Sightings Increase

This week's files cover: London bombings, Its more dangerous on our highways than in Iraq for the National Guard and Puerto Rican National Day for UFOs. Also UFOs were seen over Arizona, California, Indiana, Florida, Georgia, Illinois, Maine, Maryland, Michigan, Missouri, North Carolina, Ohio, Oklahoma, Oregon, Texas, Virginia and Wisconsin. Many sightings were also reported in Argentina, Canada, Chili, Crimea, India, Greece, and Mexico.

The purpose of these files is to report weekly the UFO eyewitness and photo/video evidence that occurs on a daily basis around the world and in space. Many people claim it is impossible for UFOs to visit Earth, I ask you only to keep an open mind and watch the evidence we accumulate each week. These Files make the assumption that extraterrestrial intelligent life not only exists, but my hypothesis is that of the over one hundred UFOs reported each week many represent alien craft.

'War on the World'

London was savagely attacked with four powerful bombs weighing five to ten pounds on July 7, 2005. The crowded London subway is a relatively easy target with three million riders each day that include races of every color, religion, and age. Three bombs were on the floors of the trains when they exploded at 8:50 AM, killing over fifty people. I spent four years in England and rode the subway numerous times so the cruelty struck a nerve. At 9:47 AM, a double Decker bus exploded

at Tavistock Square, blowing the heads off two riders. Israeli intelligence indicates this is often an indication that the terrorists had blown themselves up.

Police have released evidence that four suicide bombers were British citizens of Pakistani ancestry that recently returned from Pakistan. Closed circuit TV showed the four suspects with back packs at King's Cross station at 8:30 AM before entering separate trains. Three of the men lived in Leeds and the immediate fear is that members of a terrorist cell linked to the city are planning further strikes. The man who planted the bomb at Edgware Road was named last night as Mohammed Sidique Khan, 30, the married father of an eight-month-old baby, who is believed to have come from the Leeds area. Two other terrorists were Hasib Hussain, 19, who bombed the bus in Tavistock Square, of Colenso Mount, Leeds, and Shehzad Tanweer, 22, the Aldgate bomber, who lived at Colwyn Road, Leeds. Police are still trying to identify the fourth. A group calling itself 'Secret Organisation--Al-Qaeda in Europe' claimed responsibility on an Islamic Web site for the string of explosions it called 'blessed.'" The mastermind and bomb makers have not been found but explosives were found in Leeds. Everyone must be vigilant and realize thousands of terrorists are attempting to destroy the freedom that people of the West enjoy. The best chance for long term peace is for democracy to come to the Middle East. The terrorists are strong but losing the hearts and minds of much of the world. Al-Qaeda is able to recruit from Islam people prepared to die for their cause even when they could have used timing devices for their bombs. It should be noted that over 40% of the terrorists blowing themselves up in Iraq are from Saudi Arabia. I extend my sincere sympathy to all that were hurt and died in the bombings.

Arizona UFO Sighting

PHOENIX, SKY HARBOR – My wife thought she heard thunder on June 27, 2005, so we went outside to make sure everything was picked up that could blow away. I walked around the front of the house to look for thunder storms when I saw something that looked like a plane on approach to Phoenix Sky Harbor Airport, then two lights that didn't appear to move. They were spaced fairly far

apart for a commercial aircraft to be that close and appear still, so I called my wife over to take a look. After a couple minutes it was obvious that it wasn't a conventional aircraft. I went inside to get my camera and binoculars.

I took several pictures as it moved slowly off to the west and eventually below the roofline of the neighboring homes. Through the binoculars it looked like I was seeing the side of a triangular shaped object as it appeared slightly darker against a twilight sky. The most notable thing about my photos is that some showed a red light at the closest side of the object and some showed a green light in that position. Thanks to Brian Vike
www.hbccufo.com

California disk sightings

LAKEWOOD – The witness saw a round shaped, orange colored disk hovering in one spot, that moved slightly and vanished. Then hours later on July 4, 2005, I saw the exact object again at 11:45 PM. We had lighted some fireworks, and my friends and I were sitting on the front lawn when I noticed a very bright circular, orange colored object in the sky. It was very bright and was just hovering there. At first I thought it was an airplane of some sort, but then I thought airplanes aren't that bright and just orange like that, nor are helicopters. Then, I thought it was a star, but realized stars don't shine that bright. So I realized it was a UFO. I ran into the house to grab the video camera. As I was zooming in, I thought it looked like a small bump on the top of the circular object, but couldn't exactly make it out. Because the object was too small to catch on tape. Then, we noticed the UFO started to vanish and got smaller and smaller. Then it was gone. At about 3:35 PM, I saw the same UFO again. They looked and knew I was joking. Then, before I was closing my windows I noticed the same UFO, orange and circular. It was doing the same motions, barely moving then disappearing. This startled me and my friends. Thanks to Peter Davenport Director
www.ufocenter.com

SAN DIEGO – On July 4, 2005, at 9 PM, a bright triangle with orange lights was spotted above Mission Bay, so the witnesses parked on a hill. Very high over Mission Bay, I saw a very bright orange ball and as it got closer it looked like a V, it had ~5 bright orange lights on each arm of the

V. It moved very fast to the left, stopped then moved forward and to the right. There also appeared to be some type of dripping orange fire from it, like a flare but this only happened twice. Then, the lights went out one at a time on the arms and it just looked like a star that faded out. Sober as hell and still pretty freaked out about it. I am an educated middle age woman, and never saw anything like it. I just can't believe we were the only ones to see it. I'm watching the news for it. Most people were watching the fireworks. Thanks to Peter Davenport Director www.ufocenter.com

Illinois six spheres spotted

CAROL STREAM – Last week, I'm not exactly sure the date, two friends saw an orange glow above the baseball park adjacent to the lake. I thought at first there were fireworks but there were six spheres flying in formation, three in front and three in rear, the front formation was a diagonal line of three. The rear was a triangle pointing to the front formation. It would have seemed a large single craft if they weren't osculating freely. They moved slightly in an in and out in perfect formation. This formation continued across the sky, which was a clear dusk sky. The individual objects were an amber, blue, gray all put together. The light was an iridescent glow. They appeared very high in the atmosphere, and were moving over the horizon very quickly, but soundless. They resembled the size of a magnified human egg, round with an inner circumference and an outer. Only my friend and I saw it, that we know of. As the Crafts continued across the dusk sky, we both observed them vanish one by one, front of the formation to the back. Please contact me at Guitardude823@aol.com. Thanks to Peter Davenport Director www.ufocenter.com

Indiana diamond positive UFO photos

ROANN -- I saw a silver diamond shape craft and thought it was an airplane. It was still and then it flipped to its side and vanished. I had my digital camera and just started taking pictures of where it had been, as I kept driving on July 1, 2005, at 7:05 PM. I saw nothing except traces in the sky, like smoke or rocket trails. When I downloaded the pictures I found 5 or 6 photos of the UFO with two pictures showing smoke circles and a zigzag

pattern in the sky. It must have been traveling real fast because the camera caught what I could not see. It was a ball of fire with a black object in the center. I am very pleased with these photos. Thanks to Peter Davenport Director
www.ufocenter.com

Maryland two diamond shaped craft

FRIENDSHIP -- I was walking through my neighborhood with my friend when we spotted two diamond shaped objects in the sky on June 30, 2005, at 10:45 PM. We thought they were stars, but then the objects started moving, and were a real bright white color. We stood there on the dark street corner for a two minutes and then they started moving east and slowly disappeared out of sight. Thanks to Peter Davenport Director
www.ufocenter.com

Maine Sphere

WESTBROOK – My friend and I were riding our bikes on July 3, 2005, at 10:20 PM, and stopped for a minute as we watched four motorcyclists rides by. My friend said “hey what’s that? And we saw a bright, large, moving star. It was like a fast moving North Star. After 5 to 10 seconds it was in the other side of the sky moving behind the trees. Look there’s another one”. It looked exactly like the other one except it was going in almost the exact opposite direction. It was going a little bit faster than the other one though and much faster than any aircraft. About 45 seconds after that one was gone the last one appeared. It looked the same and was moving the same speed although this one was the most unusual. It seemed to come out of no-where. It just vanished. Thanks to Peter Davenport Director
www.ufocenter.com

North Carolina sphere

KILL DEVIL HILLS OUTER BANKS -- On June 27, 2005, at 9:25 PM, I went outside facing south looking towards the side of the K-Mart, I barely noticed this orb-like object. Suddenly, this object moved sideways to the right, then flew left, then upwards a bit and again erratically sideways, sometimes hovering for a second or two, but then always resuming its path in moving up. By this point, my heart began racing because I realized that what I was seeing did not make any sense. I

stood there and watched the object as it continued this erratic pattern across the sky until my view was obscured by the roof over my porch. I ran outside to the other side of the house so that I was facing east and again found the object continuing its path. Some people on the beach, set off some fireworks that shot into the sky and the orb moved north past the fireworks and within seconds it disappeared into the clouds. The object was perfectly round and seemed to blend in with the night sky. The object appeared to have been dark or matte. Thanks to Peter Davenport Director www.ufocenter.com

Oklahoma metallic triangle

CARTER – A low-flying triangular shaped object with three blinking lights flew for about four minutes, and then vanished on June 27, 2005, at 9:25 PM. It flew southeast, stopped for about a minute, turned northwest, flew for almost two minutes, and then vanished out of sight. Also, the lights on the object blinked in a sequential counter clockwise order. Thanks to Peter Davenport Director www.ufocenter.com

Michigan gigantic UFO seen

Lake Michigan Triangle -- On Tuesday, June 21, 2005, at 3:30 a.m., Alexander Reynolds and a few fishing buddies were trying their luck at a private beach on Cat's Head Point near Northport, 30 miles north of Traverse City. "I and a few friends were having a fish fry on a private beach in the early morning," Alex reported, "Then we all noticed an extremely large sphere of light many miles southwest. I'd say it was 1,000 feet (300 meters) in diameter--or larger."

"It looked about twice as big as the moon would be on the horizon and looked like a big circle with the top sheared off just a bit above the center. It then 'grew' another sphere, and this one went below the horizon. "Its color was a burning orange, and the object's actual size may be reduced due to the brightness of the sky. It was as if the sun could be seen in the night sky, except that it illuminated nothing but itself--a giant burning ball. The whole thing lasted maybe 15 to 20 minutes. I would say the object was about 100 feet above the surface of Lake Michigan. Thanks to [UFO ROUNDUP Vol. 10, # 27](#), July 6, 2005, Editor: Joseph Trainor Masinaigan@aol.com

Missouri UFO photo from 1950's

KANSAS CITY -- Richard Buchli D.V.M. PhD, This is from my 50s file when I was giving lectures on UFOs "those were the days" I subscribed to a clipping service and found out about this photo. This was the 12 year old boy's birthday, and he had received a camera. He took the camera to his back yard to try it out, and just as he went out, the UFO flew over and this is the shot he took... His father was a prominent doctor in that town, and I have every reason to believe his story. When I wrote to him and requested a copy of the picture he had taken, this was my response. Thanks to Richard Buchli D.V.M. PhD, docrib@kc.rr.com

Oklahoma mutilated cow found

PARADISE HILL -- Skywatch International reports, He stops short of pointing the finger at aliens, but Ray Riguidel swears what he saw in his pasture last Friday evening couldn't have been done by humans or animals. Riguidel, 68, has been farming near Paradise Hill his entire life. During that time he's lost his share of cattle under various circumstances, but the 10-year-old cow he lost this weekend was far different from the rest. The udder was gone, one eye and ear had been removed and the sex organs were torn away. The remaining 50 or so cattle in the pasture had congregated as far away from the corpse as possible. There were no tire tracks or footprints. There was no sign of a struggle. Perhaps most bizarre, however, was a glaring lack of blood despite the numerous and carefully crafted incisions into the carcass.

Visit The Skywatch-International Web Site
<http://www.skywatch-international.org/>

Oregon disk

SPRINGFIELD – The witnesses were working in the yard on July 3, 2005 at 2 PM, when they and spotted a huge Coast Guard helicopter flying from the Oregon coast line. Right in front and above, at about 20,000 feet of the helicopter was a bright reflective saucer shaped object moving very, very slowly. It was back dropped by a clear blue sky without a cloud behind it. It seemed to be reflecting the sun in a type of pulsating, rhythmic display of extremely bright light. It was moving

very slowly and then stopped moving. About 2:12 PM, the UFO did a vertical ascent and disappeared. The helicopter did a sharp turn right/south when the object stopped moving and did a 180 degree reverse path heading straight back west to the Cascade Mountains.

Within two minutes we saw a large white jet coming from the south (maybe Klamath Air Force Base) heading north. It had radar unit on top of it. It was headed north into the exact spot from where the UFO hovered and disappeared.

Using our digital camera we took several pictures of the UFO. Thanks to Peter Davenport Director www.ufocenter.com

Texas egg

LAKE WACO -- On July 3, 2005, at 9 PM, the witnesses were on a camping trip when they saw an egg shaped object in the sky. The witness states "My Mom and I saw a flashing red, blue, and green object that was about 10,000 feet in the sky." We are pretty sure it was egg shaped but it was hard to see. It was also slightly moving for four or five minutes Thanks to Peter Davenport Director www.ufocenter.com

Nevada Area 51 Japanese NHK film crew

Eugene Cuthbertson writes, "I go a long way back in UFOlogy, to NICAP. and APRO. I've had a few sightings, accompanied a Japanese NHK video team to Area 51, and I had a very brief close encounter. The Japanese NHK film crew got some good stuff and I have a copy of it on video, which I am going to convert to CD and into this Dell computer, as an MPEG." The Japanese were careless and worried me a great deal. This has been a few years ago, before Freedom Ridge was closed. The Japanese monitored the security patrols and you can hear the patrol radio back that his area is clear. When the patrol went back, the Japanese waited a short time, continued to monitor security, illegally I think, then followed him back in but I don't know how close we actually were.

On the video you can see a fairly large lighted craft emerge straight up. It either issued another craft or another craft, which was red, went up with it, screened off from us and appeared. Both maneuvered for several seconds or a minute then went back down to the base. We were on the

backside of Groom Mountain. On the VCR, if you pause the video and press the tracking buttons, the static confetti will be deleted and it is possible to make out both disks for what they are. This was part of a six-hour miniseries in Japan and I have the final 2 hours of it. For years I didn't think much about the tape, assuming that most people in Ufology already knew about it. Gene

Nevada UFO's seen several days in a row

LAS VEGAS – The witness reports seeing UFOs five days in a row. On Thursday, July 7, 2005, he saw five objects all the same kind (morphing) between 1:15 and 2:30 PM.

Friday, July 8, 2005, I saw numerous objects, starting at noon in the backyard. I looked up and saw the same star like object in the same portion of sky and I ran inside to get my binoculars. It was not only the star-like object but there were at least nine other objects all around it and the scariest part was that I could actually see them dropping straight down from the sky to surround the bright one. Three of the objects moved away from the others and moved in a northwesterly direction over my house. I did get all three on the camera but it was fast.

Then, today, Saturday, July 9, 2005, I saw fifteen more and while watching one of them through the binoculars three more came into my field of view and all four were close together, then two of them just blinked out! Thanks to Brian Vike

Ohio sightings

FOSTORIA -- KennethJankowski@cs.com writes: "The Fostoria craft are phasing, and are definitely a dimensional craft. Those are the ones that look thirty feet on the outside, but once inside its like a hundred yards wide.

MIDDLEBURG HEIGHTS -- Aaron Clark reports he received two reports on the www.clevelandufo.com the website

Report #1 "This evening I was coming home after dropping off my daughter's friend, it was about 11:45 PM, and my two teenage daughters and my niece were in the car with me when we noticed a bright red light in the sky above my house. It looked like a TV tower light except it was not blinking. We stood in the driveway for twenty minutes viewing when suddenly, it started falling.

It zipped through the sky with great speed and flew north, when it simply disappeared.

Report #2 "On July 10, 2005, while working at Cleveland Hopkins Airport we saw a red light in the sky, just above the Ford plant in Brookpark. The light hovered for about 45 minutes and was probably 2 to 3 thousand feet in the sky. It was not a helicopter, blimp or an airplane, and made no noise... The ATC tower was called and they didn't know what it was either, eventually it turned and starting moving to the east and eventually vanished." Thanks to Aaron Clark
www.clevelandufo.com

Pennsylvania unidentified black oval object

LEVITTOWN -- I was swimming in my back yard pool when I noticed a small dark oval shaped object in the Eastern Sky on June 26, 2005, at 7:10 PM. It appeared to be motionless not ascending or descending. It looked to be about 1 mile away and at an altitude of 5-10,000 feet. The sky was clear and the visibility was greater then 7 miles. My wife and my 6 year old daughter also witnessed the object. We were watching this for about 10 minutes and then it slowly began to rise higher on the horizon and move to the right behind a tree that is in our back yard. I could see the object through the tree branches but it disappeared rather suddenly. Thanks to Peter Davenport Director www.ufocenter.com

South Carolina disk with bright lights

HILTON HEAD – Three friends spotted an extremely bright light in the sky, hovering over Hilton Head Island Beach on June 25, 2005 at 10 PM. It was a large circular object with 8 or so bright white lights on the bottom just hovering without making any sounds. My friend asked us to stop and see if it was moving. We stopped and observed that it was ever so slightly moving to the right of us. This is on the beach with thirty mile an hour winds whipping. We decided to run towards it to get a closer look and as we did, it seemed to come closer to us for about 15 seconds. The eight lights were on the round area on the top that seemed like a "cockpit". As we continued running towards it, it seemed like the object saw us, and hovered away to the right, dipping lower and lower until it seemed like it had landed, and where it disappeared; there was a bright light in the sky.

Thanks to Peter Davenport Director
www.ufocenter.com

Virginia unknowns

MONROE --I saw them in the WSW sky from my location in western Amherst County, on July 5, 2005 at 2:30 PM. They were very distant, like watching a satellite cross the night sky. They were in a cluster when I first saw them, then a minute or so later they dispersed in all directions. The object zigzagged with extremely quick movements. Later one returned to the same sky and would move quickly one direction to the next and then stopped, then seemed to disappear.

Thanks to Peter Davenport Director
www.ufocenter.com

Wisconsin circle

MT. PLEASANT

– On July 2, 2005, at about 9:45 PM, a red round object was seen flying west then going north. Looking north towards Milwaukee on a clear night, with stars visible, airplanes coming and going out of Mitchell Airport and fireworks going off, my son and I saw a red light appear out of the east by Lake Michigan. We could not tell the distance and no sound but there was a solid red light in color/round in shape. Thanks to Peter Davenport Director www.ufocenter.com

Argentina mutilations continue

Francisco Fazio has an impressive web in Argentina that shows many mutilations that have taken place in that country.

Web site: www.franciscofazio.com.ar. Thanks to Francisco Fazio

Canadian sightings increase

Oshawa/Whitby, Ontario

Paul Shishis writes, "On Sunday, July 10, 2005, at about 11:30 AM, as I stepped outside on the deck facing west. I looked up and witnessed a round white object, tumbling in motion with a hint of red." This object was moving east to west, about 2-3000 ft., at the speed of about 100 mph + would be a guess. I watched it for about 10-15 seconds; and it just vanished in the hazy blue sky. Looking directly west, I saw a streamlined object like a white jet, but more thick in body at about 10,000 feet + that looked like a jet. When this object

moved closer to a mile away, it redirected southward, towards Lake Ontario. The object changed direction, 'sideways' so it was definitely 'not' a jet and I did not see any wings. This object after redirecting south in 10 seconds, just vanished! Thanks to Paul Shishis

ABBOTSFORD, BRITISH COLUMBIA -- On June 30, 2005, at 12:45 AM, I grabbed my CD player and my pack of cigarettes and went out on the patio when something caught my eye from the apartment building across the parking lot. It looked like someone had thrown a Becel margarine container over the next building with what looked like tin foil around it (the object was way bigger than a margarine container, but the same shape), it was shining and when I looked at it about two seconds later it slowed down and looked like it was gliding. The object got out of view after almost a minute and my CD batteries died.

The next day, the CD started to play perfectly normal and then I remembered the night before. The batteries were almost full and everything worked fine. The flying object definitely looked as though it was maneuvering on its own, just soaring, but there was no wind. Thanks to Brian Vike.

MERRITT, BRITISH COLUMBIA -- We were watching the fireworks on July 1, 2005, about 10:30 PM. My family and I plus about 100 other people always sit on this grassy hill when it's fireworks time and tonight while the small ones were popping away, I heard someone say "What's the light up there?" So we all looked and way up high was a single bright roundish light almost overtop of us that flew off south after 30 seconds. I've never heard of a plane having one of those bright headlights on the back of it. There was no sound noticed, the color was just like a large white plane light when it's flying towards you but this was flying away and had no other lights. It gained speed as it moved away.. Thanks to Brian Vike, Director HBCC UFO Research Home - Phone 250 845 2189 email: hbccufo@telus.net Website: <http://www.hbccufo.org>

TERRACE, BRITISH COLUMBIA -- I saw a silvery disk appearing on the 8th of this month at 21.20 PM. I was reading on my porch, facing NW, when I witnessed something out of the corner of my eye and looked up. In a distance of +- 50

meters, I could see a silvery disk hovering around 40 meters above the ground. The object did look like polished steel, because it was reflecting the trees and area below like a mirror. The lower half of the same was more bulgy (wider) and four rings were clearly visible. The lower right of the disk had some markings or writing in light red. It remained stationary for a few seconds and flew off to the south, and when I looked on the other side of my trailer there was only clear sky.

Chile UFO landing video under analysis

ULTIMA ESPERANZA, 12 TH REGION --

Terra.cl reports that incredible images depict the landing of an unidentified flying object in southern Chile.

This sequence of clips form part of an exclusive video taken in one of the world's southernmost locations and which show the vast amount of UFO manifestations in that territory, which is considered a UFO 'hotspot'. This video was taken on March 17, 2004, and is under analysis by AION's director, Rodrigo Fuenzalida. Translation (c) 2005. Scott Corrales, IHU.

Crimea summer UFO wave

CRIMEAN PENINSULA -- As we established for many years of observations, UFOs appear over Crimean Peninsula every summer. On Tuesday, June 14, 2005, at 10:30 PM, numerous witnesses on the Black Sea saw a brightly lit disk-shaped UFO, emanating a bright-red light. The disk traveled at slow speed along the coast near Yalta and then began hovering over the Mogabi Mountain that is 804 meters above sea level. The disk then emitted two bright rays of red light pointed towards the earth. It then sharply zoomed up and vanished in the night sky. Local Yalta-based newspaper "Krymskiye Izvestiya" reported incident on June 22, 2005. This the first time, UFOs hovered over Mount Mogabi. They were reported in 1990-1992 several times.

We believe that some kind of the alien nano - technological device, possibly an alien monitoring device or a beacon is there gathering information. It's possible the rays recharged the device. Mount Mogabi has a great view of Yalta.

PUGACHYEV, SIMFEROPOL' --On July 2 or 3, 2005, after 11 PM, Yuriy A. Pugachyev, Simferopol'-based UFO researcher, saw the

brightly lit object, emitting yellow light, moving across the sky, from his balcony on the 5th floor. The witness is sure these were not satellites nor airplanes, because the UFO was bright and moved in a zigzag trajectory. The witness also emphasized he saw several UFO's last year from his balcony.

Numerous rumors circulate around ancient underground cavern bases, cities and tunnels, allegedly left from ancient times. Some parts of this underground infrastructure in Southern Ukraine and Crimean peninsula are still allegedly used by aliens and UFOs from time to time. There are solid rumors about "gateways" or "windows" to some parallel dimension on Ay'-Petri plateau west of the town of Yalta where numerous UFOs are regularly observed. Thanks to Dr. Anton A. Anfalov, Crimean UFO Research an@crimea.com tel. (home) 380 (652) 25-66-90 ul. Kyibusheva str. 13, kv. 332 Simferopol'-34, AR Crimea, 95034 UKRAINE

Greece very bright light

ZAKYNTHOS – On June 29, 2005, at 10:40 PM, the witness reports, “We observed a bright light traveling in a north-easterly direction, faster than a plane that stopped for ten seconds, and then slowly disappeared.” It was traveling very fast without noise, and no aircraft flashing lights. At first we thought it was a satellite, so we fetched our binoculars and followed it through the night sky. Then, it stopped for about ten seconds, afterwards it continued to move slowly but appeared to be moving upwards and away because its light became gradually dimmer until it disappeared altogether. It was a very clear night with lots of stars out. All three of us saw the light for about 60 seconds. It was brighter than any star in the sky.

India UFO sighting

Mumbai -- On June 25, 2005 at 10 PM, we were on our terrace in the monsoon season so whatever we saw was not stars because it was cloudy. We spotted a small circle of light, a dot just above our heads that flew towards the east and again went back to opposite direction in high speed. There are no known modern military craft that can go at such high speed

Indonesia: UFO/Meteor Video

WEST JAVA -- On Sunday, 26 June 2005 at 17.50 PM, my daughter told me there was something up in the sky. Some of my neighbors were already looking at something like a meteor coming down to Earth and burning. I grabbed my DVD camcorder, and recorded only a few seconds that I transferred to my PC. Many of the neighbors are witnesses. No one reported any sound, and it did not hit the ground either. There were no reports of airplane crashes or meteors on TV. This sighting was in Graha Yasa Asri, Jl. Raya Serua Sawangan, Depok, Jawa barat, Thanks to Christopher Montgomery UFORC International Global Network <http://uforc.com>, video clip <http://www.kiwisgraphics.com/indonesiaufo.html>

MEXICO CITY -- Jaime Maussan during the radio show 'Los Grandes Misterios' on July 3, 2005, reports that forty or more UFOs were sighted near Xalapa on June 30, 2005. A strong rain during early hours left a clean sky, when Pedro Avila, director of the Vigilantes Skywatch group received a call from colleague Enriquer Vallarino telling that an employee alerted him of a UFO sighting outside on Cuahutemoc Street people were already excitedly pointing at a cluster of UFOs. At the same time, the Jaime Maussan Research Center began receiving calls from witnesses seeing a fleet of many shining UFOs flying together. According to Pedro Avila, "It took just a few minutes to receive confirmation from his Vigilantes colleagues that there were UFOs and they were videotaping forty metallic, sphere shaped objects shinning in the sun. There was a single, larger object noticed above the main formation which was described as having a yellowish color."

Jaime Maussan received a report from Alfredo Adame, popular TV host from a daily show by TELEVISA saying that many people were calling the TV show reporting a huge UFO sighting. People at the airport's control tower were asked if their radar screens were detecting the objects but they declined to make any statements. At least three videos were taken by Maria Montcerrat. The images were carefully analyzed and the 'balloon' explanation was quickly discarded because of the synchronized flight path and patterns flown by the whole mass of UFOs. Mr. Olazcoaga managed to capture on video the moment when the UFO

formation moved slowly with the moon behind, a beautiful image. His son Jesus is heard on the tape asking him: "Are they going to attack us?" Thanks to Santiago Yturria

Puerto Rico enormous tapeworm UFO

A AGUADILLA-- Professor Reinaldo Rios reports, "On Tuesday, June 28, 2005, about 10:15 PM, an enormous tapeworm shaped ship with several lights underneath was observed in intervals over the northwest area of the island. Residents of Aguadilla saw the craft hovering above. A young person Carlos Hernandez took a photo with his digital camera. Professor Rios went to the area to interview many of the witnesses." They reported, "The object remained overhead for a long period of time emitting various colored lights that were changing. The photo provided by writing Channel 12 of WOLE TV in Puerto Rico who produce programs on UFOs for this company. The photo shows several lights in colors surrounded by a reddish light, that changed the color tonality." Thanks to Prof. Reinaldo Rios Press OCPI of PR # 97-055 reinaldorios888@yahoo.com

Puerto Rico National Day of UFOs

LAJAS -- Gladys Nieves Ramirez reports, that a mystery surrounds the town where on June 25, 2005, National UFOs Day, was celebrated along with Extraterrestrial or Wagon Route 303. Reinaldo Rios, coordinator of the event, said that the activities will commemorate recent important. Lajas, was proclaimed the UFO Capital of Puerto Rico by the municipal government, and is full of strange things. Rios said, He has testimony of rare creatures in the area of the Cartagena Lagoon, where UFOs are frequently seen entering and leaving.

Its safer in Iraq than on the highway

Lt. Gen. Steven Blum, the Army general in charge of National Guard forces states, "The dangers faced by American troops in Iraq have been exaggerated. The casualty rate for Guardsmen is low compared with any previous armed conflict, He said he recognizes that every death is a tragedy for that person's family. "But I lose, unfortunately, more people through private automobile and motorcycle accidents over the same period of time," he added.
