Sony's Next PlayStation Handheld

Source: [Insider Gaming](#)

- Rumor (?)
- The next PlayStation handheld is codenamed Q Lite.
- The device will require the PlayStation 5.
- It is not a cloud-streaming device, but instead uses Remote Play with the PlayStation 5.
- Sporting adaptive streaming up to 1080p and 60FPS, the new device will require constant connectivity to the internet.
- Early prototypes show the console will look a lot like a PlayStation 5 controller, but with a massive 8-inch LCD touchscreen in the center.
- The device sports adaptive triggers for haptic feedback and will include what you would come to expect from a handheld – Volume buttons, speakers, an audio input jack, etc.
- Q Lite is in its QA phase and is scheduled to release late 2024.
