

LINCS Data Publication License Agreement Supplementary Form

Version 1.2 | 2023 08 16

This form collects information to accompany the [LINCS Data Publication License Agreement](#) (DPL). The DPL is signed by a single licensor, who may or may not be the person or people who worked with LINCS to publish the data:

- Data contributors: The individual(s) who worked with LINCS to prepare the dataset
- Data licensor: The data owner or the individual designated to represent a collective set of data owners; the signatory for the DPL agreement
- Data contribution team: The data contributors and the data licensor together

Upon completion of this form, please return it to lincs@uoguelph.ca. The LINCS team will prepare a PDF copy for signing by LINCS representatives and the Data Contribution Team.

Data contributor details

Details are required for all contributors. If a project has more than one contributor, duplicate this page and the final page (for signatures) and fill it in for each contributor.

Full name	
Address	
Organization, department, and/or other affiliation	
Email address	
ORCID ¹	
VIAF (if available)	

¹ LINCS encourages all dataholders to register for ORCIDs.

Data licensor details

Details are required for the data licensor in addition to the data contributor(s), where different. If the licensor's information is provided above, you only need to fill in the name below.

☐ The data licensor is the same as one of the data contributors

Full name	
Address	
Organization, department, and/or other affiliation	
Email address	
ORCID	
VIAF (if available)	

Affiliated project details

Project details are being recorded in and made available in dataset metadata. This metadata can be added to and changed as needed.

☐ The contributor has completed the ResearchSpace metadata form for the dataset

If yes, skip to Dataset details (below).

If no, either complete the metadata form on ResearchSpace and skip to *Dataset details* (below) or provide the project metadata information in this section.

☐ The contributor has sent an image or project logo to accompany the dataset metadata to lincs@uoguelph.ca

A short prose description of the project and dataset (anything from a few sentences to a few short paragraphs)	
Names and affiliations of projects and/or participants (to be credited in dataset metadata)	
Project website and/or social media account(s)	

Dataset details

LINCS is publishing linked datasets. As part of the preparation for publication, LINCS is sometimes accepting source collections for internal use as part of the conversion process. LINCS does not store or publish source collections.

Linked dataset name(s)	
Source collection name(s)	
Source collection location(s)	

Data ethics

Data contributors are reminded that new or additional ethics review may be required for some datasets. Please review the latest version of the Tri-Council Policy Statement: Ethical

Conduct for Research Involving Humans, particularly the section on [Data Linkage](#).

- ___ The data being published is related to research that required Tri-Council Ethics Policy review or internal ethics policy review at the data contributor's institution:
 - ___ Yes, and the data contributor has provided proof of initial ethics approval, and determined that no further review is required
 - ___ Yes, and the data contributor has provided proof of ethics approval specifically for data linkage
 - ___ No ethics approval was required

Data licensing

- ___ The licensor agrees to publish their data with LINCS under a CC-BY license.
- ___ The licensor does not agree to publish their data with LINCS under a CC-BY license. The licensor has requested and received approval from LINCS to publish under an alternative license as follows:

- ___ The licensor agrees to convert from a CC-BY license to a CC0 license or similar, if required in future, and does not wish to be consulted further.
- ___ The licensor does not agree to convert from a CC-BY license to a CC0 license or similar, if required in future, and wishes to have their dataset deaccessioned if it cannot be maintained with a CC-BY license.
- ___ The licensor requires consultation before converting from a CC-BY license to a CC0 license or similar, if required in future, using the contact information provided at the start of this agreement. If the Licensor cannot be contacted despite LINCS's best efforts, the Licensor's wishes are:

- ☐ The licensor agrees to publish their data with LINCS under a CC-BY license.
- ☐ The licensor does not agree to publish their data with LINCS under a CC-BY license. The licensor has requested and received approval from LINCS to publish under an alternative license as follows:

- ☐ The licensor agrees to convert from a CC-BY license to a CC0 license or similar, if required in future, and does not wish to be consulted further.
 - ☐ The data will be converted to a CC0 license or similar
 - ☐ The data will be deaccessioned
- ☐ The Licensor is publishing data, or a data subset, that has been submitted to and approved by LINCS to be excluded from LINCS's requirements (stated in Principles 6 and 9 of this agreement) for freely sharing and/or modifying where necessary. The restrictions on this data are as follows:

Additional uses of data

The Dataholders gives LINCS permission to refer to the Dataset and any related research projects for:

- ☐ Research outputs, including publications and presentations by LINCS and its representatives
- ☐ Training and workshops by LINCS and its representatives

- ___ On the LINCS portal and in LINCS-made tools and related documentation
- ___ For LINCS's promotional purposes
- ___ Potentially for any of the above, but requests consultation in advance regarding specific uses
- ___ The Dataholders does not give LINCS permission to refer to the Dataset and any related research projects.

If you are willing to have your dataset featured by LINCS (e.g., on the LINCS portal or in a LINCS tool, in LINCS promotional material), please provide:

- ___ A 100–120 word description of your dataset:

- ___ 1–3 images (minimum 560 x 200 pixels in SVG, PNG, or JPG format) related to your dataset, sent to lincs@uoguelph.ca.

Images must be available for reuse; images that permit alteration (i.e., no non-derivative clause) preferred. For each image, please provide the following information:

Image 1		
File name		
Source link		
Is the image in your dataset?		Yes / No [delete as appropriate]
	Link to entity in	

	ResearchSpace	
	Identifier for image in dataset	
	Title of image in dataset	
Citation details		
Copyright		
Short description		
Alt text		
Image 2		
File name		
Source link		
Is the image in your dataset?		Yes / No [delete as appropriate]
	Link to entity in ResearchSpace	
	Identifier for image in dataset	
	Title of image in dataset	
Citation details		
Copyright		
Short description		
Alt text		
Image 3		
File name		
Source link		

Citation details		
Is the image in your dataset?		Yes / No [delete as appropriate]
	Link to entity in ResearchSpace	
	Identifier for image in dataset	
	Title of image in dataset	
Copyright		
Short description		
Alt text		

Upon completion of this form, please return it to lincs@uoguelph.ca for review. The LINCS team will prepare a PDF copy for signing and will circulate it to all members of the Data Contribution Team.

This information has been agreed upon by the Data Contribution Team and the LINCS Collaboration:
