Ad Hoc Committee for Quarters to Semesters

EWU currently has a multi-term system with quarters and semesters (along with abbreviated terms for self support online programs). As most higher education institutions in the country are on semesters it may be time for EWU to look at changing to one term (semesters being the obvious choice). Yet it is important to gather as much data and information with key stakeholders in terms of the feasibility of moving to a semester term. An ad hoc committee of faculty, admin, students, staff and community members can work on a plan that can successfully move EWU forward in planning for a single term.

This ad hoc committee can consist of the following:

FO representative

UFE representative

Registrar

Student Affairs Representative

Enrollment Management Representative

Institutional Research Representative

Representative from Financial Aid

ASEWU Representative

Budget Representative from Academic Affairs

Two faculty each from the Four Colleges

One community member-Cheney

One community member-Spokane

Spokane community college member
