Qualify for Mild Hyperbaric Therapy at Heartline Foundation

You must have a prescription from a chiropractor, acupuncturist or medical physician to qualify. If the intended recipient is a minor, they must be accompanied by an adult with their own prescription. This responsibility can be shared with any adults with a prescription. Your child must have a diagnosis such as autism or another developmental delay to qualify. We want to see families who are doing everything they can to create a full recovery for their kids. We realize HBOT does not cure but it enhances healing. We want to shock the world with holistic recovery stories, while cooperatively restoring the health of this generation.

Paperwork to apply for use of mHBOT unit- Only 6 families a year will be chosen. Families with CEASE practitioners, 2 kids with diagnosis, or seizures will move up on the list.
