

## **Cache Em' All**

### Contents:

- 15 caches (fun collectables, can be anything)
- list of coordinates
- two mobile device with Google Maps to look for coordinates

### Overview:

- two teams, create a group chat with both teams and gamemaster
- look for caches hidden in the general vicinity of Oakes, Rachel Carson, Porter College
  - message the group chat when a cache is found with a picture
- caches are tokens based off the location its at
- utilize Google Maps to find the rough longitude and latitude coordinates of the cache
  - then look around to find the cache

### Set-Up:

- gamemaster hides the 15 tokens at each location out of sight, marking down the longitude and latitude coordinates of each location
- both teams start from the same location, first to 8 caches win
