

Hotel User Portal Navigation Enhancements

August 2023

EventPipe Feature Enhancements

EventPipe is pleased to announce that a much requested enhancement has just been released.

Navigation tabs that have been present on several pages of the Hotel User Portal have now been permanently added to all three sections of the portal. As a reminder, those navigation tabs are named Hotels, Pickup Reports, and RFPs. Our expectation is that this will make it straightforward for your hotel partners to interact with the system and reduce any offline support that they need.

In addition to this, the breadcrumbs of each page have been updated to more accurately represent where the hotel user has navigated to.

The screenshot displays the Hotel User Portal interface. At the top, there are three navigation tabs: "Hotels (14)", "Pickup Reports (2)", and "RFPs (45)". Below the tabs, a list of hotels is shown, each with a small image, the hotel name, address, and a "View Events" button.
