

Happy Back to School!

We are so excited to work with you and your students in the upcoming school year. I have listed a few pick-up times for each bus, so students have a general idea of what time the buses will be at their stops. Based on where you live, you should be able to figure out the approximate time the bus will be there. **Please take a moment to review the bus times that are listed below, and if your student is still unsure of the general time the bus will be to their stop, complete the below form. Our morning bus schedule will be the same as last year at this time.**
