What is urban sprawl & what do you think is one positive & one negative impact of urban sprawl?

What were three things the city of Atlanta needed/did for the 1996 Olympic Games? Are any of these things still around or exist today?

What is gentrification? How is gentrification changing the ATL? _____

Economic Activity is ... _____

Based on the GDP by County Map, which areas have the largest economic output? Why do you think this is the case?

What is gross domestic product? _____

What are the two nations with the largest GDP's? _____

What continent (combined) has the largest GDP's in the world? _____

What makes a nation wealthy?

What is consumption? How does consumption affect both human and physical geography?

Though the United States only makes up 5% of the world's population, how much of the world's supply does the nation consume?

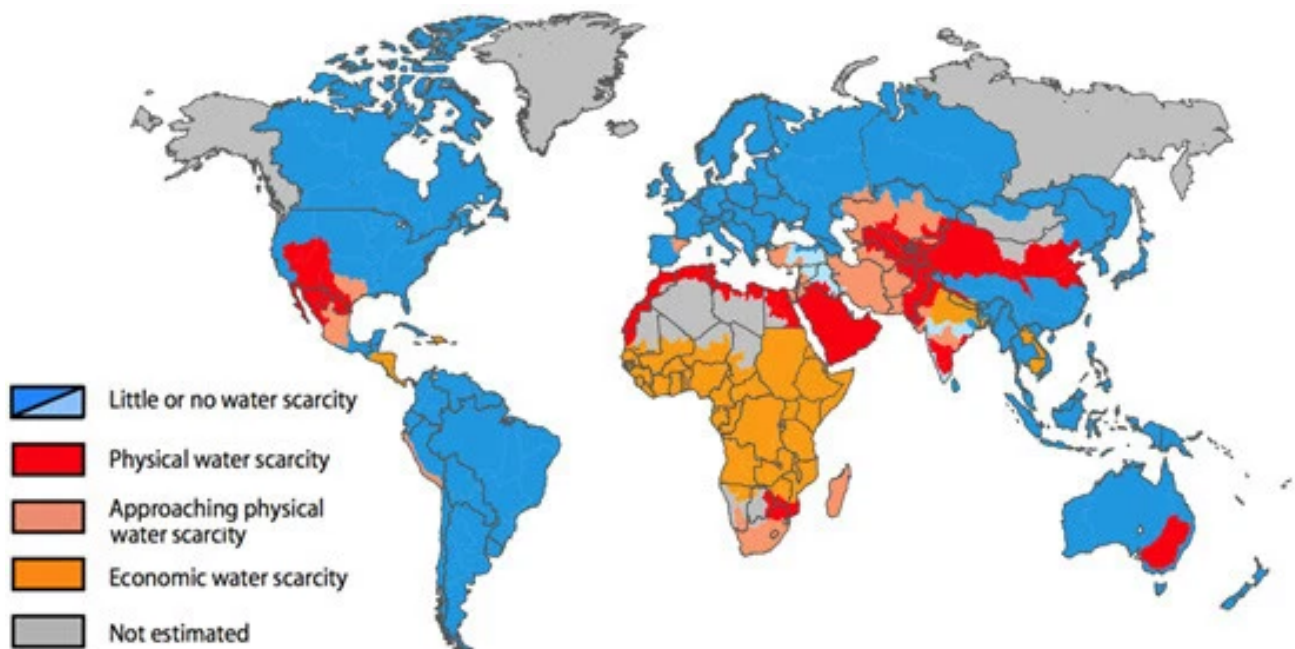

Do you think the United States "consumes" too many goods/food/etc? Explain why/why not. Should the United States change the way we consume goods/food/etc?

How has farming done more to change the world than any other human activity?

Water Scarcity

1. How much of the water on earth is “freshwater”? _____
2. How might freshwater be difficult to obtain? (opinionated Q) _____

3. According to the TED video on water, how many liters of water do humans use a day? _____
4. According to the TED video, what industry uses the MOST water in the world? _____

5. Using the color-coated map, what continent faces the most trouble with water scarcity?

7. Physical water scarcity means the region or climate physically affects access to freshwater. The area may be a desert. The climate may be too dry. The region may lack natural freshwater resources. Economic water scarcity means that the areas have a hard time financially accessing water. What do you think would be an example of an “economic” factor that leads to water scarcity?

Immigration Chapter

What does immigrate mean? _____

Africa, Oceania, and Others have the least amount of immigrants. Why do you think this is the case?

After looking at the T-chart and the reading provide a detailed list of push and pull factors for immigration explaining what these factors are.

Push

Pull

Oil!

Concrete is the most *produced* good by humans in the world, but oil is likely one of the most consumed. What are three ways in which humans consume (not eat, consume means use!) oil.

1. What continent has the least amount of oil production? _____
2. Does the oil production look similar to the oil consumption map? _____ Why do you think this is the case?
3. What do developed countries need oil and natural gas for? _____
4. Approximately how much of the world's proven oil reserves lie under Saudi Arabia? _____
5. List as many positive and negative effects of oil production in the world? Provide examples of how oil has made people better off and how oil has not improved the lives of all. (opinionated based on reading)

Positive

Negative
