

Student AI Code of Conduct

Introduction

As members of the educational community, we recognize the importance of using artificial intelligence (AI) as a tool to enhance our learning experience. This Student AI Code of Conduct outlines our expectations for responsible AI usage in our school environment. It is our collective responsibility to ensure that AI is used ethically and productively.

Rights and Responsibilities

1. Rights:

- Students have the right to access and utilize AI tools that support their learning.
- Students have the right to express their thoughts and concerns regarding AI usage in their educational activities.
- Students are entitled to a safe learning environment where they can explore AI without fear of discrimination or harassment.

2. Responsibilities:

- **Ethical Use:** Students must use AI tools in a manner that is ethical and aligned with academic integrity. This includes using AI only in ways that are explicitly permitted or authorized by a classroom teacher. Using AI to complete academic assignments without permission, or misrepresenting any portion of an assignment as your own without proper attribution, is strictly prohibited.
- **Respect for Others:** When using AI, students must respect the rights and dignity of their peers, teachers, and all members of the school community. This includes refraining from using AI to create or disseminate harmful or discriminatory content.
- **Privacy:** Students should be mindful of privacy and confidentiality when using AI, ensuring that they do not share personal information or the private data of others without consent.
- **Critical Thinking:** Students are encouraged to apply critical thinking skills when using AI tools, assessing the reliability of AI-generated information and understanding its limitations.
- **Reporting Misuse:** Students have a responsibility to report any misuse of AI tools to a teacher or school administrator. This includes any instances of cyberbullying, harassment, or unethical behavior.

Prohibited Conduct

Students are prohibited from:

- Using AI tools to engage in plagiarism or to produce work that is not their own.
- Completing academic assignments with the assistance of AI software when not permitted by the classroom teacher.

- Creating, sharing, or endorsing content that is discriminatory, harassing, or harmful to others.
- Compromising the integrity of the learning environment through disruptive behavior related to AI use.

Consequences for Violations

Violations of this Student AI Code of Conduct may result in disciplinary actions consistent with the District's Code of Conduct. Consequences may range from warnings and parental notification to suspension of AI access or other school disciplinary actions.

Commitment to Improvement

We are committed to fostering a positive educational environment that promotes the responsible use of AI. This Student AI Code of Conduct will be reviewed annually to adapt to new technologies and the evolving needs of our school community.
