

State Finance Committee Annual Report for 2022

The state finance committee welcomed Brenda Rice of Eta as Karen Johnson completed her term. We struggled to meet this spring with everyone's busy schedule, but finally had our annual meeting in May focusing on setting a proposed budget. Lower member numbers, rising costs of convention, and a growing need to make budget changes challenged the committee in balancing the budget. We finally accomplished our goal in early June by making a few cutbacks and completed a proposed, balanced budget to be presented to the general membership at convention for approval.
