

Research the Issue

Research the specific problem and goals you have chosen. Summarize your understandings:

Your Problem Statement:			
Your Goal:			
SOURCE:		Link:	
Sourcing information (author, title, date, website) and an explanation of why THIS IS A CREDIBLE SOURCE?			

Historical Concepts & Analysis	Evidence from the Source (Quotes, facts, etc.)	What have you learned about this? How do you understand the evidence?	How does this help you think about the issue and its solution?
Evidence and Significance <i>What events, data or other evidence helps you understand the issue?</i>			
Cause and Consequences <i>What do you know about underlying causes and short and long term consequences of the issue?</i>			

Research the Issue

Continuity & Change <i>How long has this been going on? To what extent has it changed in the past? What has stayed the same?</i>			
Perspective <i>What is the dominant narrative on this? Who has created it? Who has been denied a voice in the issue? Why might this denial have happened? What are other ways of seeing this problem?</i>			
Ethical Dimension <i>How can you apply lessons from the past? How does this address injustices? How does it fit with your sense of justice?</i>			

See UCBHSSP [Instructional Strategies](#) and [Making History Modules](#) for approaches to this process
