OUR SCHOOL COMMITMENT

We are committed to fostering a safe, accepting and supportive learning environment that promotes well-being (i.e., cognitive, emotional, social, physical) and the academic achievement of all learners. We believe that this is achieved through a Whole School Approach. We will respond to any student behaviour that is likely to have a negative impact on the school climate and will investigate all reports of bullying. We will provide support to those affected by bullying, including those who engage in bullying.

Bullying is not tolerated here.

POLICY STATEMENT

Bullying will not be accepted on school property, at school-related activities, on school buses, or in any other circumstances (e.g., online) where engaging in bullying will have a negative impact on the school climate.

What the Data Tells Us - School Climate Surveys and Other Data

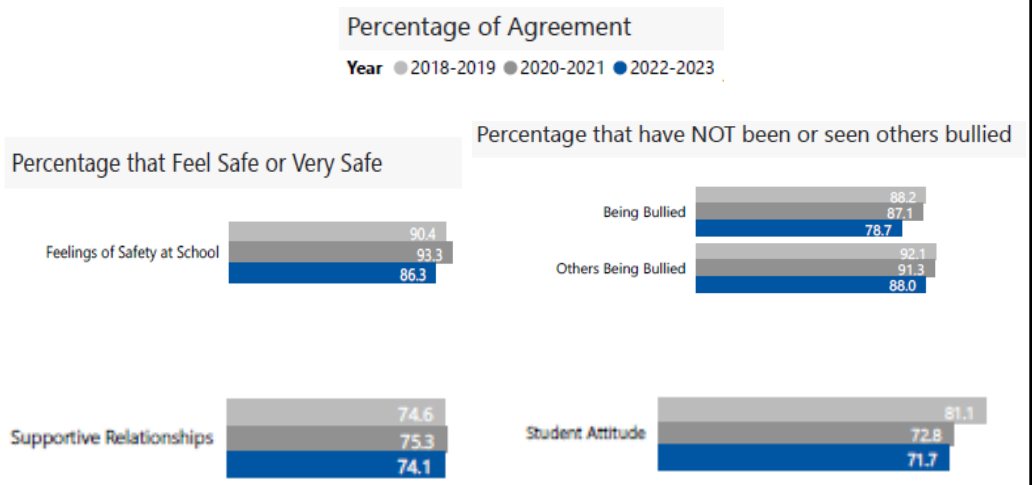

As part of the on-going monitoring and evaluation process, schools gather data from a various of sources, including school climate surveys of students, staff and parents every two years. Our school data indicates the following:

2023 - 2024 Bullying Prevention and Intervention Plan

STRENGTHS

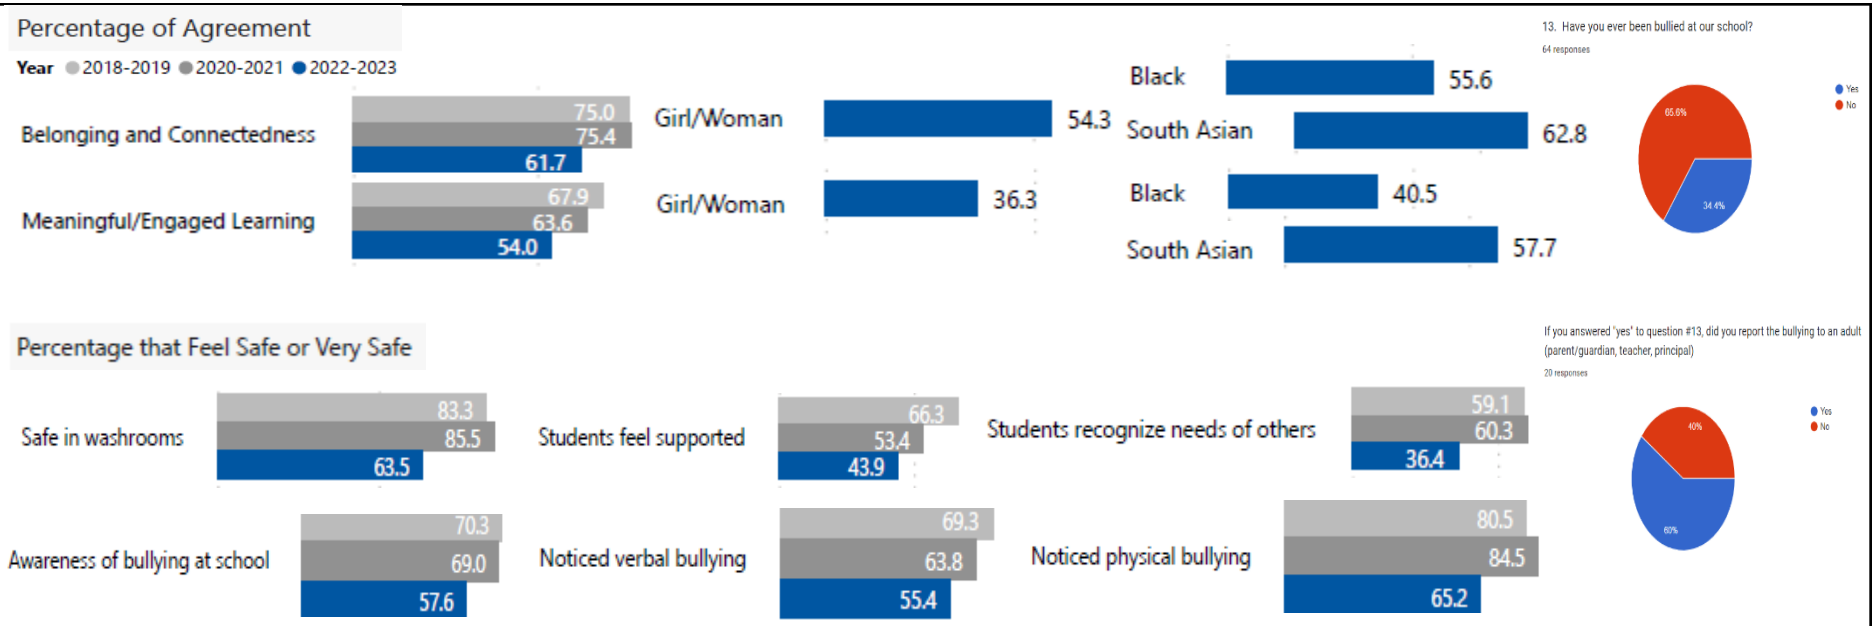

Based on the data from our **October 2022 Student Well-Being Survey (Gr.4-8)** and **22/23 School Climate Survey**, there is a high percentage of students, staff and parents who feel that the school is a safe learning environment, and who have not been bullied by their race, skin colour, sexual orientation or gender identity. It is encouraging to note that the percentage of agreement remains high for respondents feeling safe, NOT having been bullied, and the school learning environment has contributed to supportive relationships and positive student attitudes. We will continue to implement ongoing strategies, as well as, initiate new programs to support the well-being of staff, students and families.

Based on the analysis of various sources of data, our school has identified specific bullying prevention and intervention goal statements for this school year. These goal statements will drive our actions for this year. Outcomes will be monitored and assessed using a continuous improvement cycle.

Results also indicate that students are not readily aware of bullying and the needs of others, which aligns to their feelings of being supporting being low.
