Add Game Name with an Image (Mandatory):

- Ensure that the Game Name and Image fields are marked as mandatory.

- This is necessary because, without an image, the game details won't display properly on the dashboard pages, which rely on both the game name and its image.

Steps to Publish a Zoho Creator Form:

1. **Go to "Edit This Application":**

   o Open Zoho Creator and navigate to your application. Click on **Edit This Application**.

2. **Access the Publish Option:**

   o Click on the **Settings** icon. Under the **Users and Control** section, select **Publish**.

3. **Select the Component to Publish:**

   o From the drop-down list, choose the form (or other component) you want to publish. Click **Publish**.

4. **Component Published:**

   o The selected component will be published and listed on the **Publish** page. You can copy the embed code or direct link from here.
