Subject: 😬 Is THIS the Reason Your Manifestation Is Failing?

Hey [Name],

Remember yesterday's email?

We talked about the 5D Money Shift and tapping into that awesome potential for abundance.

But what if something is *blocking* you from fully receiving it?

Are you frustrated because you feel like you're doing *all the right things* (affirmations, visualizations...) but the money just isn't flowing?

Do you see other people succeed in manifestation but you're not?

It's *not* your fault.

Most people miss this one CRITICAL piece: Your hidden money blocks. 🤯

These aren't just surface-level "I'm not good enough" thoughts.

These are deep-seated beliefs rooted in childhood experiences, societal programming, and past financial traumas. 😨

These invisible blocks are like a leaky faucet.

Even if you're pouring abundance in, it's constantly draining away. 📉

I've identified the 5 biggest money blocks that stop people from manifesting wealth.

Want me to break them down for you?

Tell me what's your biggest struggle with wealth?

Reply now, and I'll tailor my next email to help you overcome it! 🙏

I'm seriously excited to guide you on this,

Subject: **Prepare for a Wealth Shift...**

Hey [Name],

I'm still buzzing from all the amazing responses to my last email!

It's clear: so many of you are feeling STUCK, even though you know deep down you're meant for more.

You're ready to trade that frustrating cycle for a life of freedom, purpose, and abundant income. And I'm all for that!

After reviewing your responses, I identified five key money blocks that hold most people back:

- Fear of Taking Risks
- Fear of Not Being Good Enough
- Fear That Success Will Change Everything
- Guilt Around Wanting More Money
- Feeling Unworthy of Wealth

Do any of these sound familiar?

If so, do you know how to overcome them?

I'm crafting something exclusive based on your responses – a personalized roadmap to identify *your specific* money blocks and give you the first steps to dissolve them.

Inside this roadmap, I'll break down exactly how to overcome these blocks and step into abundance.

I'm dropping the roadmap soon... *Reply with "I WANT TO KNOW"* if you want to be first in line to get it (plus a little extra surprise!).

Subject: **The Hidden Reason You're Not Rich Yet**

Hey [Name],

You might think you know what's holding you back from achieving financial freedom, but what if there's something hidden beneath the surface?

Something that's been quietly sabotaging your ability to manifest the wealth and success you deserve...

In my previous emails, I mentioned the five money blocks that keep so many people stuck:

- Fear of Taking Risks
- Fear of Not Being Good Enough
- Fear That Success Will Change Everything
- Guilt Around Wanting More Money
- Feeling Unworthy of Wealth

These blocks aren't just thoughts—they're deeply ingrained patterns in your subconscious.

They silently shape your decisions, your actions, and ultimately, your results.

But here's the **good news**:

These blocks aren't permanent.

With the right approach, you can dissolve them and step into a reality where abundance flows effortlessly.

Brent and Molly, two of my clients, went from making \$30,000 a month to **\$100,000**.

And Alan, another client, built a six-figure business in just six months.

They achieved this by breaking through their own money blocks and aligning with their true wealth potential.

Now, I want to help you achieve the same.

But first, let's make sure this is the right fit for you.

I'm offering a few **FREE** discovery calls this week to help you break through your money blocks.

And trust me, there's more to discover inside—surprises and insights that will blow your mind!
