OUTREACH SAMPLE EMAIL FOR CALIFORNIA LISTS

Dear friend,

People from all walks of life, all across this country, in towns big and small, **millions of people are rising up on October 18th with one voice** to proclaim that in the United States of America, we have NO KINGS.

We have climate contingents coming together in all major cities across California, who will be uplifting the unique role of Big Oil in the undoing of our democracy, and the need to Make Polluters Pay. [Join a climate contingent near you on October 18th!](#)

Trump = Big Oil

Donald Trump has shown complete disregard for the laws of the land, setting his own agenda to make himself king. And while we believe that climate justice is not a partisan issue, and climate disasters impact every American regardless of their political affiliation, the unfortunate truth is that Big Oil has aligned themselves with Trump and the far right. Trump made it clear that for their \$500 million in campaign contributions, he would make all their dreams come true, and has delivered by:

- cancelling billions in public transit and renewable energy projects, EV mandates and incentives,

- ending climate research and data,
- opening up public lands to oil and gas exploration,
- jamming LNG terminals through permitting,
- Pushing for the Sable pipeline in Santa Barbara that would re-open 3 offshore oil rigs
- And much more

Big Oil continues to use deceit and bribes to rig the system to their benefit, and against all of us, as we face more climate disasters. It is time to Make Polluters Pay.

Join a climate contingent near you at the No Kings marches on October 18th. If you don't see one near you and want to create one, reach out to ilonka@oilgasaction.org to get started.

FLIER TO DISTRIBUTE AT NO KINGS

(suggest printing in black and white, quarter sheets) [Q sheet PDF here.](#)

 **NO KINGS**

No Oiligarchs

- Big Oil bought Trump and has hijacked the US economy to their benefit
- Meanwhile, everyday people can't afford rent or the costs of climate disasters
- Fires get worse every year and those responsible get more tax cuts

Make Polluters Pay for the damage they have caused

TAKE ACTION!
