

- SJ: 1. Help more people like Kathy
2. Get more people to your website

Hello, Megan 🙌,

I watched your youtube video about Kathy's 81kg weight loss journey and it is really amazing how you helped her change her life.

After watching the video I found your website and noticed some things that could be improved.

There is a new unique strategy that you could use to drive more people from social media to your website.

It would also help them understand more about the Keto diet, leading to more people buying and changing many more lives.

I have created a free example that you can try out.

Would you like me to send it over?

Have a lovely day,

Daniel.
