

RAPIDES READING REVIVAL PARTNER

Rapides' Reading Initiative is a comprehensive plan developed to promote the importance of early literacy, improve literacy outcomes, cultivate high-impact systems within our schools, and increase family & community literacy engagement.

Our students are our highest priority and we are committed to increasing public awareness of the importance of early literacy. When everyone can read, communities thrive! Higher literacy levels in a community lead to higher graduation rates, better job opportunities, and decreased cycles of poverty and criminalization. Illiteracy is 100% preventable and together we can make a difference and transform the lives of our children and communities.

Rapides Reading Initiative focuses on five key areas:

1. Equipping all classrooms with high-quality reading materials and resources
2. Providing ongoing literacy training for teachers and school leaders to ensure every child has an effective teacher.
3. Setting and progress monitoring literacy goals at the district, school, and classroom levels.
4. Implementing intervention and enrichment activities to support all students.
5. Forming a strong partnership with families and community leaders.

All kids deserve to learn to read! We invite you to become a part of our Reading Initiative and together we will overcome the literacy challenges.
