

The Risk RacingRR1 Ride-On Lift Complete redesign, new and improved

Ride off the track and directly onto your lift...It is that easy.

Troutman, NC – No more lifting and grunting, or trying to kick a motorcycle lift under your bike. Simply push or ride the bike onto the lowered lift. As the front tire touches the front plate, the lift goes into action rising to the bottom of the motorcycle frame. Step on the foot pedal and your bike will rise effortlessly into a secure position. Getting your bike down is just as effortless and simple. Just lift the release lever with your toe and roll the bike off the lift.

Weighing only 15lbs, the RR1 is lightweight, portable and stable in the pits. Each lift comes with a locking pin and is lockable in the up and down position for ease of transport and safety. The RR1 lifts both tires off the ground. The front and rear tires and suspension can be serviced while on the lift. The framework is made of high-strength, powder-coated steel and is extremely durable. The top of the Risk Racing RR1 Ride-On Lift has a molded rubber pad designed to hold the bike securely in place. Additionally, the bottom side of the lift is large and stable in the pits. There is also a hole in the top of the lift for quick and easy oil changes. Finally, there is a graphic area on the lift. Riders can order custom graphics from Risk Racing. These custom graphics can feature their name, number and sponsors.

A rider will see the benefits of this revolutionary lift after a long and draining moto. The last thing a tired rider wants to do when his or her tongue is hanging in the spokes is lift a 200lb motorcycle onto a glorified foot stool. Especially if the bike has an additional +20lbs of mud packed on it. After using the RR1 just once you will realize the benefits.

The RR1 Ride-on Lift works with full size, motocross specific bikes. It is available now at an MSRP of \$149.99. For additional information, pictures, and demo videos please visit www.riskracing.com or call 704-658-9332. It is distributed by Tucker Rocky and Marshall Distributing.
