being renewed. Therefore, any points awarded for activities OR for semester credit hours must have been earned during the five-year current professional license period. However, knowledge points that are used as the baseline to

award application or impact points may have been earned during a previous licensure period. The application or impact points must have been earned during the licensure period being renewed. **Regulation 91-1-205(b)(3)**

3. If an educator has retired, but wants to maintain her/his professional license, does s/he have to continue to meet the same professional development requirements for renewal?

No. If an educator is taking part in an educational retirement system in any state, s/he can renew by completing half of the professional development points specified in the regulations. For someone holding a bachelor's degree, 80 points must be earned, 40 of which must be college credit (2 semester credit hours). A retired educator holding a graduate degree must earn 60 points.

Regulation 91-1-205(b)(3)(F)

4. If an educator wants to renew a five-year substitute license, must professional development points be earned?

Yes. This license may be renewed with 50 professional development points.

5. What information must be reported on an official professional development transcript?

A listing of all the activities for which professional development points were awarded, including the date of the activity and the total number of points awarded for each separate activity. It should identify which points were awarded for semester credit hours. The form must also include a designation of which points were awarded for service to the profession, content, and professional education (pedagogy). A date range should be listed for activities where more than 10 points are awarded. It is suggested that districts do not include additional information related to local issues or concerns only.

6. Do official transcripts from the colleges or universities need to be included with the professional development transcript?

Yes. The professional development council will be awarding professional development points for courses and recording those on the professional development transcript. KSDE staff will continue to verify that the institution is appropriately accredited and that the credit is semester credit hours.

7. Does the official professional development transcript need to indicate whether the points awarded were at the knowledge, application, or impact level?

Yes. The professional development council will need to determine the level when they award the points.

8. Are there guidelines that a PDC should apply in determining whether college credit is appropriate for renewal of an individual license?

The PDC should keep in mind that an individual must complete college credit in content or professional education (pedagogy). If an individual completes coursework related to content, the content should be related to the endorsements/licenses the individual holds. However, some content coursework is considered applicable to any educator, such as computer coursework. Professional education (pedagogy) may be related to content endorsements OR something that would be applicable to any educator, no matter what their endorsement/licensure area. Example: A course on discipline in the classroom could be applicable to any educator. The PDC has flexibility in deciding “appropriate credit” when considering individual situations and requests. For example, a course in Spanish language may be appropriate for educators employed by a district where many of the students have Spanish as their first language, even though the educators do not hold an endorsement for teaching a foreign language. **Regulations 91-1-215(f) and 91-1-206(a)**

9. Can points be earned for attending a coaching clinic or course?

The two areas for licensure renewal listed in the question above are addressed here:

Content Standards: Coaching clinics or courses are content appropriate only for teachers with physical education endorsements. Therefore, only a PE-endorsed teacher may use a coaching course or clinic offered for semester credit hours to meet the credit hour requirement for renewal. Note: coursework that is part of a sports management or sports administration degree program is generally not acceptable as we do not issue this type of endorsement.

Professional Education Standards/Service to the Profession: A PDC could award points for coaching clinics or courses for non-PE-endorsed teachers if ALL of the following are met:

- the points are not counted as semester credit hours; AND
- the coaching clinic or course relates to an individual development plan goal on the teacher’s PDC-approved plan; AND
- the PDC must be able to verify the clinic/course fits within professional education standards or service to the profession.

To be considered one of these areas, the coaching clinic or course must be a general clinic, not one for a specific sport (i.e., Glazier Football Clinic, or Coaching Volleyball). For example, a clinic dealing with issues such as motivation of children or developing leadership skills would be appropriate. PDC’s should keep in mind that the entire clinic may not be eligible for points. If only 4-6 hours of a 16- hour clinic delivered information applicable to the renewal area (professional education standard or service to the profession), it is appropriate to award points for the portion that was applicable.

If there are any questions about coursework and its applicability for renewal, contact the Teacher Licensure Team before approving an individual's plan.

Awarding Professional Development Points for Purposes Related to Employment or Other Local Matters

- (f) For purposes of renewing a license, a professional development council shall not impose a limit on the number of professional development points that may be earned. The Help Section is a circled ? located at the top right beside your name. Click on it and it will show Frontline Support which has a place to ask questions, view webinars, etc.

Frontline Education/My Learning Plan Reminders

1. Whenever you are going to attend an in-service/workshop, remember that you need to fill out the request for it on the Frontline Education app **BEFORE** you attend. This is the same for college hours. All college hours **MUST** be approved prior to taking them.

2. After attending your professional development or taking your college hour(s), you must **evaluate it by completing the Knowledge Validation**. The Knowledge Validation needs to be completed within **30 days** of the professional development or college class. Once you have completed the Knowledge Validation, **mark complete**. If it is not marked complete, it will never come to the PDC Committee for final approval.
3. It is recommended that you review your IPDP plan every year and check to see if you need to update your personal goals. Your goals should be specific, measurable, attainable, results-oriented, and time-bound. Example: instead of saying “to communicate better with parents”, say “I will produce a weekly letter that includes current topics of study and ideas for improving parent communications.”
4. Any teacher that has applied for a new license needs to write a new Individual Professional Development Plan (IPDP) or your plan will not be current. You will find the IPDP form under the “FORMS” tab. If your job assignment has changed, you will need to update and change your current plan.

5. When attending an all-district in-service, the Director of Curriculum and Instruction will enroll everyone for the in-service. He/She will provide a sign-in sheet for you to sign to show you attended the in-service. You will need to complete the Knowledge Validation for the in-service. The Director of Curriculum and Instruction will confirm the attendance for everyone from the attendance roster and mark the activity complete. If the in-service happens to offer college credit, you will need to let me know, so he/she doesn't enter you for points. **YOU** will need to complete the College Credit form to receive college credit.

6. When you choose the Purpose for which you are attending an activity, you need to make sure

you mark all three boxes: Relicensure, Salary Points, and Professional Growth.

7. Usually when you attend an in-service, it is for Content Standards or Professional Standards. Remember, these are the only two that can be taken to the next level. Service to the Profession is only worth points.
 - a. **Content Standards:** Training related to the subject you teach
 - b. **Professional Standards:** Training that cuts across all content areas
 - c. **Service to the Profession:** Meetings, committees (ex. SIT meetings, KESA meetings, Staff meetings, etc.) These points can never be taken to the application or Impact levels. You only receive one point per hour of attendance. (5 hours = 5 points)
8. Any teacher who chooses to take an in-service or workshop to the next level may choose the Application Level to double the points awarded from the original in-service. You have one year from the date you attended the in-service to complete the goals and outcomes you list on the Application form. You will be required to turn in your documentation to me at the end of that year and it will be reviewed before you are awarded those points.
9. When you take an in-service or workshop for College Credit, there is a section that says “Provider”. The provider is **NOT** USD 466 or Southwest Plains Regional Service Center. The provider is the college or university from which you are earning the credit.

10. When you are ready to renew your license, you will need to have college transcripts sent to the Board Clerk at the Board of Education office electronically or have an official transcript sent to you. If you have the official transcript sent to you, you will need to bring it into the board office and give to the Board Clerk where it will be copied for your file and then scanned and uploaded to the state department.
11. Your IPDP plan is good for five years or until your license has to be renewed. Once you have renewed your license, you will need to complete a new IPDP form. (see #4 ☺)
