

**Shri. Shivaji Science College, Amravati**

**Dept. of Environmental Science**

**Activity reports – 2025-26**

**Outreach Activities : 25-26**

### **1. Industrial Visits :2025**

**Title of the activity:** Visit to Nankani Paper Industry, Econiture Plastic Recycling Industry & ECE solar panel industry of MIDC, Amravati.

#### **Objectives:**

1. To provide students with practical exposure to real-life industrial production processes.
2. To understand quality control, safety measures, and environmental sustainability practices in industries.
3. To develop awareness of various career opportunities in industrial and manufacturing sectors.
4. To bridge the gap between theoretical knowledge and practical industrial applications.
5. To enhance students' industrial communication, teamwork, and observational skills.

**Activity Conducted:** Industrial visits were organized by Department of Environmental Science for the students on 10<sup>th</sup> September to provide practical exposure to real-world industrial processes, manufacturing workflows, and sustainable technologies. The visit included three different industries: Nankani Paper Industry, where plain paper is converted into graph sheets and notebooks; Econiture Plastic Recycling Industry, which converts plastic waste into durable furniture and products; and ECE Solar Panel Industry, where solar panels are assembled from individual components. The objective of the visit was to understand production processes, quality control measures, safety practices, and the role of industries in environmental protection.

#### **I. Visit to Nankani Paper Industry**

**Overview of the Industry:** Nankani Paper Industry is engaged in the production of various paper-based products, primarily **graph papers, notebooks, registers, drawing sheets, and customized stationery items**. The industry receives plain paper sheets or reels from paper mills and further processes them into finished educational and commercial products.

## **Manufacturing Process**

### **1. Paper Cutting:**

Large plain sheets or paper rolls are cut into required sizes using automatic cutting machines.

### **2. Printing Process:**

- Graph lines, ruled patterns, margins, and customized formats are printed using offset printing machines.
- Ink quality and alignment are checked to ensure clarity.

### **3. Drying and Quality Checking:**

Printed sheets pass through drying units and are inspected for printing accuracy, color uniformity, and defects.

### **4. Folding and Gathering:**

Sheets are folded and arranged into proper order for notebook or register preparation.

### **5. Binding:**

- Binding is done using stitching machines, spiral binding, or perfect binding depending on the product.
- Covers are added during this stage.

### **6. Final Trimming and Packaging:**

Finished products are trimmed for neat edges and packed in bundles for dispatch.

## **II. Visit to Econiture Plastic Recycling Industry**

**Overview of the Industry:** Econiture is a sustainable enterprise focused on **plastic waste management and recycling**. The industry collects plastic waste from municipal sources, and scrap dealers, and converts it into eco-friendly products such as **chairs, benches, tables, flower pots, tiles, dustbins, and decorative items**.

## **Recycling and Production Process**

### **1. Collection and Segregation:**

Waste plastic (HDPE, LDPE, PP, etc.) is collected and segregated based on type, colour, and quality.

### **2. Cleaning and Shredding:**

Plastics are washed to remove dirt and impurities, dried, and then shredded into small flakes using shredder machine.

### **3. Extrusion Process:**

Shredded plastic is melted in an extruder at controlled temperatures and converted into plastic strips or pellets.

#### 4. **Moulding and Shaping:**

- Plastic material is fed into moulds to prepare planks, boards, or product components.
- Molds are cooled and shapes are removed.

#### 5. **Assembly of Furniture:**

The prepared boards are used to assemble chairs, tables, stools, and other furniture items.

#### 6. **Finishing and Quality Check:**

Painting, polishing, drilling, or cutting is done based on product requirement.

### III. **Visit to ECE Solar Panel Industry**

**Overview of the Industry:** ECE Solar Panel Industry is engaged in the assembly and production of **solar photovoltaic (PV) panels**. The industry imports solar cells, glass sheets, aluminium frames, junction boxes, and wiring components separately and assembles them into fully functional solar panels.

#### **Solar Panel Assembly Process**

##### 1. **Solar Cell Arrangement:**

Individual solar cells are arranged in series and parallel combinations to achieve desired voltage and wattage.

##### 2. **Tabbing and Stringing:**

Cells are connected using conductive ribbons through soldering to form “cell strings.”

##### 3. **Lamination:**

- The cell strings are sandwiched between EVA sheets, a backsheet, and a protective tempered glass.
- This stack is placed in a laminator where vacuum and heat seal the layers permanently.

##### 4. **Framing:**

Laminated panels are fitted into **aluminium frames** for structural strength.

##### 5. **Junction Box Installation:**

Junction boxes with bypass diodes are attached at the back for electrical connections.

##### 6. **Testing and Quality Control:**

Panels undergo testing such as **flash testing**, insulation resistance testing, and durability assessment.

##### 7. **Packaging:**

Panels are cleaned, labelled, and packaged for dispatch to customers or solar project sites.

#### **Outcome:**

1. Students were able to explain the step-by-step process of paper product manufacturing and the importance of recycling in paper industries.
2. Students were able to demonstrate knowledge of plastic waste reduction, recycling technology, and creation of eco-friendly products like furniture.
3. Students were able to understand the principles of solar energy harvesting and the process of solar panel fabrication.
4. Students were able to recognize the role of modern technologies for sustainability and clean energy solutions.
5. Students were able to identify industrial machinery, workflow, and quality assurance systems used in different sectors.

Permission Letter for Industrial Visit

To,

The Principal,  
Shri Shivaji Science College,  
Amravati.

**Subject: Permission for Industrial Visit in MIDC, Amravati on 10<sup>th</sup> Sept.2025**

Respected Sir/Madam,

As a part of the curriculum of SGBAU, Amravati for our undergraduate & post graduate students, we've organized industrial visits to **3 industries** viz. Nankani Paper Industry, ECE Solar Panel Industry & Econiture Plastic Recycling Industry from MIDC, Amravati tomorrow on 10<sup>th</sup> sept.2025. We have also received their permissions.

The purpose of the visit is to provide students with practical insights into industry operations, processes, and career opportunities. Total 34 students of major Environmental Science subject of B.Sc. I & II and 23 students of P.G. will be there for visit industries along with 3 faculty members. **Time for the visit is 11.00 a.m. to 4.00 p.m.**

In this regard, we kindly request your permission for this industrial visit.

Thanking you.

*Pls  
Forwarding for your  
perusal permission  
(Dr. M.M. Deshmukh)  
9/9/2025*

**Subject: Request for Permission of industrial Visit on 03 Sept.2025.**

Respected Sir/Madam,

As a part of the curriculum of SGBAU, Amravati for our undergraduate & post graduate students, we organize industrial visits to provide them with practical insights into industry operations, processes, and career opportunities.

In this regard, we kindly request your permission for the visit to your industry for our **40-45 students** accompanied by **2-3 faculty members** on **03 Sept.2025**. The objective of this visit is to help our students understand manufacturing process, environmental management practices, quality control, etc.

We assure you that our students will maintain strict discipline and follow all safety and security protocols of your esteemed organization.

We would be grateful for your support in granting permission and guiding our students through this enriching learning experience.

**Thanking you in anticipation.**

Yours faithfully,
