

Oh, hey there Emi!

What's the sledgehammer for?

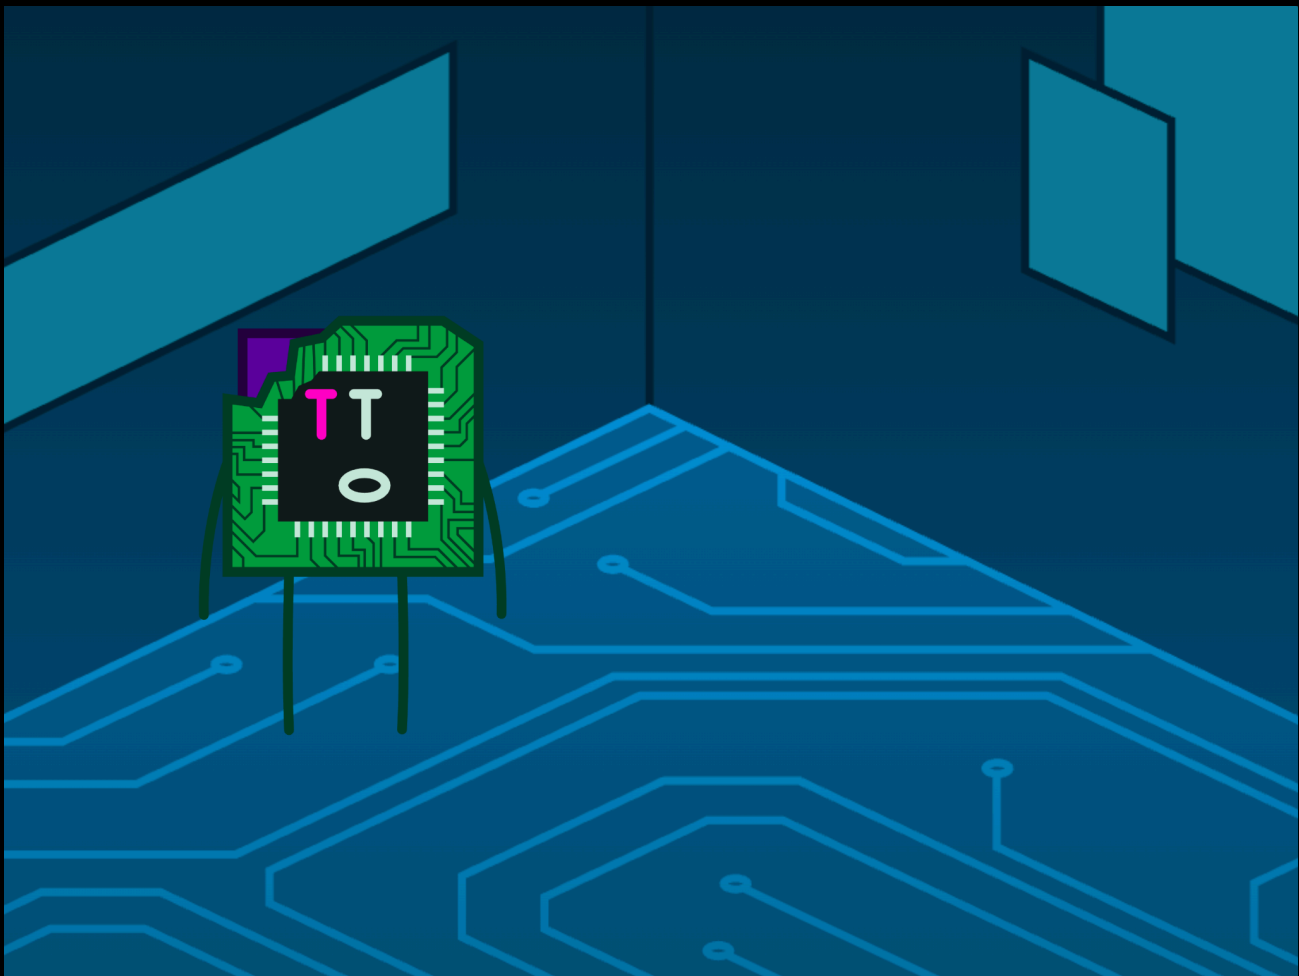

so like, this acorn guy came up to me and told me knock you unconscious and gave me this sledgehammer

i think they said something about some sort of dream challenge

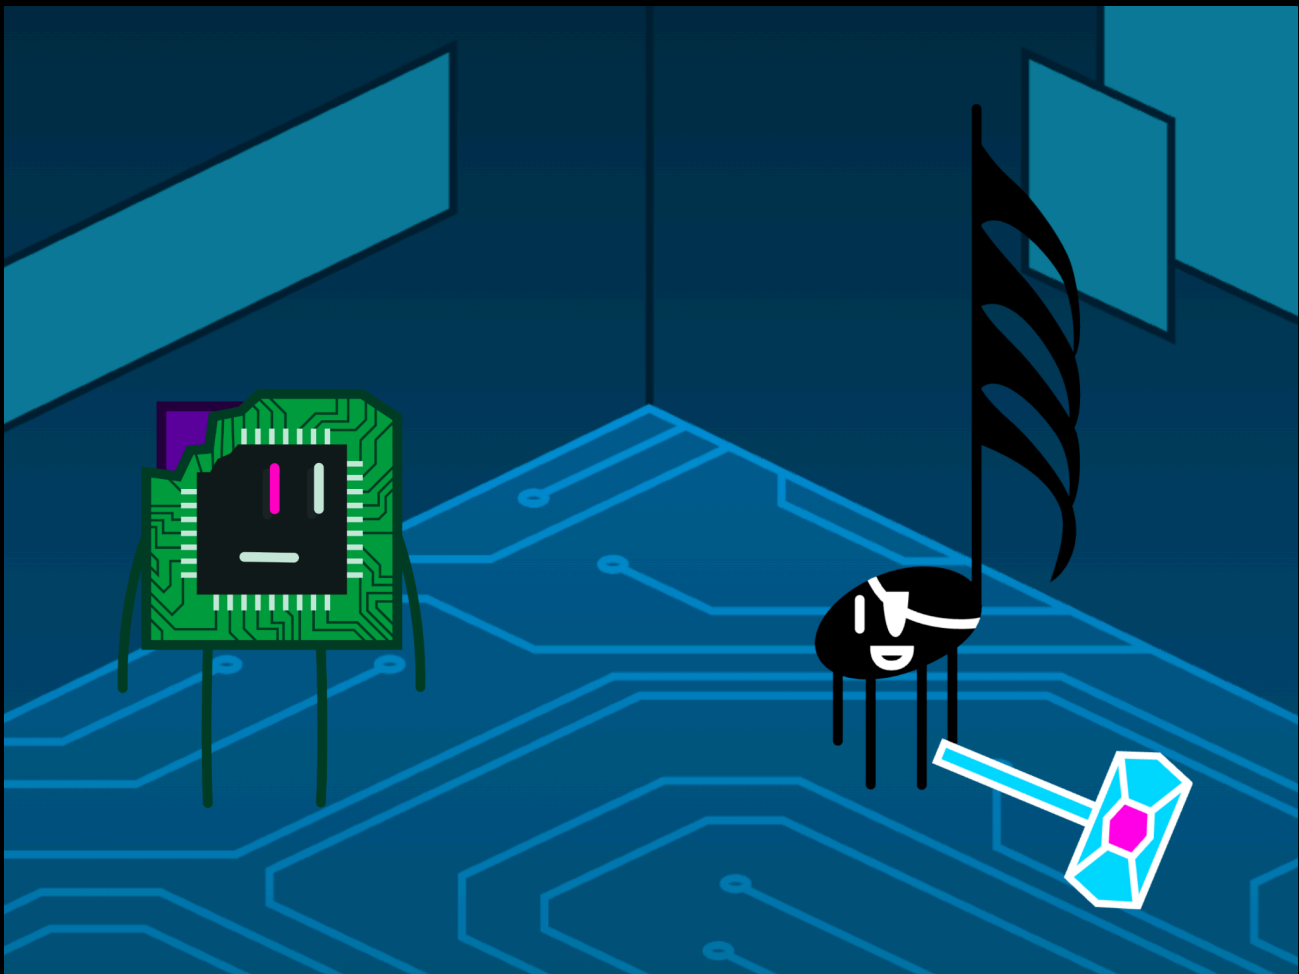

idk i wasn't really paying attention

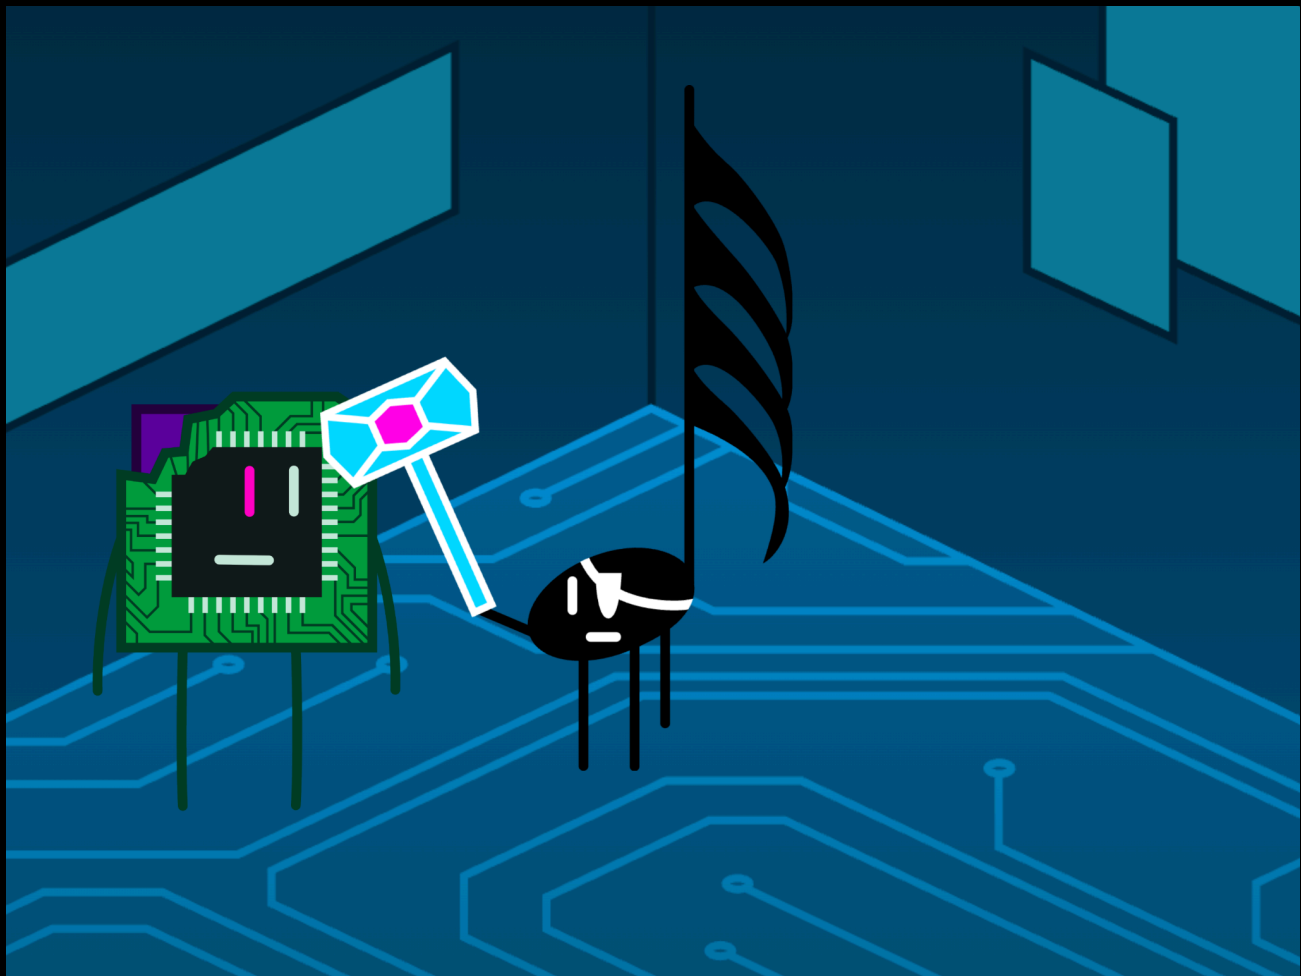

wait, where did you go?

Great! Why'd I choose the *one alley* that's a dead end?!?!

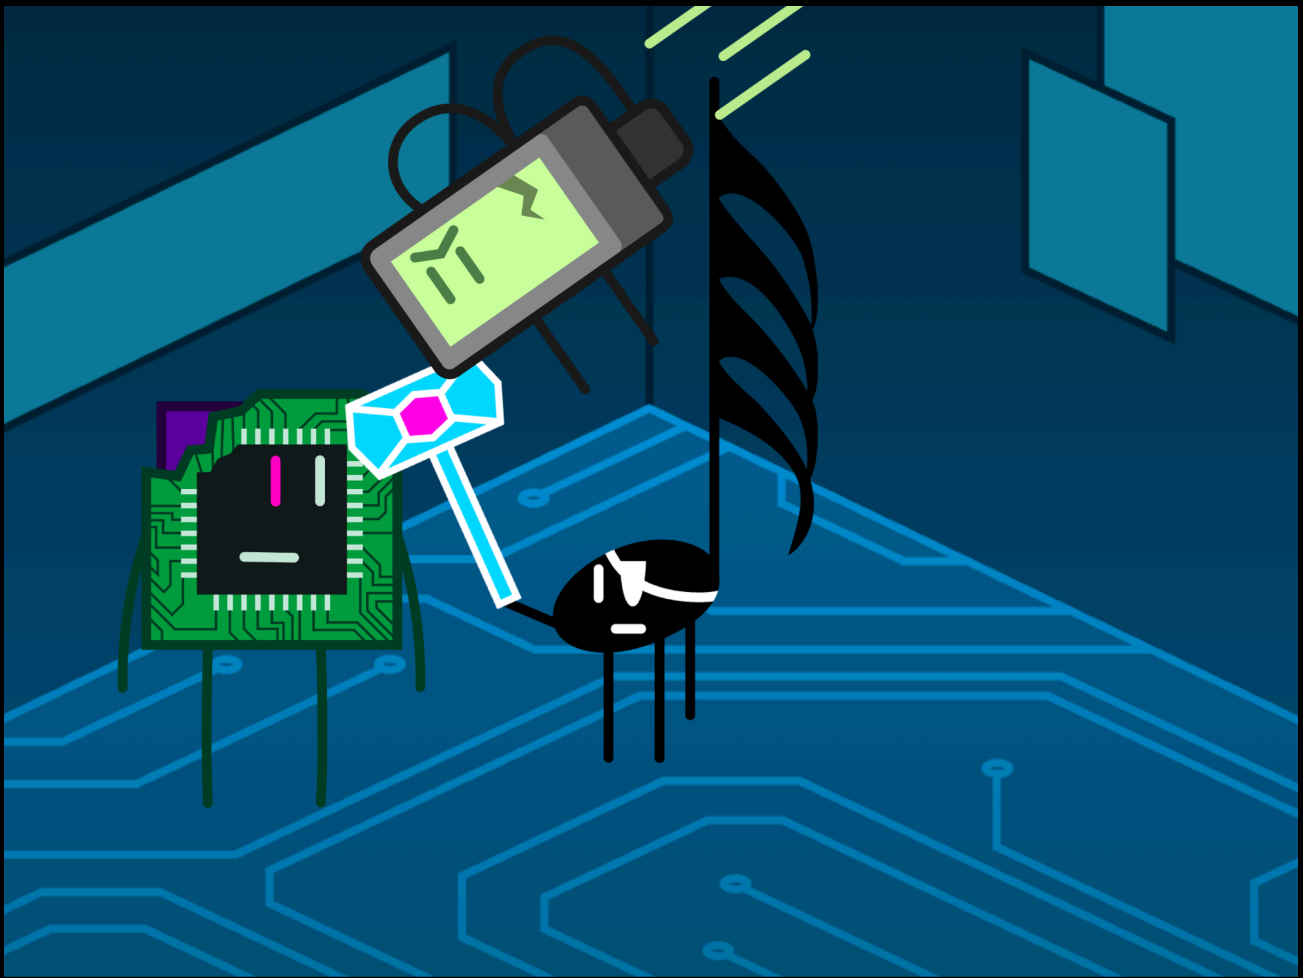

what's wrong?
scared of getting crushed with a sledgehammer?
Yes, actually
that's fair
So you'll let me go?
nah

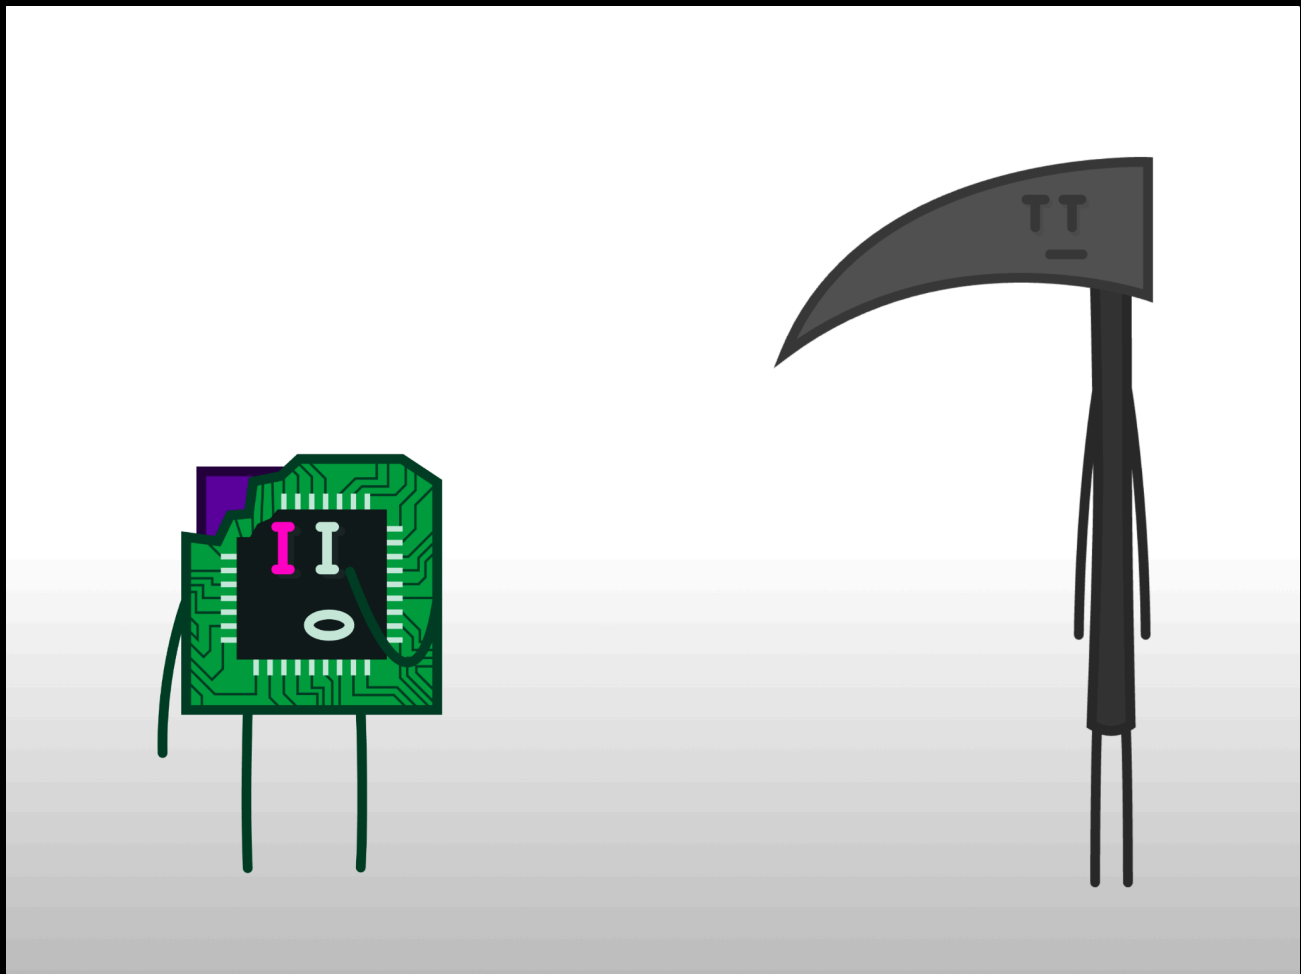

...

...

kinda... thought that'd do a bit more...

SNEAK ATTACK!!!

Ugh, where am I?

Wait, am I dead again?

No, you're just asleep this time.

Oh, it's you, Scythe

What are you doing in my dream?

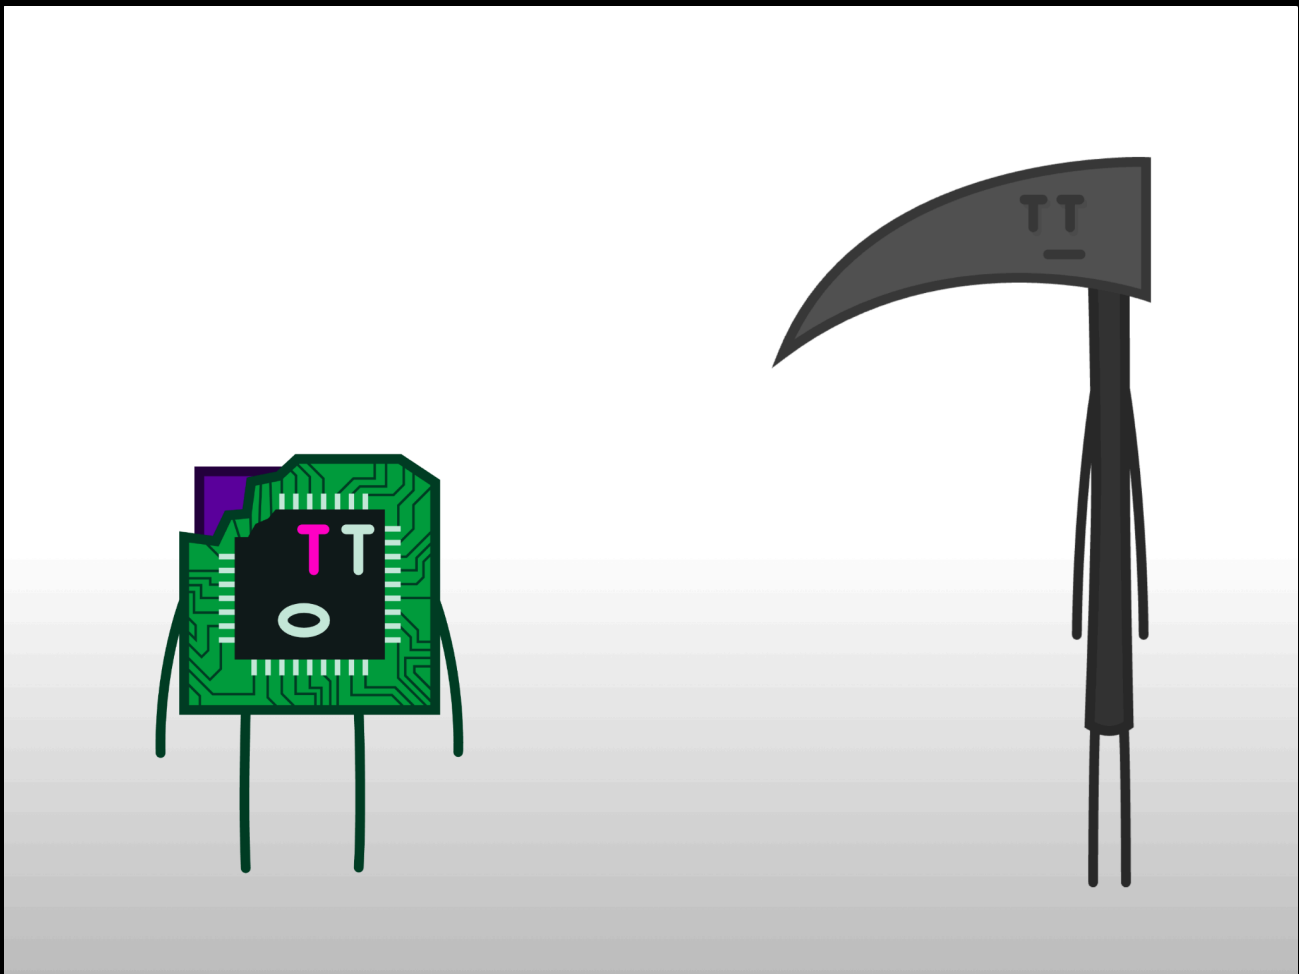

Lychee hired me for one of his challenges.

How did he hire the assistant grim reaper?

Assistant to the grim reaper.

Whatever, so what's the challenge

You need to escape your dream.

And how do I do that?

You just go through the exit door right there.

Really?

No.

You need to pass two challenges in order to escape.

Why 2? That's kind of an odd number

It's even.

You know what I mean!

Alright fine.

You need to pass *five* challenges in order to escape.

Wait can we go back to 2

No.

Fine, what's the first challenge?

Solve this cipher.

RL RK R, KYNLWH,
SKKRKLSAL LD LWH
QJRP JHSFHJ. RE NDZ
VRKW LD OHSXH,
KDOXH PN YRFWHJ.

What kind of cipher is it?

Simple substitution.

Well, it's been a while, but I think I remember how to do these

So it looks like the only 1 letter word is [R], and given how 3 different 2 letter words start with it, it's probably (i)

The most common 2 letter words starting with (i) are it, is, if, and in

From this, you can see that that the first 3 words are (it is i), giving us [L] is (t) and [K] is (s)

From here, we can see that (XssistXXt) is the word (assistant), giving us [S] and [A]

This makes it pretty obvious that (assistant tX tXX XXiX XXaXXX) is (assistant to the grim reaper), giving us most of the letters

This shows us that (sXXthe) is (scythe), giving us pretty much the entire message, where the rest can be easily inferred, leaving us with the message: "It is I, Scythe, assistant to the grim reaper. If you wish to leave, solve my cipher."

You know you didn't have to do any of that.

What?

The key is on the back of the paper.

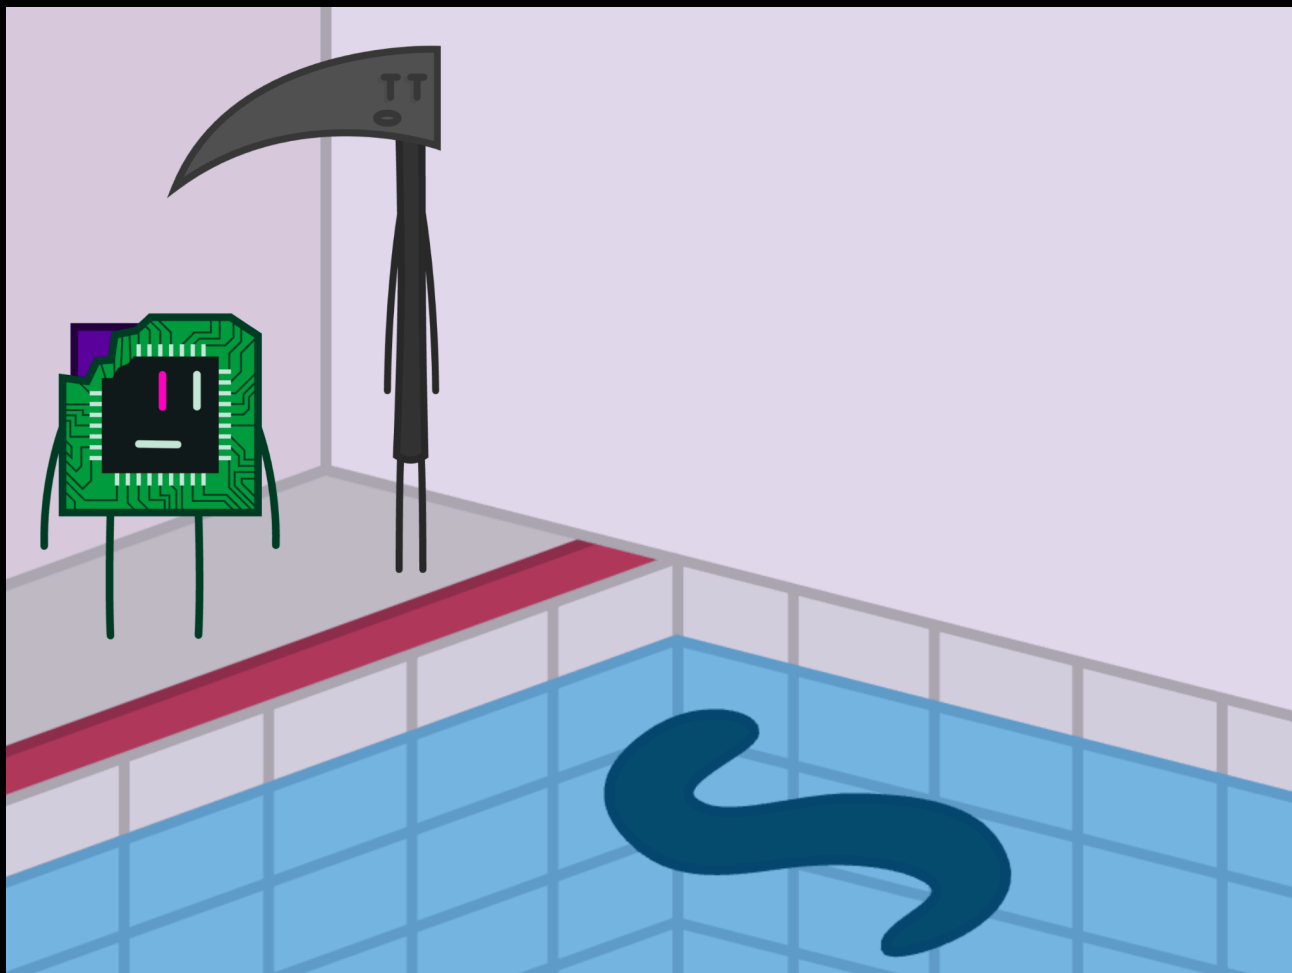

A = S	N = A
B = C	O = D
C = Y	P = F
D = T	Q = G
E = H	R = J
F = E	S = K
G = Q	T = L
H = W	U = Z
I = R	V = X
J = U	W = V
K = I	X = B
L = O	Y = N
M = P	Z = M

Oh...

You know what.

Because that was kinda cool, I'm gonna give you a skip token. It lets you skip any challenge other than the last one.

Oh cool
Anyways what's the next challenge?

Swim across this pool of electric eels.

I'm gonna use my skip token

Aww. I was looking forward to this one.

Electric eels are my favorite animal.

Are you sure you want to skip this one.

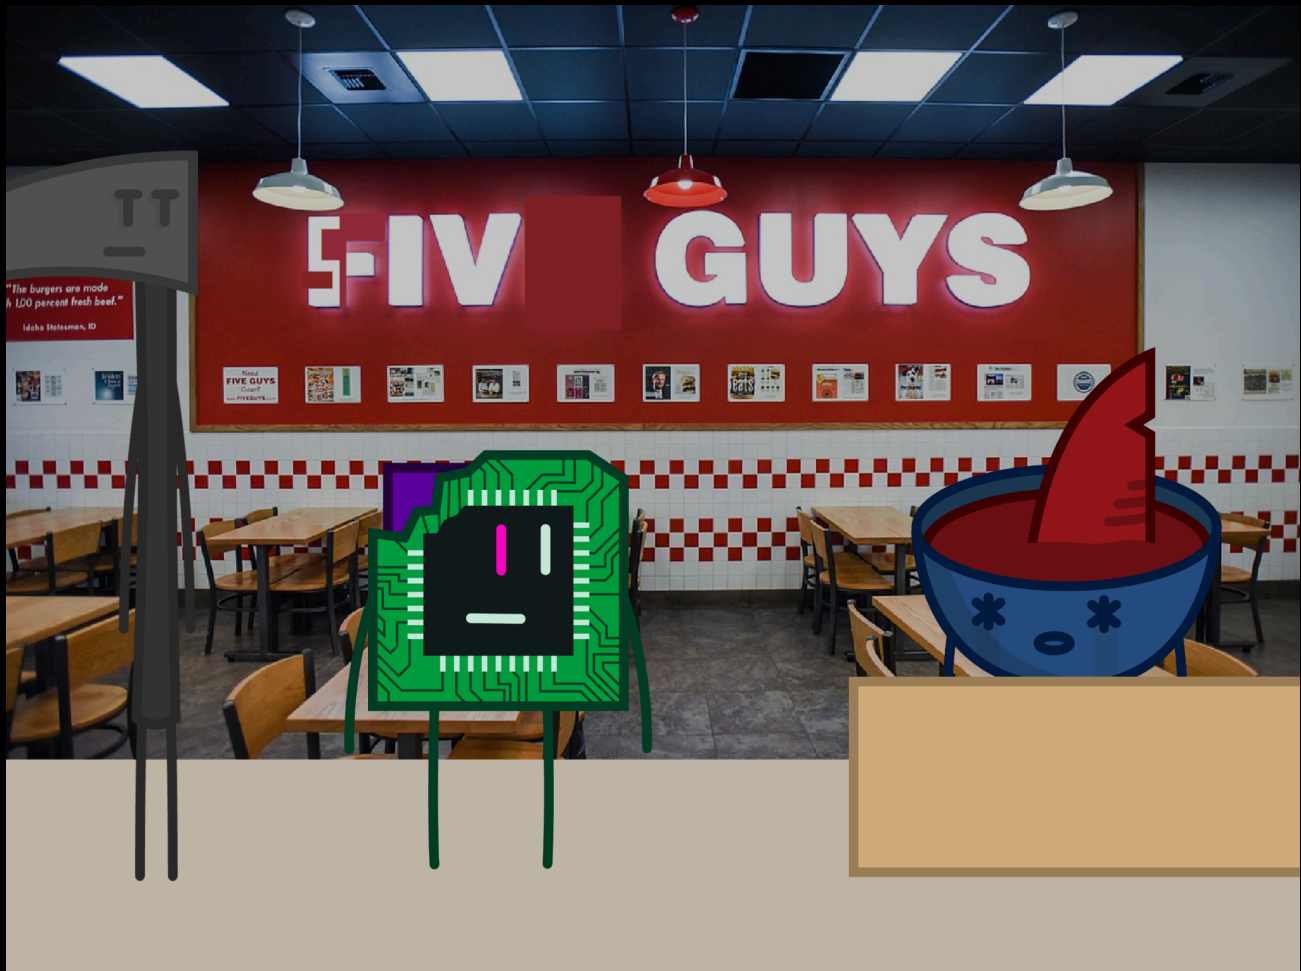

Water literally kills me

Alright.

The next challenge is to order the secret menu item at Five Minus Four Guys.

What happened to the guys in the "-4" part?

The First Guy threw them in the deep fryer.
Now get to ordering.

Welcome to five minus four guys what's your order?

Finn? What are you doing here?

Because this is your dream I can only pull people from your memory.

I guess that makes sense

Anyways what's the secret menu item?

It's a secret

I'll take 1 secret!

Sorry, the deep frier's broken

Why's it broken?

Weren't you paying attention to Scythe?
I threw the other four guys into the frier

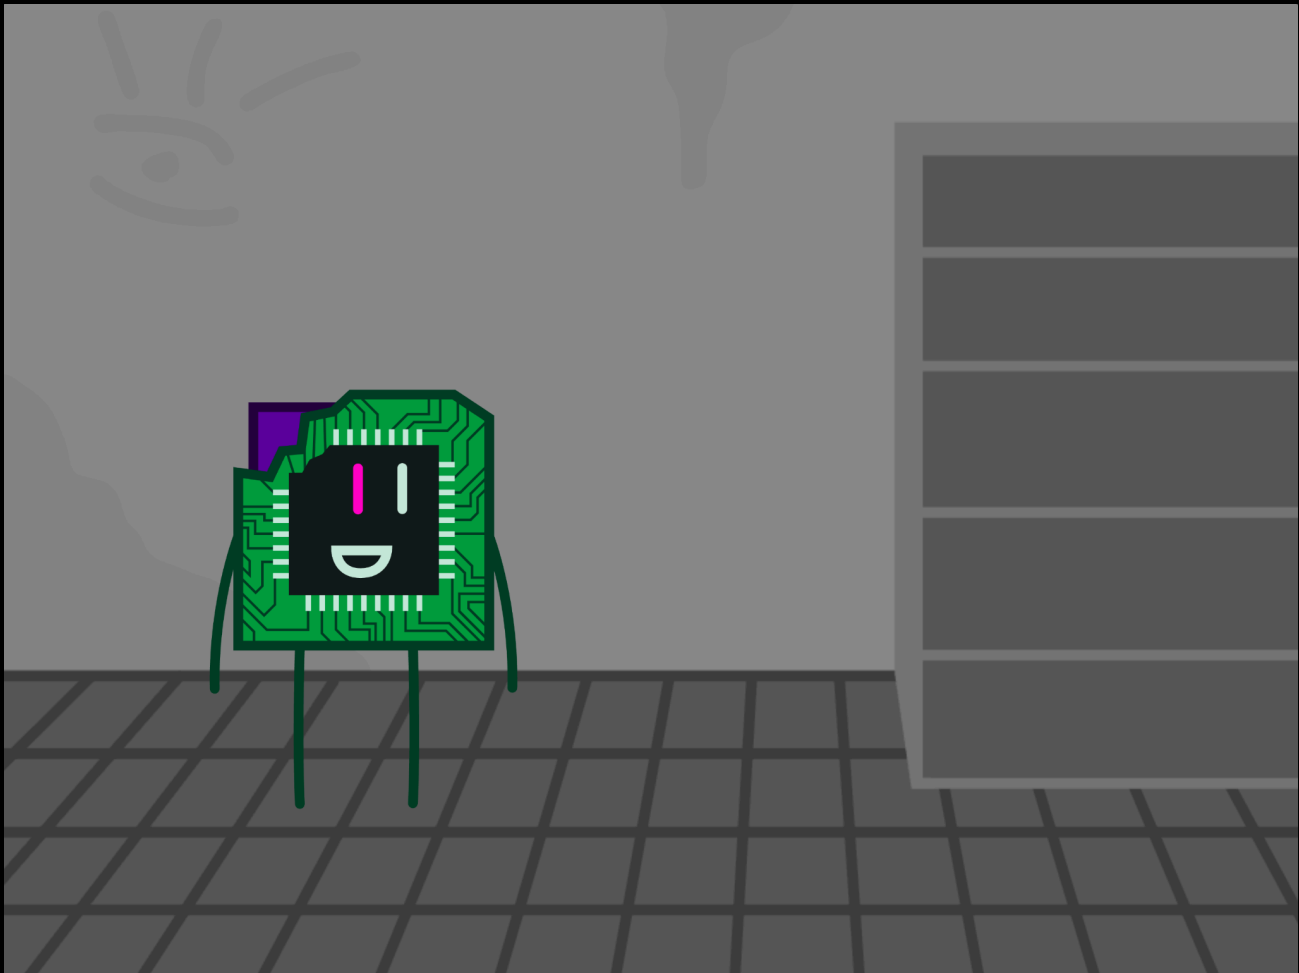

Unfortunately I'm gonna have to deduct five points from your score, Microchip.
These infractions cannot go unpunished.

Ok I'm tired of this I'm just gonna make it myself

Oh, I didn't expect her to actually do that
Are you gonna stop her.

Nah

Alright, time to make the secret menu item!
I have absolutely no idea how to do this
Oh, how convenient, an employee training tape labeled "How to Make the Secret Menu Item"

Hi! Welcome to Sp- I mean, Five Minus Four Guys!
Well, I guess now it's Five Minus Four Guys Plus... uh... whatever gender you are, Microchip

Trostein

Wait, how did you-

I'm omnipotent, remember?

Anyways, the script is asking me to say a bunch of other nonsense so I'm just gonna skip to the important part

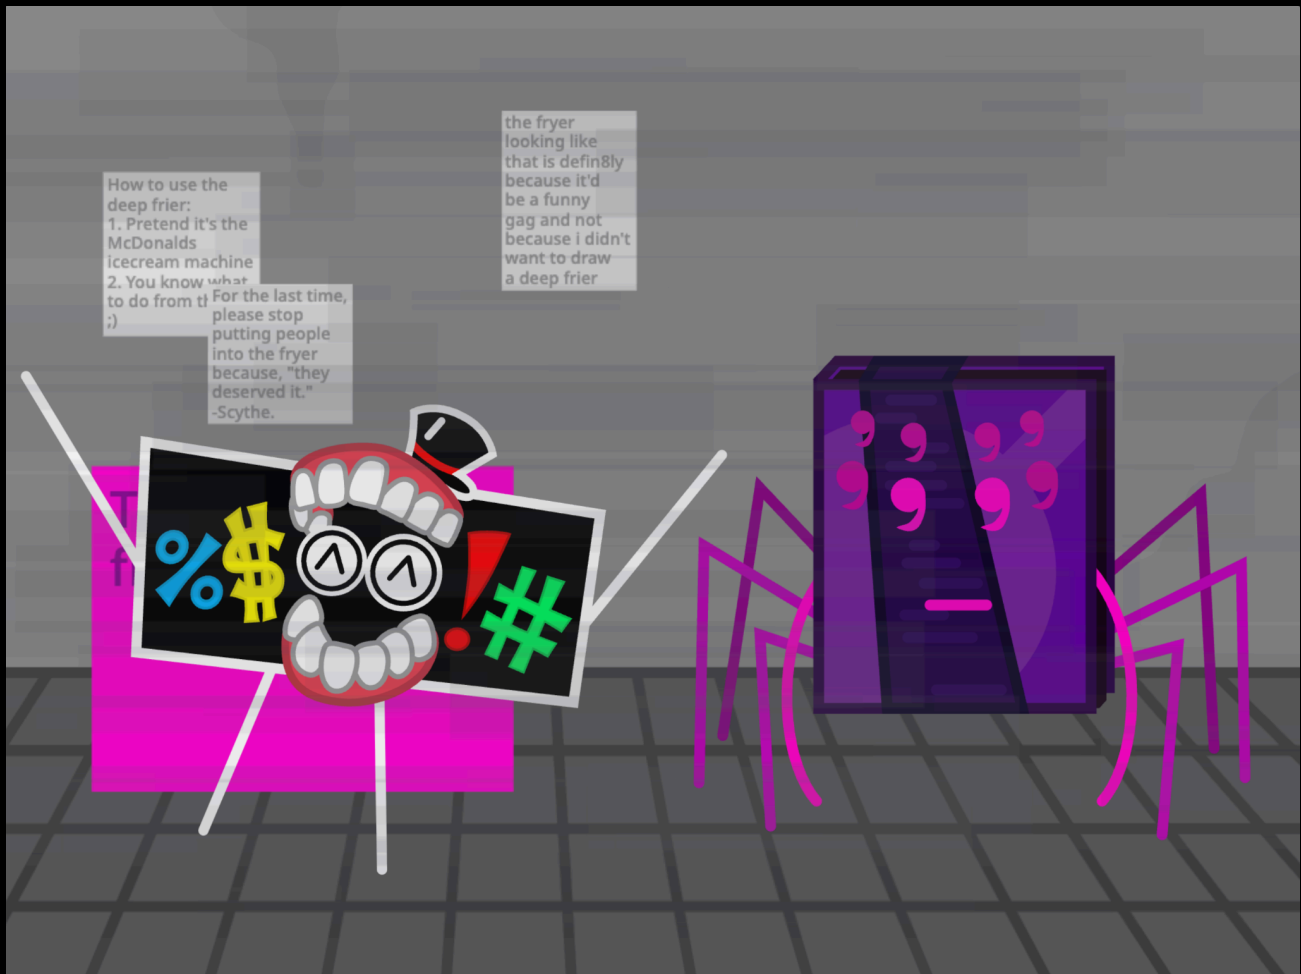

The first thing you need to is fix the deep fryer because Finn broke it

How do I do that?

I was literally just about to tell you

So what you need to-

W8, what was that sound?

How to use the deep fryer:
1. Pretend it's the McDonalds icecream machine
2. You know what to do from there ;)

For the last time, please stop putting people into the fryer because, "they deserved it."
-Scythe.

the fryer looking like that is defin8ly because it'd be a funny gag and not because i didn't want to draw a deep fryer

Does someone need help fixing the microwave?

No

How did you even get here?

You left the backdoor unlocked

Ohhhhhhhh, so *that's* I forgot

Now get lost

Aww... alright...

How to use the deep frier:

1. Pretend it's the McDonalds icecream machine-

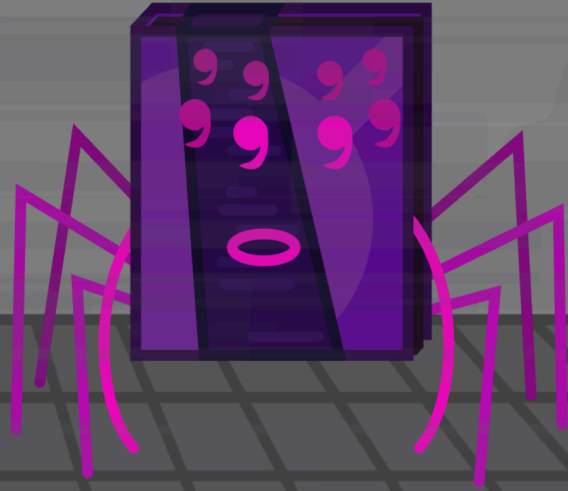

2. You know what to do from th

;))

For the last time, please stop putting people into the fryer because, "they deserved it."
-Scythe.

the fryer looking like that is defin8ly because it'd be a funny gag and not because i didn't want to draw a deep frier

Totally a deep fryer trust me

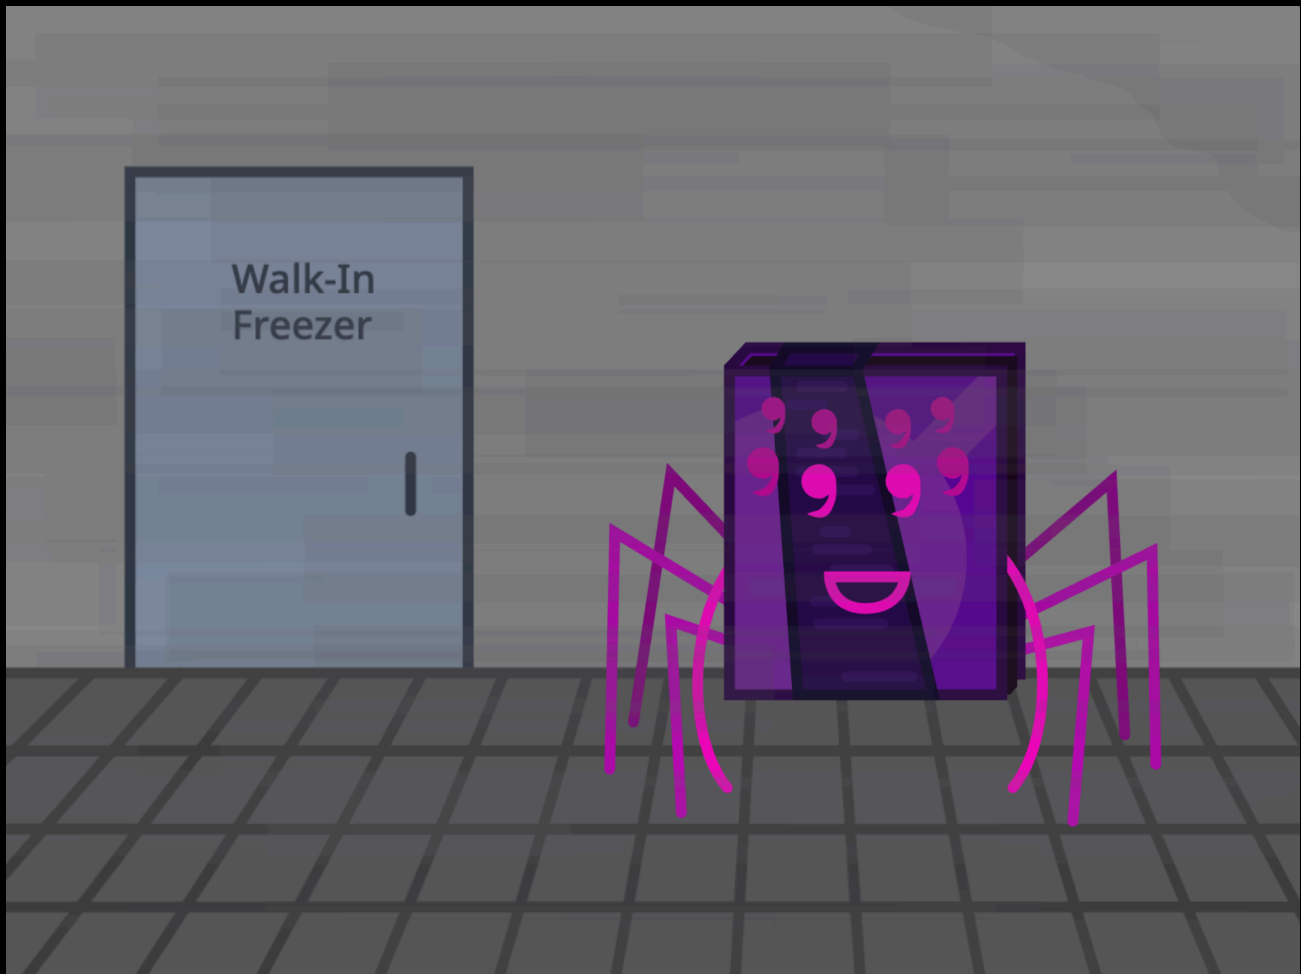

Now that *that's* taken care of...

All you need to do is plug it in

Really, that's it?!

Yeah, I think Finn just said it was broken because they're lazy

Anyways, now we need to go into the walk in freezer

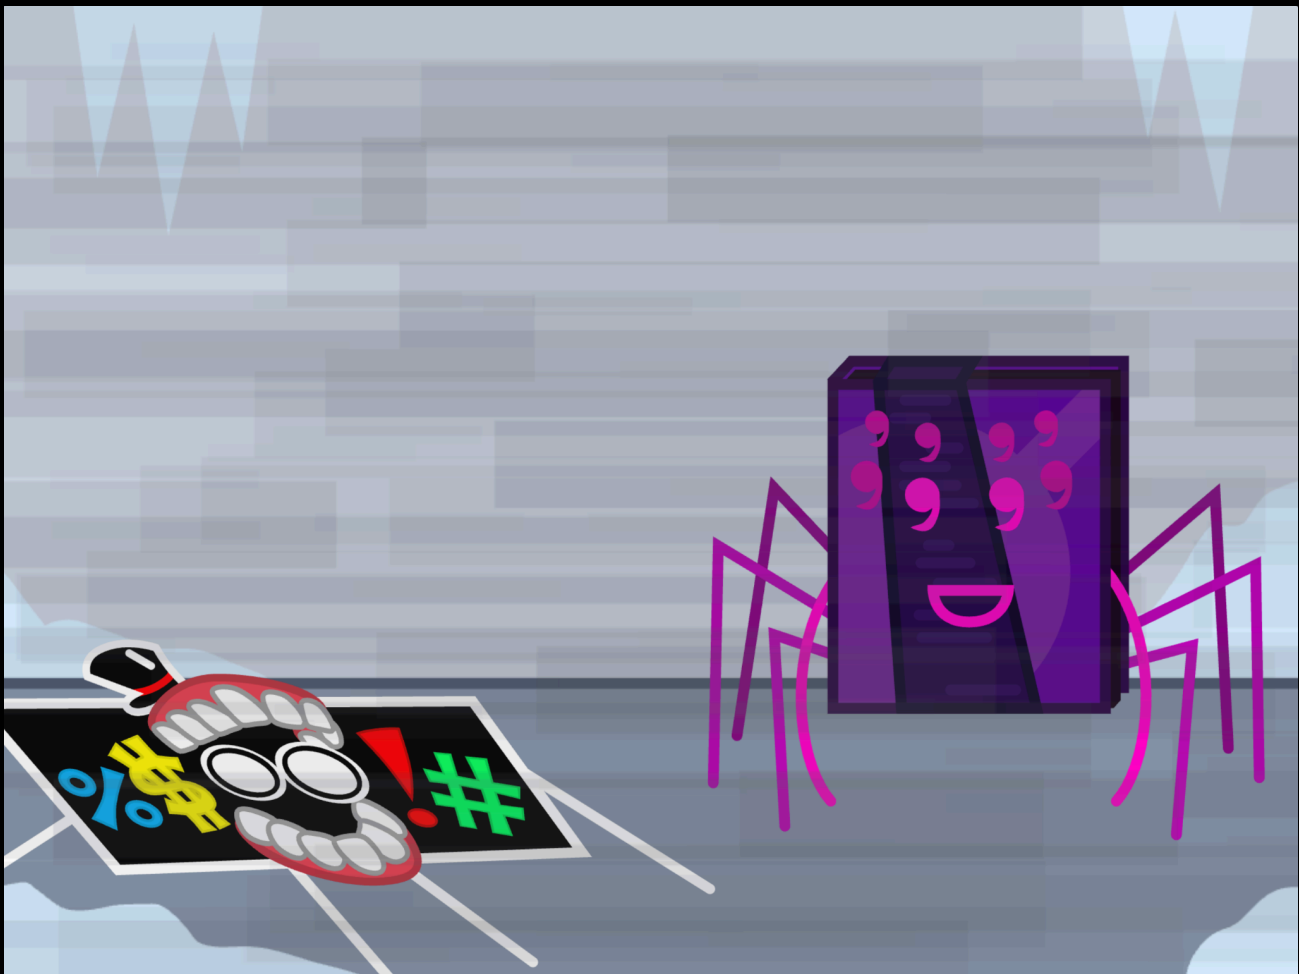

The combination for the freezer is the same as in challenge 13 for some reason, so I won't go over it again

Oh my god wtf are you doing here

Well when you said "get lost" I just wandered around in a random direction with my eyes closed and now I have no idea where I am!

Excuse me for a second

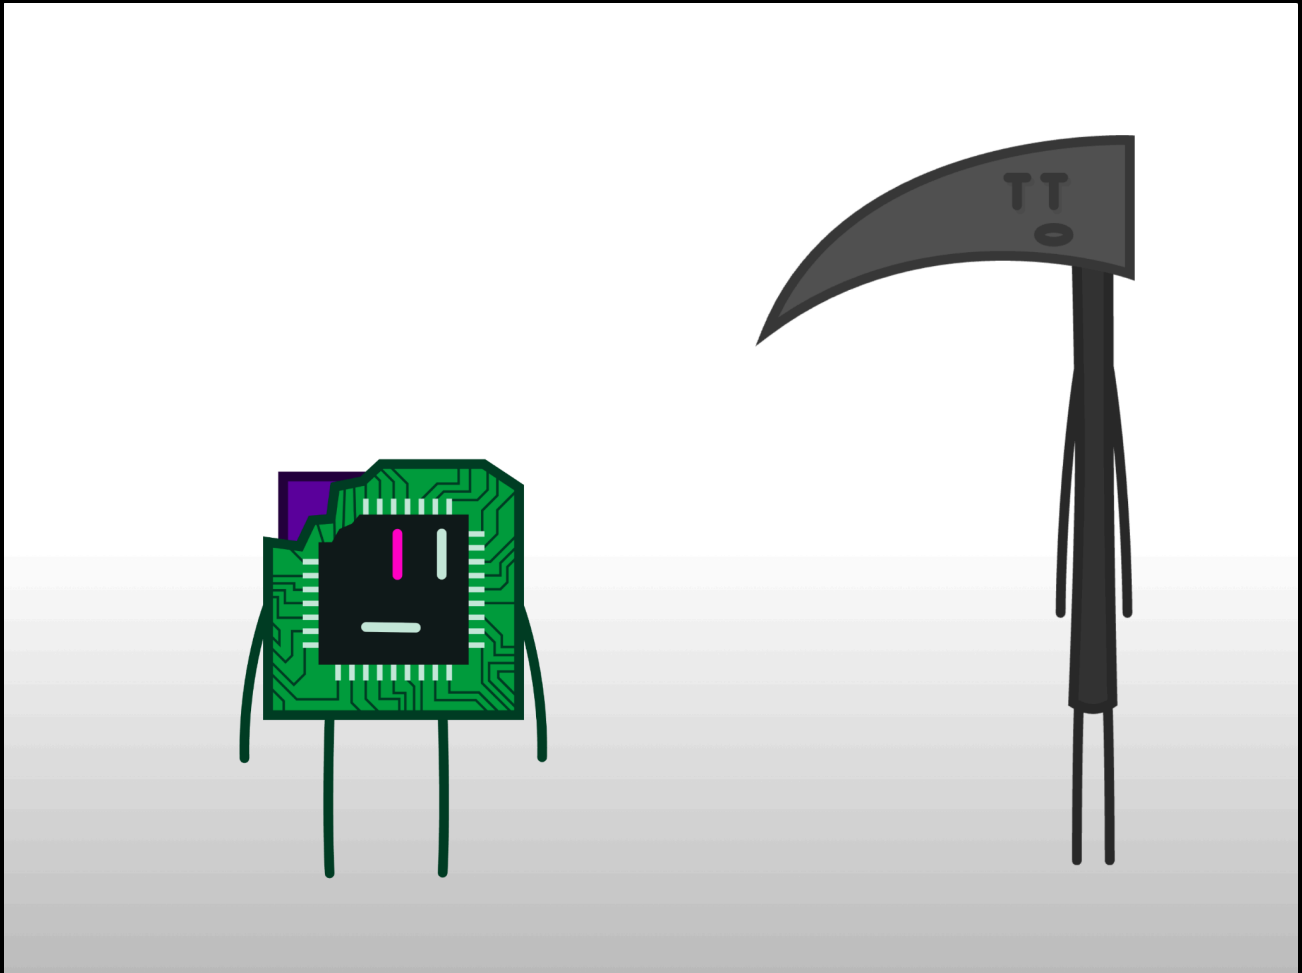

So once you're in the freezer-
Did you just kill Wacky Censor Bar?!?!
What do you have against killing people for being mildly inconvenient?
Eh, fair enough
Besides, this is still just your dream
Now, you to go all the way to the back and grab the *frozen* peanuts
Regular ones won't work
Why not?
Idk
What happened to being omnipotent?
Ok well that was a *slight* exaggeration
I'm only 57% omnipotent
I got bored and stopped after the Arachnomicon told me to make 400 bone rods
What's wrong with that?

You have to make them one at a time and each one comes with a 20 second magic particle thingy you have to w8 through
Anyways just throw the peanuts in the deep fryer and that's it
Seriously? *That's the secret menu item???*
Yep and the video's almost over so I gotta go now bye bye!!!!!!!

Alright I got the secret menu item
What did you do that for.
That was the challenge, right?
The challenge was to *order* the secret menu item.
Do I at least get another skip token?
No. That's the lamest secret menu item ever.

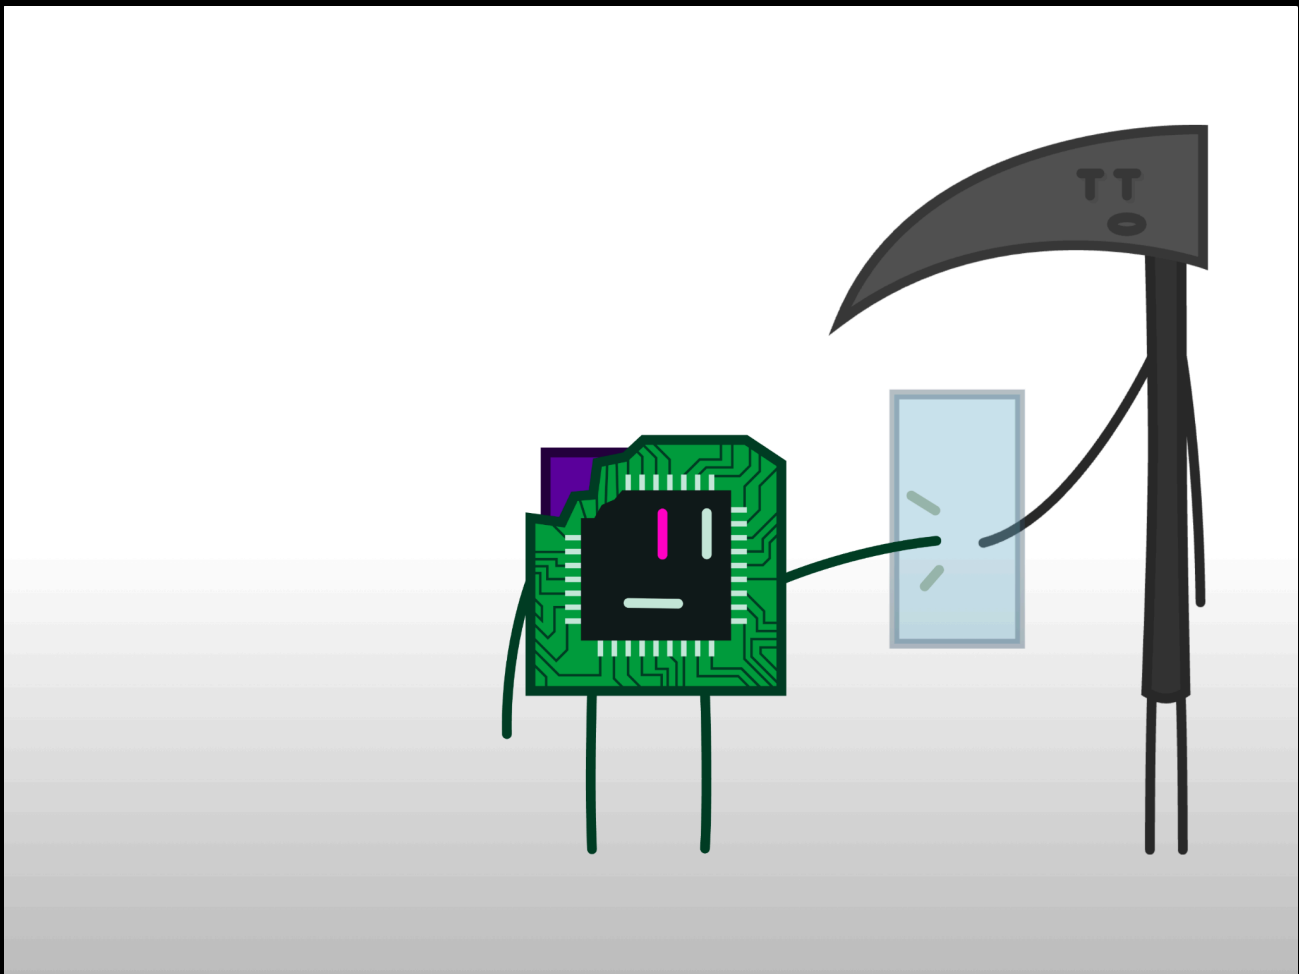

Well that's not *my* fault!!!
Imaooo

To be honest, I didn't have time for any more challenges so I'm just gonna skip to the last one.

What is it?

You have to defeat me.

At chess.

Oh

Can we do something else, I already did the chess thing

Fine.

Instead you must defeat me in a game of roshambo.

What's that?

Rock paper scissors.

Why don't you just call it that?

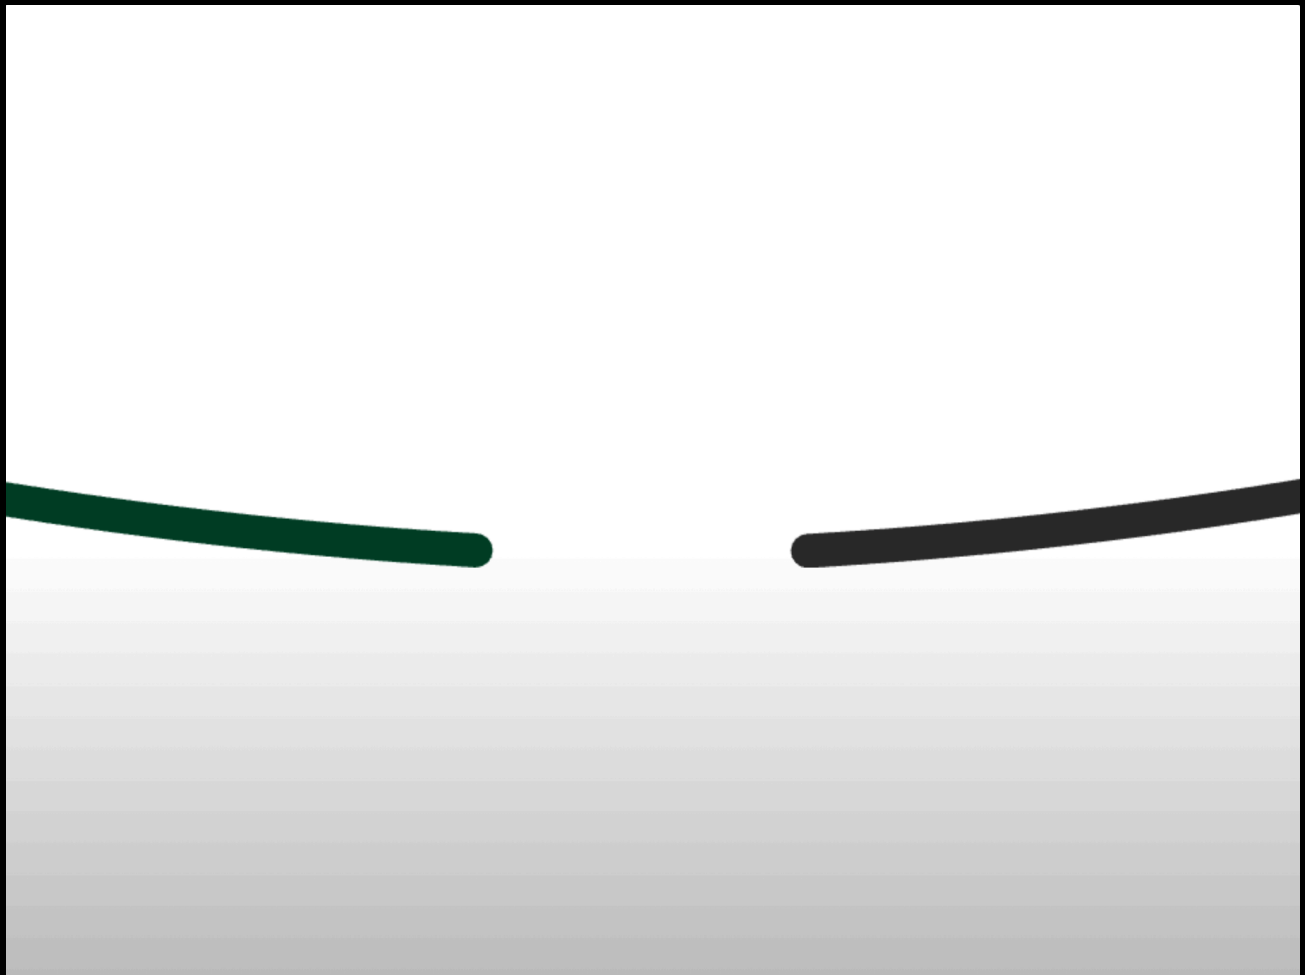

Enough stalling, let's play.

3.

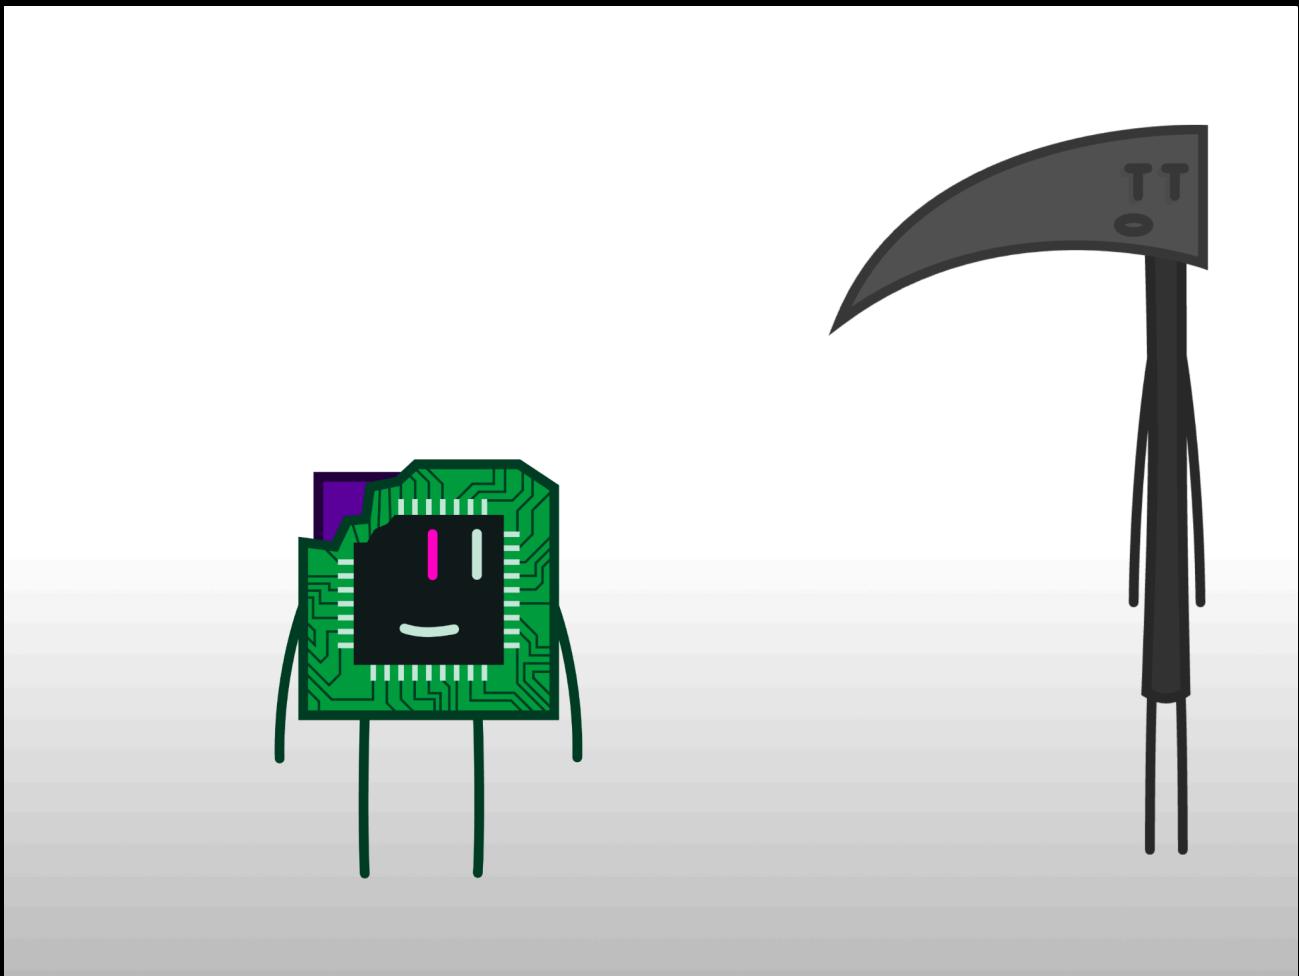

2.

1.

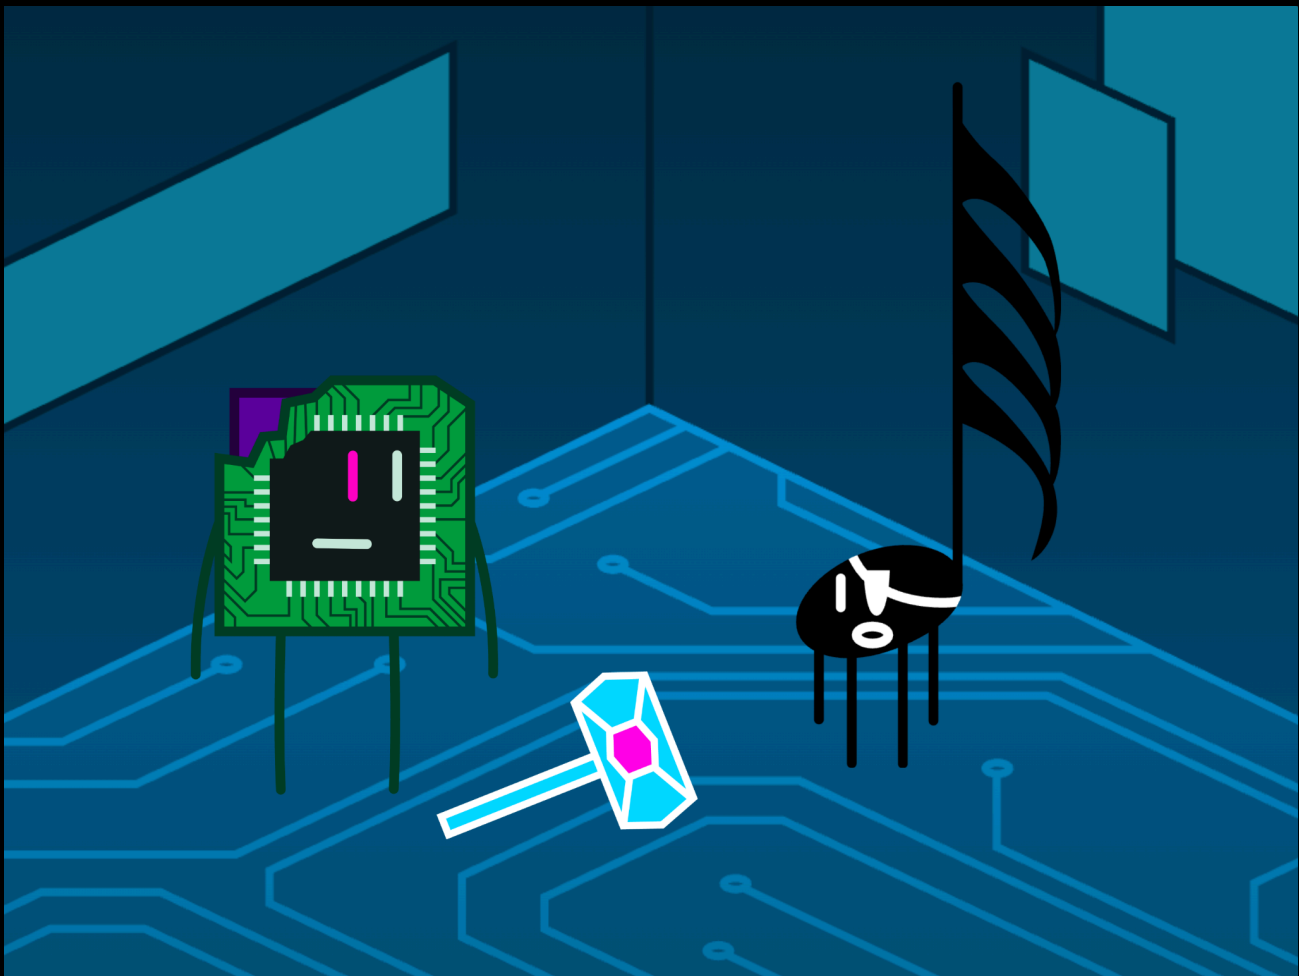

Go.

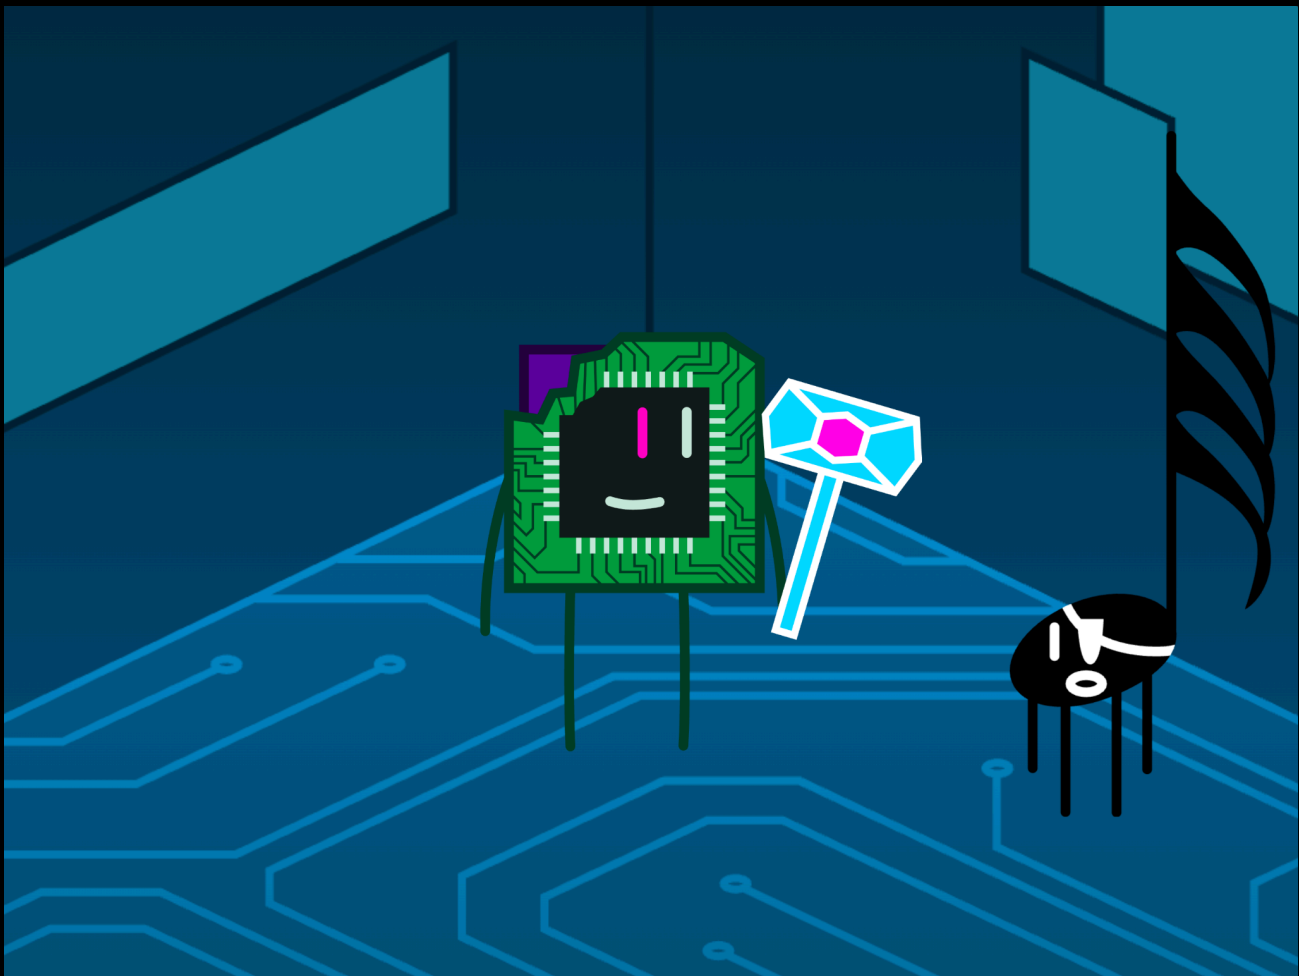

Guess I didn't really think this one through.

You know what, I'm getting kinda tired of this.
So I'm just gonna let you go.
I still have five other contestants to go through.

oh, you're awake now
does that mean you finished the challenge?

what are you doing with that sledgehammer?
