PRODUCT DESCRIPTION:

An Elegantly Effective Solution for the Pain in Your Arm

Fully adjustable arm extender capable of limiting movement by stabilizing and decreasing traumatic pain. Such as tennis elbow, ligament, and tendon stretches or post-surgical immobilization.

It keeps your arm stabilized so that you don't have to worry about accidentally bumping or extending your arm which creates a painful movement.

It powerfully supports the whole arm to the point of relief with a customized healing effect of 120 degrees extension which allows you a faster recovery.

With its non-bulky size and adjustable bendable parts it fits any arm in place without any trouble. Plus soft cloth padding increases stability by making it more comfortable which decreases sweat spots dramatically by 60%.

If you find yourself in a situation where you do not have full control, like when you sleep. Our extension will let you adjust the range of motion to suit your mood and mild activity.

So, don't let your trauma be your limit any longer, and experience the supportive relief that you deserve today!
