

BLACK LIVES MATTER

Hello! This is a compilation of resources gathered to inform, inspire, and empower us all to work towards creating lasting change in our immediate communities and nationally. As a community, we need to use our economic and social privilege that comes with living in the accepting, affluent Bay Area to help and fight for change in places less fortunate. Be the change you want to see and advocate for what's right. It starts with us.

*compiled by [Farah Hosseini](#), [Dylan Williams](#), and [Natasha Yen](#). Please contact one of them for suggestions/edits.

EDUCATION/BECOMING INFORMED : The first step towards becoming a valuable ally and creating lasting change socially and politically is understanding the struggle of African Americans in this country and the history behind this generational oppression. It is perfectly normal to feel uncomfortable, confused, etc. in reading or watching any of these resources. Do not feel ashamed for educating yourself. Instead, take pride and relief in the fact that you are pushing yourself to recognize and form empathy for the people affected by the truths reflected in these works. Continue to work past these initial feelings in the pursuit of your education and remember, African Americans do not have the obligation to educate you - it's time to educate ourselves!

IMPORTANT TERMS: Understanding racism is also understanding the structures in which racism exists. As author Scott Woods exclaims, “racism is a complex system of social and political levers... Yes, racism looks like hate, but hate is just one manifestation. Privilege is another. Access is another. Ignorance is another. Apathy is another. And so on.. It remains a powerful system that we’re immediately born into.” So, to understand it better, take some time to learn important terms!

BOOKS: We believe one of the best ways to learn about the struggles of African Americans both today and in the past is to read. We encourage you to read the news, but we have also listed books that have been recommended by other activists. Take some time to read and learn over the summer!

MOVIES/DOCUMENTARIES: You can learn through visuals too! Even if some of these may be fiction, they root themselves in the REALITY of injustice. Again, it’s okay to feel uncomfortable. That is part of the process. **Do not shy away from the discomfort.**
